RANGE OF PRICES NARROW IN CHICAGO

Wheat 1-8c Higher to 1-8c Lower; Corn a Shade Better; Advance in Oats.

CHICAGO, March 29.—Favorable weather and reports of the excellent condition of wheat crops in the winter belt offset today higher cables and fears that damage to the crop in the Ohio and Indiana flood district would be great.

Reports that the flood damage to growing wheat in Ohio, Indiana, Illinois and Kentucky would be at least 15 per cent caused a good demand at the beginning of the day and the market opened strong and active, but under ready selling soon eased off.

Primary receipts of wheat were 540,000 bushels against 522,000 bushels last year.

Business in corn today was confined largely to local dealers.

After a long period of liquidation, the clearing house banks of New York for the week ending Saturday reported an expansion in assets of \$1,912,212,000.
