

FLIGHT IS DISCUSSED BY RAMONA BORDEN

Young Heiress Tells Why She Ran Away From Her School.

LONGING FOR A HOME Now Going to Los Angeles With Mother; "Nothing but Money."

International News Service. NEW YORK, April 29.—With perfect self-possession, 17-year-old Alexine Borden sat in the unaccustomed surroundings of a lawyer's office this afternoon and assisted her mother in an interview with newspaper men. Earlier in the day the girl had given a detailed account of her flight from a sanitarium at Pompton, N. J., and had warmly defended "my dear, old friend, Mrs. White."

Living Up Daughter.

It is not in my nature to use a parental hand," he said, a trifle stiffly, "and so I am giving up the custody of my daughter. I hope other fathers will be luckier than I have been with my daughter. My daughter exceeded my hopes and expectations. I am here. In Los Angeles my daughter will be with me, and with my parents, Mr. and Mrs. Valk. These arrangements have been made with the consent of Mr. Borden. At the Manhattan tonight, Mr. Borden said there was a possibility that he would see his wife some time this week to make final arrangements for Ramona's trip west. When the subject of a reconciliation was broached he denied his denial to that of his wife.

Some Life Needed.

Unfortunately, my daughter does not seem to have sufficient home life," said the mother. "That is due to certain conditions which could not be altered. Now, however, I hope we will be able to supply her with the things she craves." In an interview earlier in the day Mrs. Borden said: "People say I am rich, but that does not mean that I am happy. I haven't had a home for many years. I've been to one school after another. What I wanted was just a home—a home. I ran away from school my father put me in a sanitarium, where I had a strong arm nurse for a companion. I begged Mrs. White to take me away. I didn't have anything but money. I couldn't buy happiness with it. I didn't do me any good, except to buy fine clothes. I planned my flight myself. No one else had anything to do with it."

GATHERING HOSTILE TO THE COMMISSION

SPRINGFIELD, Ill., April 29.—Police officers called upon to see order at the meeting of the Illinois state commission investigating commission here tonight. The hearing was attended by a crowd of 100 persons, many of whom were extremely hostile to the commission. The disturbance was caused when A. Fitzgerald and C. E. Mortimer, Springfield attorneys, who declared themselves leading citizens of Springfield, requested permission to address the commission. They were told they could do so only if they took the witness stand. The crowd became noisy at the refusal of the committee to hear Fitzgerald and Mortimer and Lincoln O'Hara sent for the police. Fitzgerald and Mortimer made several attempts to be heard, but finally left the hearing amid a demonstration on the part of the crowd. The hearing was adjourned by the International Brotherhood of Springfield, were extended tonight.

RESINOL WILL STOP THAT ITCH

Resinol Ointment, with Resinol Soap, stops itching instantly, quickly and thoroughly. It heals the most distressing cases of eczema, rash, ringworm, tetter or other skin eruptions. It relieves itching, redness, rawness, pimples, blackheads, and every other skin ailment. It is a waste of time and money to use any other treatment, while Resinol ointment will do it. You can send for a generous trial of Resinol Ointment and Resinol Soap, and test it on your own complete satisfaction. At no cost whatever, while thousands who have been cured say, "What Resinol did for us it will do for you." Resinol Ointment is sold in all drug stores. For free samples of each, full directions for use, write to Resinol Ointment, Baltimore, Md. (Advertisement.)

THANK PASTOR FOR EFFICIENT SERVICE

Last Conference Under Dr. Short's Regime Held by First Methodist Church.

Gratitude to the Rev. Dr. Francis Burgette Short for his five years of service here as pastor of the First Methodist Episcopal church and good wishes for continued success in his new field, were expressed last night at the third quarterly conference of the church. The conference was held at the residence of the pastor and Dr. H. J. Talbot, superintendent of the Utah mission, presided. There was a good attendance at the conference and the reports from the different departments were gratifying. The Rev. Dr. Short gave his report for the year and then reviewed briefly the work in the church during the time that he had been pastor. He spoke feelingly of the work which he had shared with the church and the people, and of the pleasure that he had gained from it. He told of the troubles that had confronted him and how, mastering them, he had won the confidence and respect of the church. With a closer compact of friendship, with a closer abiding in his new field, the Rev. Dr. Short expressed his confidence for the continued upbuilding of the church here and for the success of the new pastor. Resolutions of appreciation were read and they were unanimously adopted by a standing vote of all present. After the reading of the resolutions were supported in brief but concise and feeling talks by J. C. McLean, J. S. Stewart, E. O. Seagraves, J. P. Kane and other members of the church. Other reports heard at the meeting were by Mrs. Freeman Morningstar of the Ladies society, and A. E. Gloriant of the Sunday school department, and Mrs. Charles A. Peak of the primary department. The Rev. Dr. Short will leave tonight with his family for Spokane, to which city he has been transferred, expecting to arrive there about the first of May. The resolutions adopted are as follows: Whereas, the bishops of our church exercising authority in this mission and in the Oregon conference, in their wisdom and discretion have deemed it wise and necessary to transfer our beloved pastor, the Rev. Francis Burgette Short, to a new field of labor; and Whereas, we recognize in Dr. Short an excellent business executive, a good, true friend, a faithful pastor, a strong preacher, and a man of great courage for good in the community; and in his devoted wife a woman of strong and noble character, a devoted mother, a true friend, and a helpmeet such as few men have—her presence is always an inspiration; and Whereas, the Rev. Dr. Short and his wife have been instrumental in raising the church debt of \$20,000, and in the official board but the entire church membership. He has been a true friend and a true pastor, and work, has preached the gospel with great power and effectiveness not only in the pulpit, but in his daily life and example, and has come to be known and recognized as a leader of men in community affairs. We commend the good judgment of the bishops in selecting Dr. Short for the "hard and difficult" position in Spokane, but we regret that he is leaving us, which takes him from us. We extend to Dr. Short and Mrs. Short our deep appreciation of their past service, and we hope that they will be with us and our love, esteem and best wishes go with them to their new field. We further pledge our best efforts in behalf of his successor.

PICK UTAH SPEAKERS TO WELCOME N. E. A.

The Utah executive committee of the National Education convention held a meeting at the Commercial club yesterday afternoon. Those who attended were D. H. Christensen, chairman; Charles T. King, Mrs. A. J. Gorbam, Dr. J. T. Kingsbury and Prof. F. W. Reynolds, the latter the secretary of the committee. Approval has been received from the president of the N. E. A., E. T. Fairchild, of the recommendation of the Utah committee that the addresses of welcome be made by the following: Governor William Spry, Mayor S. Park, J. T. Hammond, president of the city board of education, and A. Nelson, state superintendent of public instruction. The gentlemen named, therefore, will receive invitations to deliver five-minute speeches of welcome. That Ogden will do its best to entertain the delegates on Ogden day was made known in a letter received from Arthur Chamberlain, editor of the Sierra Educational News, San Francisco, was invited by the committee to deliver an illustrated lecture on "The West" in the western states as a lecturer and is said to possess a collection of extremely attractive views of western scenes and subjects. Mr. Chamberlain is a former treasurer of the N. E. A. A highly interesting descriptive of Salt Lake and Utah, especially designed for the information of N. E. A. delegates, is being reprinted and printed as rapidly as possible. The first copies were submitted to the committee yesterday afternoon and elicited much favorable comment. The folder is the product of the Commercial club publicity bureau, prepared in behalf of the N. E. A. The cover is illustrated with a strikingly handsome photographic reproduction of the temple and tabernacle grounds, with the Pioneer monument in the foreground. There are beautiful street scenes, pictures of buildings and charming corners in Liberty park. Various points in the way of scenic marvels are pictorially displayed. The cuts are extraordinarily clear and the printing is of the highest quality. The descriptive folder contains much of interesting information concerning the land the teachers will see next July.

WILL DISCUSS U. S. AND JAP SITUATION

Elbert D. Thomas, who has recently made four of the last five years in Japan, will speak on "Japan and Her Relations With the United States" at the assembly of the University of Utah this forenoon beginning at 11:30. Mr. Thomas will give special attention to the present agitation over the proposed acquisition of the alien land holders in California. The general public is invited to hear the address.

Charged With Forgery.

Roy Yeager, a laborer, 30 years of age, was arrested on a charge of forgery by Deputy Sheriff Mike Earl and lodged in the county jail last night. Yeager is alleged to have cashed a worthless check for \$22.50 with Peter Bonnett last December. The name A. H. Osborne is said to have been forged on the check. Bonnett is the complainant.

NEW SPEED LIMITS ADOPTED FOR CITY

Automobiles Must Be Driven at "Reasonable" Rate, According to Ordinance.

The city commission yesterday revised the city speed ordinance so as to eliminate all reference to an exact speed limit. The new ordinance, which was formally adopted as a part of the book of revised ordinances, will read that no self-propelled vehicle shall be driven on city streets at a speed not reasonable and proper, nor in such manner as to endanger life and limb. That it will be easier to control auto traffic and to obtain conviction of auto drivers who disregard public safety in operating their machines by an ordinance than by the old ordinance in which specific limits are set was the consensus of opinion of the commission, though Commissioner Henry W. Lawrence opposed the revision as allowing a dangerous latitude. Mayor Park and Commissioner George D. Keyser took a stand that the old ordinance setting certain speed limits was impossible of literal enforcement. They declared that every autoist in town violates the law, and that it is practically impossible to prove a speed violation, while it is possible to determine if it is reasonable and proper speed. Reasonable speed, the mayor argued, varies with the conditions under which the car is being operated and the motorist. "Other cities larger than Salt Lake have adopted this sort of an ordinance and find it far more effective and practical for the control of auto traffic than the old method," the mayor said. "Even New York city has come to it." The Ladies society, and the City of Salt Lake in the matter of speed limits at crossings and on bridges and viaducts. It was agreed that a specific limit would be set for such crossings and accordingly a ten-mile limit was adopted. The new ordinance also was made to read that all cars shall have their numbers conspicuously displayed in front as well as in the rear.

TO USE METERS IN OFFICE BUILDINGS

Recasting of the water ordinance for inclusion in the book of revised ordinances so as to force all office buildings to be placed on meters and giving the superintendent of waterworks unreserved authority to install meters whenever and wherever he deems it necessary, was agreed upon by the city commissioners yesterday. The meters are to be installed at the expense of the water user, and under the ordinance any one can be compelled to install them if, in the opinion of the water superintendent, it should be done. The old provision, that only those who are caught willfully wasting water shall be put upon meters, was not placed in the new ordinance, the idea being to leave the entire matter to the discretion of the superintendent. Enforcement of the new ruling as regards office buildings will result in the metering of many users heretofore enjoying the flat rates. It also was decided to enforce all users maintaining aqueduct tanks for fish to use meters. In addition to the other changes, it was agreed to adopt the new system of metering. Under the old ordinance consumers were charged six cents a thousand gallons, and all others were charged as domestic use and charge of one thousand gallons, regardless of the relative amount of water consumed. Under the new rule all metered consumers will have to pay six cents a thousand for the first 100,000 gallons, six cents for the next 100,000 gallons and six cents for all over 200,000 gallons used per month. The new rule will result in an increase of revenue for the water department, but the prime purpose of its adoption is to effect a more equitable distribution of rates among consumers. The commission also agreed to increase the salaries of several employees of the water department. Water rate assessor, from \$1200 to \$1500; storekeeper, from \$750 to \$900; foreman of water works, from \$900 to \$1050; foreman of canals and water-sheds, from \$1200 to \$1350; distributor, from \$1200 to \$1350. The machinist was cut from \$1500 to \$1320.

UTAH BOY PASSES HIS EXAMINATION

BALTIMORE, Md., April 29.—Forty-two more candidates for admission to the naval academy at Annapolis, Md., today passed the mental test this morning. The percentage of failures this year is so greatly in excess of what had been expected that the balance of previous examinations that it has been found advisable to hold another, the third, mental examination, which will be held on June 1. The Utah boy is J. W. Krause.

CHILD WELFARE IS BEING DISCUSSED

WASHINGTON, April 29.—Gathered to discuss the broad question of "Child Welfare," delegates to the twentieth annual convention of the International Kindergarten union settled down today for a four days session. Virtually every state in the Union and a number of foreign countries are represented. The convention will seek to fix a standard to be followed in kindergarten teaching methods.

PROGRESSIVE PARTY ADOPTS RESOLUTION AFFIRMING LOYALTY TO INITIATIVE AND REFERENDUM.

SPRINGFIELD, Ill., April 29.—The state conference of the Progressive party today adopted resolutions affirming loyalty to the initiative and referendum, and the recall and the review of judicial decisions and to "oppose unequivocally and unreservedly any amalgamation with the discredited Democratic party which under such a dishonest leadership has failed to carry out the precepts of Abraham Lincoln and the other honorable founders of the great republic."

We favor the nomination by the Progressive party of candidates for all offices, national, state and congressional, legislative, county and local except where non-partisan local elections are or can be provided for by statute, or can be secured on an national co-operation of the several parties. We pledge ourselves to the enactment of legislation which will enforce all county, municipal and other local offices from partisan politics, to the end that such local campaigns may be conducted on local and not on national state issues. The Progressive members of the legislature were indorsed in their efforts to secure a non-partisan organization of the state senate and house and the "reactionary organization of the Illinois legislature was condemned. Former Senator A. J. Beveridge of Indiana, addressed the conference tonight, said: "The Underwood bill was framed by the same method by which the Payne-Adrich bill was framed. Less than 1000 signatures were secured. Wilson has put all the power of the administration behind it and it is to be passed without the aid of persons in congress knowing what is in it. It was framed without knowledge of the facts, just as the Payne-Adrich bill was framed. Only through the Progressive party can the country get the business peace which is necessary to a steady and growing state. The Progressive party alone presents a program of sound business reform. The Progressive party alone can be trusted to carry out those reforms thoroughly and sincerely. The Democratic party cannot do so. Neither of the two old parties want these reforms and they are the reason the people created new parties through which they could get these reforms. The Progressive party alone presents a program of sound business reform. The Progressive party alone can be trusted to carry out those reforms thoroughly and sincerely. The Democratic party cannot do so. Neither of the two old parties want these reforms and they are the reason the people created new parties through which they could get these reforms."

SULZER SAYS BROWN IS POLITICAL RELIC

ALBANY, N. Y., April 29.—Senator Edwin Brown, Republican leader of the upper house, was characterized by Governor Sulzer in a vitriolic statement today as a relic of the old mossback days. "The statement was in reply to an attack on the governor by Senator Brown in the senate last night, during which the senator referred to the governor's 'habituations.' "Of course, everyone knows," says the governor's statement, "the reason why Senator Brown attacked me. His motive was to make me look like a relic of the old mossback days. He will give him audience. Brown is not a free agent. He is a creature of Boss Tweed. Under the name of Sulzer, Barnes tells him to do. I feel sorry for Brown. He is in his dotage. I sympathize with his constituents whom he misrepresents."

DUCHESS' CONDITION CAUSES GRAVE FEAR

LONDON, April 29.—The condition of the Duchess of Cornwall is causing grave fear tonight. During the day a second abdominal operation was performed upon her, owing to an attack of cholera which she contracted on her first operation several days ago. The physicians issued a bulletin late this evening, saying that a severe operation had been performed, but that the patient was doing as well as could be expected under the circumstances. The wife of the former governor general of Canada and the aunt of King George. She was operated upon immediately following her arrival here from London. At first she showed marked improvement, but two days ago she suffered a sudden change for the worse.

WILL CAMPAIGN FOR UTAH MANUFACTURES

The Commercial club and the Commercial club publicity bureau will at once launch a campaign in behalf of Utah manufacturing interests. At a largely attended meeting of manufacturers held at the Commercial club yesterday a resolution was adopted asking that the action here indicated be taken. The meeting was held under the auspices of the manufacturers committee of the Commercial club. A committee was appointed to notify the board of governors of the Commercial club and the directors of the publicity bureau of the action of the manufacturers. The committee follows: W. G. Romney, George S. McAllister, Albert Fisher, Frederick Eberhardt, Nepl L. Morris, O. H. Hewlett and L. B. Hampton.

Non-Suit Motion Granted.

The motion of the defendant for a non-suit in the case of William Glenn against the Denver & Rio Grande railroad for \$20,000 damages for personal injuries, was granted by Judge George G. Armstrong in the district court yesterday. Glenn was injured in a railroad accident at Bingham and he charged the railroad company with negligence. Moving the aerie of Eagles from Mercury to Tooele is the task for which fifty Eagles of Salt Lake City left here last night over the Salt Lake route. H. S. McCann of the Eagles and J. S. Earley of the railroad company accompanied them. If you haven't the time to exercise regularly, Doan's Backache Kidney Pills will do it for you. They induce a mild, easy, healthful action of the bowels without gripping. Ask your druggist for them. 25c. (Advertisement.)

NEW CERTIFICATION SYSTEM ABOLISHED

City Commission Heeds Advice of Purchasing Agent; Rescinds Recent Action.

Heading the protest of the city purchasing agent the city commission, by a vote of three to two, yesterday rescinded its action of a week ago and abolished the certification check placed upon expenditures by city departments. The certification check was calculated to put a stop to the practice of transferring funds from one account to another to replenish overdrafts. It was passed at the instigation of the city auditor, who has contended always that the transfer was improper and not good business. Under its requirement no requisition could be issued without certification of that department in which the requisition was needed certifying that there was enough money in that particular account to cover the estimated cost of the requisition. Warren C. Bogue, the purchasing agent, took a positive stand against the new order of things. He declared that it prevented emergency buying and so restricted the latitude of his office as to require a new and complex system of bookkeeping. Under the new rule, he said, it would be impossible for any department to purchase anything in an emergency without first the commission approved the requisition, and in cases where one account had been overdrawn, though plenty of money was still left in other accounts of the same department, it would be impossible to obtain the thing needed under the exhausted account. W. H. Shearman, the city auditor, declared that the purchasing agent had no authority to make purchases without requisition, regardless of the certification requirement. Mayor Park and Commissioner George D. Keyser took the stand that as long as a whole department appropriation was not exceeded it made no difference whether some one account was exhausted and money transferred to it from a more plentiful account. The mayor, Commissioner Keyser and Commissioner Kornis voted to rescind the previous action, while Commissioners Lawrence and Morris voted to retain the certification check.

CLASH WITH SCHOOL BOARD MAY RESULT

Ordinance Proposed for Installation of Telephones or Alarms in Schools. If the city commission passes an ordinance inserted in the book of revised ordinances yesterday requiring all buildings used as schools, churches or hospitals to have either a fire alarm box connected with the fire department or a public telephone, a clash with the board of education will be inevitable, owing to the stand taken by the board against telephones in the public school. Last fall the board of education ordered all phones from the school buildings because of the refusal of the telephone company to grant what the board believed to be reasonable service at reasonable cost. Since then a system of messenger service has been maintained in the schools for the communication of official business. No telephones are in any of the school buildings, except intercommunicating systems not connected with the public exchange. Whether the city has the right to force the school board to retreat from its present stand is a question that was raised at an informal session of the city commission yesterday. Mayor Samuel C. Park was of the opinion that it could not be done while Commissioner George D. Keyser favored trying it at least. "Our children are in the public school buildings, and in case of fire there is no way of getting into direct communication with the fire department," he said. "As a matter of public safety either telephones or fire alarm boxes should be installed in every school building." No action was taken on the matter by the city commission, but the city attorney will be solicited before the clause is included in the new ordinances.

Briefs on Dissolution.

WASHINGTON, April 29.—Attorneys for the Union Pacific filed today with the supreme court their brief in reply to Attorney General McReynolds's objections to a longer extension of time than July 1 for an agreement upon a dissolution plan. The railroad lawyers contended that to allow only until July and further extension would be inadequate, and renewed their plea to have the court's mandate modified to permit the railroad to determine the question.

POPE'S CONDITION MUCH IMPROVED

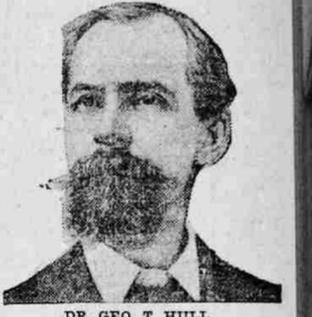

ROME, April 29.—Pope Pius continued to improve in health today. He partook of solid food for the first time in many days and appeared to relish the small amount of food he ate. During almost the entire day the pontiff sat in his armchair by one of the large windows in his chamber, from which he commanded a wide view over the city. Professor Marchisafava said today that he considered the holy father removed from all imminent danger and had decided to visit the Vatican but once a day henceforth. Dr. Amiel, however, will remain in constant attendance upon the pope. This measure is being taken to ensure a strict obedience of the physician's instructions regarding the amount of rest that the pontiff must take each day. If the Pope continues his improvement he will be allowed to leave his bed chamber early next week.

PLANS OUTLINED BY CURRENCY COMMITTEE

WASHINGTON, April 29.—Chairman Owen announced today that the banking and currency committee working map out its course of investigation of currency reform and legislation at a meeting Friday. Most of the big bankers of the country and many writers of note on economic subjects will be called later. Hearings probably will last several weeks and if a bill is laid before the senate it will not make its appearance until the tariff fight is under way here. Prominent Turfman Here. H. I. Wilson, general manager of the Lagoon Fair and Racing association, at five in the city yesterday. He is a guest at the Hotel Utah and will remain about ten days. A Blessing to Victims Of "Sore Foot" Agony. The following is said to be the surest and quickest cure known to science for all foot ailments: "Dissolve two table-spoonsful of Calocide compound in a basin of warm water. Soak the feet in this solution for fully fifteen minutes, gently rubbing the sore parts." The effect is really wonderful. An ointment goes instantly to the feet, feet feel light. Corns and calluses can be peeled right off. It gives immediate relief for sore bunions, sweaty, smelly and aching feet. A twenty-five cent box of Calocide is sufficient to cure the worst feet. It works through the pores and removes the cause of the trouble. Don't waste time on uncertain remedies. Any druggist has Calocide compound in stock or he can get it in a few hours from the nearest house. (Advertisement.)

A Staple Medicine for All Families

From Infancy to Old Age a Reliable Family Laxative Is Most Needed—Try This One.

It is inconceivable in this day of general intelligence that any family would be without a simple remedy for the minor ills of life, for often by giving such a remedy in time a serious disease can be frustrated and a life saved. For example, if at the first sign of a cold a simple laxative-remedy like Dr. Caldwell's Syrup Pepsin were given the beginning of a serious lung affection or of a typhoid fever might be avoided. And also in headaches, nervousness, etc., a small dose of this remedy would relieve the congestion and replace distress with comfort. Mothers give it to baby infants and little children, and grown people take it with equally good effect. Thousands of good American homes are never without it, among them the home of Dr. Geo. T. Hull, Prop. Hull Drug Co., Prue, Okla. Dr. Hull has for a number of years recommended Dr. Caldwell's Syrup Pepsin in his practice and writes that "for stomach and bowel disorders, worms in children and a general laxative-remedy it has no equal." Syrup Pepsin saves the health of the family, and it saves doctor's bills. It is a guaranteed cure for any form of stomach, liver and bowel trouble, constipation, indigestion, biliousness, gas on the stomach, headaches, drowsiness after eating, etc. Have no hesitancy about giving it to any member of the family, however young or old, for it contains nothing injurious to the youngest person. A bottle can be obtained at nearly any drug store for fifty cents or one dollar. The latter size is more economical and is bought by those who have already convinced themselves of its merit. Syrup Pepsin users learn to discard pills, salts, cathartics and purgatives generally, as they are too great a shock to any average system. If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a drug-gist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.
