## The Greatest Sale of Easter Novelty Jewelry Salt Lake Ever Saw or Will See in Many a Year.

Thousands of Dollars' Worth of High Grade Novelty and Fancy

Jewelry, such as is carried only by leading department houses and first-class jewelry stores. The stock is larger than this or any other store in the city ever carried.

The prices are so low that we must emphasize the statement that each article carries quality, style and expert workmanship. We state that each piece of jewelry and leather goods is of like character to that which Keith-O'Brien Co. and jewelry stores carry in stock all the time, and especially during the holiday season.

One of the largest jewelry manufacturers in the country failed recently. Following usual legal proceedings, our New York resident buyer made a cash offer for a considerable proportion of the stock. Keith-O'Brien Company was a large customer of the manufacturing firm, which finally went down under the strain of the depression. The managers, anxious to hasten a settlement and escape a long-drawn-out and expensive receivership, urged the acceptance of the cash offer. Later, the stock was divided with a large Eastern house, for it was more than we felt we could dispose of quickly in Salt Lake.

Regular prices have been quoted--in no instance has a value been inflated--rather, in many instances it is given at less than its real worth. Any one can tell the Jewelry, Hand Bags, etc., are BARGAINS by simply being assured as to the qualities--that they are not imitations, but standard merchandise. First choice is best--come early--the salespeople will not hurry you--but will help you
