

MORSE CASE GOES TO HIGHEST COURT

Circuit Court of Appeals Upholds Sentence of Prison for Convicted Banker.

STAY OF FORTY DAYS TO PERFECT APPEAL GRANTED

History of the Case That Has Aroused Great Interest Throughout Nation.

NEW YORK, Oct. 11.—Fifteen years at hard labor in a federal prison came one legal step nearer Charles W. Morse, the former banker and capitalist today.

When the United States circuit court of appeals upheld the lower federal court in sentencing the banker to such a penalty for misapplication of the funds of a national bank, Mr. Morse took the news calmly.

Morse surrendered himself and his attorneys immediately began steps to carry his case to the United States supreme court and to secure a continuation of his bail bond pending further argument.

The court finally granted a stay of forty days. While the court today did not lighten the sentence which Morse has been striving to annul, its decision was not entirely adverse, as it obtained only ten of the fifty-three counts on which he was convicted by a jury.

This, says his attorney, will leave a means of approach to the court of last resort, and an application for a writ of certiorari to review the case will be made on October 18 in Washington.

Unanimous Decision. The decision of the court today was unanimous. To Morse's complaint that fifteen years was excessive in view of the suspension of sentence on Alfred H. Curtis, who was indicated with him, the court answers that this is a complaint to be made to the president of the United States in asking clemency.

Morse was indicted on March 12, 1908, on his return from Europe. The indictment contained fifty-three counts, comprising conspiracy to defraud the United States government, the making of false entries and the misapplication of the funds of a national bank.

It was charged that Morse, with others, was engaged in a pool that was manipulating the stock of the American Ice company. As the result of this pool, United States District Attorney Stimson declared, Morse and his associates became possessors of large blocks of ice stock and finally, getting near the end of their resources, went to the National Bank of North America and obtained money to continue the speculation.

The government alleged that from time to time \$1,200,000 of the bank's money was used for this purpose. Since June 17, when Morse was released on bail, he is reported to have paid off \$5,000,000 of his \$7,000,000 indebtedness and to have regained control of a large part of his extensive steamship interests.

Statement of Wife. When word of the decision came,

FAMILY COUGH SYRUP

Cures Any Cough in Five Hours—New Prescription Here.

Here is given the most effective cough prescription known to the medical world. It is a mild laxative, too, and this is what a body needs when suffering with cough and cold on the lungs. A cough or cold indicates poison in the system, causing inflammation and congestion. Nearly all cough syrups relieve, but make the trouble worse by their constipating effects. This prescription not only relieves quickly, but it cures any cough that is curable. Get one-half ounce fluid wild cherry bark, one ounce compound essence cardiol and three ounces syrup white pine compound. Mix in a bottle. Take for acute cough or bronchitis twenty drops every half hour for four hours. Then one-half to one teaspoonful three or four times daily. Give children less according to age. A few hours' treatment will cure and heal the throat and lungs of all but consumptive. Cut this out and give it to some friend who may need it to be saved from an early death by consumption.

Mrs. Morse, who was with her husband, said: "All along we had the utmost confidence that a new trial would be granted. The decision today came as a great surprise to me. My husband is brave and he will continue to struggle for his liberty. Mr. Littleton will remain in charge of his case and will try at once to obtain Mr. Morse's release on bail."

When he left the federal building in custody of an officer for the Tombs, Morse was not handcuffed.

One of Mr. Morse's keenest regrets at being forced to return to prison is the interruption of the lawyer-like struggle to rebuild his fortune. During his liberation under bail he had been re-elected president of the Metropolitan Steamship company, a New England corporation, and of the Hudson Navigation company, operating a line of boats on the Hudson. He is credited with having discharged the bulk of his debts. From the two big transportation lines that had within the week elected Morse as their president, there was no official statement forthcoming after today's decision. It was understood that, for the time being at least, the election would stand.

SMOOT AND FEDERAL BUNCH NEW R MORE FRIGHTENED THAN NOW

Editor: Tribune. Apostle Senator Reed Smoot and the "Federal Bunch" made many deals and squinted out of hand with the church while the church was reeling with the liquor elements. They have traded honor and sentiment for office, but they have never been more frightened than they are at present by the "Citizens' Committee," which has seemed to take the bit in its teeth.

Early in the present campaign the "Federal Bunch" did not doubt that it would be successful in having the "Citizens' Movement," which is superseding daily decided and made fun of the "Citizens' committee," in conversation with the Apostle-Senator Smoot did not fail to express his contempt for Charlie Felt, whom he styled a weakling. It was expected that when the discovery would be made that under the law, passed by the "Citizens," the "Federal Bunch" the "Citizens" could not endorse any of the Democratic and Republican tickets that would take possession of the Citizens' committee would be the force with which the church would undertake to repeat last fall's tactics.

But the "Citizens" were composed of a number of insurgent Republicans who were not in any way lay down to the Republicans. When the outrageous law was passed and it was seen that the "Federal Bunch" had disfranchised its own people, the Citizens decided that they would form a combination with the Democrats and stand behind the "Federal bunch" to a standstill.

SLAYER OF WOMAN IS HOPELESSLY INSANE

SAN FRANCISCO, Oct. 11.—That James E. Cunningham was insane when he shot and killed Miss Kayne Branch, stenographer for Gray Bros., in the office of that firm, on June 30 last, was the decision of a jury in a superior court today. Soon after Miss Branch was killed, an innocent man was arrested for the crime. To save him, Cunningham confessed.

Last Saturday an insanity commission reported that Cunningham had an incurable paranoia, that he suffered from hallucinations that he is the son of God, that evil spirits are oppressing him, and that all women are in love with him. After the decision of the jury was reached, Judge Duane formally committed Cunningham to a state hospital for the insane.

Editor: Tribune. The "Federal Bunch" would lose caste with the church. In fact the bunch had already done so, as they had traded honor and sentiment for office, but they have never been more frightened than they are at present by the "Citizens' Committee," which has seemed to take the bit in its teeth.

Early in the present campaign the "Federal Bunch" did not doubt that it would be successful in having the "Citizens' Movement," which is superseding daily decided and made fun of the "Citizens' committee," in conversation with the Apostle-Senator Smoot did not fail to express his contempt for Charlie Felt, whom he styled a weakling. University Notes
