

Salt Lake Boy Takes Roosevelt Up in Aeroplane

ROOSEVELT IN AN AEROPLANE

Sails Through the Air at Aviation Field at St. Louis With Former Salt Laker.

ARCHIE HOSSEY GUIDES CRAFT ABOUT COURSE

Former President Expresses Great Delight at His First Journey Through Space.

ST. LOUIS, Oct. 11.—Theodore Roosevelt made an aeroplane flight today, and said it was the finest experience he ever had. He traveled twice around the aviation field at Kinloch, eighteen miles west of St. Louis, in three minutes and twenty seconds. He waved his hand at the crowd of thousands on the field below, most of whom were dumfounded and frightened to move. When the machine alighted easily, a few feet from the starting place, a mighty shout of applause and relief went up.

Archie Hossey, a former Salt Lake boy, now a Wright aviator, with whom Colonel Roosevelt made his flight, said that his passenger made a good fellow voyager for such a trip, except that, instead of being afraid, he was having such a good time that Hossey was afraid he would fall out of the engine, which was roaring at his side.

The colonel waved his hands at the crowd below so vigorously that Hossey called out to him:

"Keep your hands on the ruff, colonel." Colonel Roosevelt, who had forgotten to hold himself in, waved his hands once more and then obeyed orders.

Roosevelt Surprises. The colonel's flight was a complete surprise to everybody. Although he had been invited to go, no one had the least idea that he would do so and he himself did not decide to go until the moment before he stepped into the machine.

The trip to the aviation field to watch the flights there, was on the afternoon of Monday, Oct. 10, when Roosevelt, with Archie Hossey, a former Salt Lake boy, now a Wright aviator, with whom Colonel Roosevelt made his flight, said that his passenger made a good fellow voyager for such a trip, except that, instead of being afraid, he was having such a good time that Hossey was afraid he would fall out of the engine, which was roaring at his side.

UNIVERSITY STUDENTS READY FOR BIG GAME

Will Endeavor to Root Their Team to Victory Over Golden Next Saturday.

Never before in the history of the university has the school football spirit risen to a higher point than is now prevalent among the students over the prospects of the game with the Golden miners next Saturday. Daily yell practices are being held about the diapole, and at the practice Tuesday afternoon fully 200 men showed up to learn the new yells and songs which are being learned for the Golden game.

Coach Fred Bennion is feeling fine over the prospect of winning the game and is putting the fellows through some strenuous practice on the gridiron. Several of the men received bruises in the Logan game. Captain "Tiny" Home getting an "eye," "Slew" Young a bruised shoulder and "Count" Christensen a hip. All these ailments are but trivial, however.

It is three years since the Golden team played with the university team on Cummings field, and with one great victory to cheer them on the fellows are all working conscientiously with a view to getting in shape to duplicate the victory of 1907. The university this year has a far better football field than ever before in that there will be no dust to hide the plays. The new code of rules has been tried out once this year by the university team and the Salt Lake fans are assured of a fine exhibition of new football in the Golden game next Saturday.

ACROSS COUNTRY ON MOTORCYCLE

Volney E. Davis Rides Into Salt Lake on Return Trip From Coast to Coast.

Has ridden over all parts of United States. San Franciscoan who has established Pacific-to-Atlantic Record Tells of Trip.

Volney E. Davis, the San Franciscoan who is making the return trip across the continent from New York to his home town, rode into Salt Lake Tuesday evening from Cheyenne, where he spent Monday night.

Mr. Davis covered the entire distance from San Francisco to New York, the route as he took it being 6200 miles, in 129 days. He left the coast on February 10, went east along the Southern Pacific and Santa Fe railroads through southern California, Arizona and New Mexico, visiting Juarez, Mexico. He continued through Texas, Kansas, Missouri, Indiana, Ohio, Pennsylvania and New York, reaching New York City on June 19. He crossed the Canada line at Niagara, so the trip covered the United States both ways, east and west and north and south.

Mr. Davis rides an Indian motorcycle, five-horse power, twin cylinder, of the 1909 type. One of the remarkable features of his trip is that he has ridden the same pair of tires all the way from New York to Salt Lake and only twice has he had a puncture. One
