Leader of Union.

Special to The Tribune.

BOISE, Ida., Feb. 5.—Mining men from nearly every mining district in the state are attending the first state congress, which convened here today, and judging from the interest and enthusiasm shown an organization will be perfected which will be one of the strongest in the state. Judge J. H. Richards, for six years president of the national mining congress, was chosen as temporary chairman, and J. F. Gooke of Boise, secretary.

grees, was chosen as temporary chairman, and J. F. Cooke of Boise, secretary.

The mining men were welcomed to the city by former Governor James H. Hawley, who spoke of the importance of the industry in this state. Of its advancement, he predicted that the day was not far distant when Idaho would be the greatest mining state in the union.

The address of the morning was made by Judge Richards, who spoke ably on mining conditions, advising men not to be in too big a hurry to perfect an organization, but to hold several meetings in different sections of the state, find out the needs of the industry, then organize and incorporate with a purpose in view, which, under such conditions, could be realized.

During the afternoon addresses were made by J. B. Eldridge and by George B. Bliven, after which a general discussion on "what constitutes wildcatting" was taken up and some able addresses were made against the system which has already hurt the industry throughout the world.

When Burton Holmes recently gave bis celebrated travelogue on "Pana-

coughing of the audience. No one an-
