Y. W. C. A. Plans Campaign To Raise Necessary Funds

Miss Frances Cross of Denver, field secretary of the Y. W. C. A.

Workers Expect to Secure Pledges for \$6000 Within Next Ten Days.

This will be publicity week for the Y. W. C. A. A corps of forty women, including the board of directors and others, under the direction of Miss Frances Cross of Denver, secretary of the west central field of the National Young Women's Christian association, will visit a large number of the residents of Salt Lake to present the Y. W. C. A. work and ask for contributions toward the annual budget for the current year. This budget amounts to \$6000 and the body of earnest women expect to raise it within the next week or ten days. The workers will meet at 1 o'clock luncheon at the Y. W. C. A. rooms in

the Continental Bank building Monday, when Miss Cross will instruct them in the rules and plans of the canvass. About 2000 names of probable contributors will be distributed among the workers during the week, a portion of which will be given out each day. No one will be allowed to seek contributions from anyone not on her list, and no names will be duplicated.

On Tuesday morning at 9:15 the workers will meet at the association rooms in the Continental Bank building for a brief devotional meeting before starting out on their day's work. They will return to the rooms at 4:30 o'clock in the afternoon to report progress over cups of tea. The same plan will be carried out each day. Mrs. Thomas Weir is chairman of the tea committee and will appoint different committees for serving each day. The same system of financial campaign has been successfully carried out in different places, the entire budget and usually something over being realized in each place. One of the most remarkable of these campaigns was in

Wichita, Kan., last May, when \$125,000 was raised in ten days. A similar campaign carried on jointly by the Y. W. C. A. and Y. W. C. A. in New York resulted in the collection of \$4,000,000, \$3,000,000 was raised by the Y. W. C. A. Of that campaign Secretary of the Navy Joseph Daniels said: "The chief significance of the campaign did not lie in the money raised, but in the fact that for the first time in the history of the organizations they were rated at their real value."

"That," said Miss Cross, "is what it is hoped will be accomplished here. The money raised is not much the object of the campaign as it is to show the people of Salt Lake just what the Y. W. C. A. is and what it can accomplish. Then the support necessary would be given as a matter of course."

Preliminary to the campaign, a luncheon was given at the Hotel Utah on Thursday by the board of directors of the local association, when the work of the Y. W. C. A. was presented to fifty representative men and women of the city and the number were introduced to the association workers and shown what the organization is doing in a reception at the boarding home, 803 East Broadway, Friday evening.

The budget to be raised is for the non-supporting branches of the Y. W. C. A. work, such as the employment bureau, the travelers' aid, the educational and the general administration work. The associations of the United States are from 60 per cent. to 90 per cent. self-supporting. The Salt Lake association is 80 per cent. self-supporting.

The local workers are enthusiastic and look for great results from their campaign.

The Bay View Reading club held an interesting open meeting yesterday afternoon at the home of Mrs. A. B. Gibson, 221 Thirteenth East street. The programme consisted of selections from German musical composers and was under the direction of Mrs. Esther Allen Gaw. Tea was served following the programme. The tea table was decorated in yellow. A basket of yellow tulips formed a centerpiece. A shiny lace cover was over velvet. Mrs. Gibson and Mrs. D. N. Straup presided at the tea table, assisted by Miss Virginia Gibson, Miss Rosalind Straup, Miss Florence Lifer and Miss Adele Dumyon. They were dressed in Dutch costumes.

The programme opened by a lecture by Mrs. E. C. on "Two Periods of German Music—Beethoven and His Predecessors and the Romantics." The lecture was illustrated by selections given by Miss E. V. Linn, soprano and piano; Miss Ruby Meakin, contralto; Miss Myrtle Meakin, violoncello; Mrs. Gaw, violin. The selections were as follows: Bach, "Gavotte," from suite for orchestra, arranged for violin and piano; Haydn, "Trio No. 1," for piano, violin and violoncello, Andante, Cantabile, Rondo all'Ongarese; Beethoven, minuet in G major for piano; Schubert, "Hark, Hark the Lark," for soprano; Mendelssohn, songs for soprano and alto: (a) "I Would That My Love," (b) "Farewell to the Birds of Passage"; Schumann, "Abendlied," arranged for violin, cello and piano; Wagner, "The Evening Star," from "Pannhauser," arranged for violin and piano.

DEVELOP YOUR FIGURE ONE OUNCE A DAY

A New Simple Easy Home Method That Gives Quick And Permanent Success

Judge from my picture as to the truth of what I say to you—that the crowning feminine attribute is a bust of beautiful proportions, firmness and exquisite development. Then ask yourself how much you would like to have such a photograph of yourself, showing the glory of womanhood with its lines of innate charm and grace. It would be worth far more than a two-cent stamp, would it not? Then let me give you my message—let me tell you of what I have learned and let me give you recent pictures of myself to prove what I say—just you will write me today.

I WILL TELL YOU HOW—FREE

I will tell you gladly and willingly. Why should any woman neglect an opportunity to escape the pain and heartache of being skinny, scrawny, angular and unattractive in body? Misery is not our heritage. Nature planned that you—a woman—should have the rich, pulsing lines of warm, living flesh molded after the mother of us all, the description of whom perfumes our sacred literature with love and admiration for the divinity of woman's form. For why should there be that pitiful aspect—the face of a woman and the form of a man.

WRITE TO ME TODAY

I don't care how fallen, or flaccid, or undeveloped your bust now is—I want to tell you of a simple home method—I want to tell you how you can gain perfect development one ounce a day. No physical culture—no massage, foolish baths or paste-on plasters, masks or injurious injections—I want to tell you of an absolutely new method, never before offered or told about—insuring immediate success and permanent beauty.

SEND NO MONEY

Just write me a letter—address it to me personally—that's all. I believe that you will bless me through years of happiness for pointing the way to you and telling you what I know. Please send your letter today to the following address:

READ THE NEXT TWO LINES AT A DISTANCE OF SIX TO EIGHT FEET. TRY EACH EYE SEPARATELY.

SOME OF THE LETTERS ABOVE WILL SEEM BLACKER THAN OTHERS. AS A MATTER OF FACT THEY ARE ALL EQUALLY BLACK.

WHEN the cornea (or transparent front part of the eye) is unsymmetrical in form—i. e., of different curvature in one direction than it is in a direction at right angles to it—the condition is called Astigmatism. This causes the different rays of light, after entering the eye, to focus at unequal distances, producing a blurred image, with the result that objects looked at seem more or less distorted.

It is the natural habit of our eyes to exert an unconscious effort to obtain the sharpest visual impressions. Where there is Astigmatism there must be extra effort or strain upon the muscles to readjust the focus. In time this Eye Strain produces various reflex symptoms from which we are sure to suffer. The astigmatic error can be corrected with proper glasses, affording immediate relief to the strained muscles.

To measure the amount of astigmatism which must be corrected, a thorough examination by the exact and scientific methods such as we employ is absolutely necessary. Our charges are no higher than you would pay for glasses prescribed by unscientific examiners and made by unskilled workmen often employed.

We invite you to call at our store and permit us to examine and submit evidence why we are best qualified to make glasses that will give you the results you are entitled to expect.
