## MAIL FAMINE IS FURTHER RELIEVED

### Many Belated Trains Arrive From the East and Schedules Are Resumed.

The eastern mail famine was further relieved yesterday morning when three mail trains of the Union Pacific arrived in Salt Lake carrying letters, packages and papers which had been delayed since Friday. The mail was delayed by the snowstorms which were raging in Colorado and on the Union Pacific this side of Cheyenne, Wyo.

In spite of the fact that three days' mail had accumulated and there was at least twice as much mail to be handled as is usual on Monday, the postoffice department between 7 o'clock yesterday morning and 4 o'clock in the afternoon had the situation well in hand. A total of 200 sacks of papers and twenty-two full pouches of mail was prepared for distribution. The only portions of the city which failed to secure the delayed mail were the outlying sections, where there is only one delivery a day. In the city proper, every office and residence was given service up to date.

Union Pacific train No. 6, twenty-three hours late, was the first belated arrival, getting in at 3:15 o'clock yesterday morning. It was followed by No. 7, which arrived at 8:30 o'clock, twenty hours late. The Pacific Limited, No. 29, came in at 10 o'clock yesterday morning only three hours late. With the arrival of the Los Angeles limited last night, only about an hour late, the Union Pacific officials feel that their schedules will be back in good shape again today.

Filled high with Colorado snow, two

sections of Denver & Rio Grande No. 3 arrived yesterday morning from Denver at 11:30 o'clock. No. 3 should have been in Sunday night at 10:45, but was blocked many hours in a snowbound pass. Nos. 1 and 5 each came in five hours late, the former at 3:30 o'clock and the latter about 7:30 o'clock.

Word was received yesterday afternoon by J. H. Davis, general agent for the Colorado Midland railroad, from the company's general passenger agent that the snow trouble is now practically over and all trains are running on schedule time.

New England and the middle Atlantic states are now in the throes of the storm which enveloped Colorado and Wyoming and caused so much railroad confusion, according to reports received yesterday by the United States weather bureau. A. H. Thiessen, section director of the bureau, says that all the eastern seaboard states as far south as North Carolina had zero temperature yesterday. In New York the wind was blowing a gale of forty-eight miles an hour and was accompanied by a blinding snowstorm.

Tribune Wants are not only a selling power, but a medium of exchange, of the return of lost articles, of locating the right people.
