

M'CLELLAN DROPS HIM

Chief of Street-cleaning Department Removed.

POLITICS HELD RESPONSIBLE

Both Sides Declare Other Planned to Use Men in Present Campaign. Senator McCarren Responsible for Resignation—Views as to Dr. Woodbury's Work Widely Divergent.

New York, Oct. 13.—There was another sensation in local politics to-day when Mayor McClellan announced that he had accepted the resignation of Dr. John McGaw Woodbury, the head of the street-cleaning department. Woodbury had consistently refused to allow any politics in the conduct of his department. He says now he really wanted the mayor to try to force him to the tender mercies of Senator McCarren, who said he would then be turned against Hearst.

"At a conversation I had with the mayor in his office," said Dr. Woodbury, "Senator McCarren was present, and when the senator demanded that the street-cleaning department be organized for political purposes—no, I won't say demands; that is putting it pretty strongly, better put it suggested—I replied: 'Mr. Mayor, don't do it.'"

"I then asked him if he intended the transfer of Mr. Clarke, my superintendent in Brooklyn, as an order." "If it is an order," I said, "I must obey it as a soldier. You are my superior officer, and it is my duty to obey the order before I take any other action. He did not give the order, and I was left to resign without transferring Mr. Clarke, as requested. I will not stand for any political interference, and I never would. It was, moreover, not my intention to stand anything of the kind from Senator McCarren, or any one else."

Wanted a Transfer Made.

The mayor made a statement through his secretary in which he said that Senator McCarren had told him the street-cleaning department was being used for political purposes. On the strength of what the senator told him, he, the mayor, asked Dr. Woodbury if the Brooklyn superintendent had not better be transferred temporarily at least and his place filled with some one who could put an end to a scandalous situation.

Woodbury, the mayor says, promised to come back the next day and give his answer. He did not keep his promise, but, instead, sent his resignation to the mayor. Although the mayor did not discuss the details of what he called a scandalous situation in the street-cleaning department, it is known that McCarren told him that there was a secret organization of sweepers in Brooklyn, who were supporting Hearst, but that they could be turned away from the labor of the candidate if Clarke were transferred.

McCarren, it is known, is getting ready to knife Hearst all along the line in Kings, because Hearst has put up an independent ticket for special officers. His demand upon the mayor for the removal of Clarke is looked upon as the first step in the scheme to give Hearst an awful beating in Brooklyn.

Dr. Woodbury was a spectacular figure in the public life of New York. By some, principally politicians, he is looked upon as the worst street-cleaning official New York ever had, others are sure that he was the best.

GOMPERS STARTS ON TOUR.

Federation Leader Will Address Many Labor Meetings.

Samuel Gompers, president of the American Federation of Labor, left Washington last night for the active fields of politics in the North and West. He will be actively campaigning for the next ten or eleven days. Starting at Bridgeport, Conn., to-day, he will deliver political speeches in Newark, N. J., on Tuesday, to the miners in Scranton, Pa., on the 15th, and on the 18th he is scheduled to address a monster labor demonstration at Williamsport, Pa. The remainder of the time he will be engaged in delivering political speeches in Chicago, Ill., Hammond, Ill., and Kankakee, Ill., where he will confer with the members of the local labor party there to plan their attack upon the stronghold of Speaker Cannon, at Danville.

President Gompers started yesterday that in the districts where the labor organizations are fighting the candidates for Congress who were declared unfair to organized labor, and were placed on the black list of the American Federation of Labor, there is a strong feeling of confidence, and the local leaders report to him that the labor vote will be cast solidly for the candidate who has the endorsement of the American Federation of Labor.

He also stated that there will be a monster labor demonstration in Representative Mudd's Congressional district. Mr. Gompers is sanguine of the outcome of the campaign in this particular district. Even should Mr. Mudd succeed in being elected, he says, the work of the labor organization party will cut down his majority to such an extent that it will serve to show the power of the laboring people.

Mr. Gompers will be in New York several days before the election, and will speak in advocacy of Hearst's election for governor. He said that labor would support the man who had already proved himself the greatest friend of the laboring people, not the man who promised to be.

In the labor party leaving to-day will be several of the men who worked in the campaign in Representative Littlefield's district last month.

VICE PRESIDENT IN IOWA.

Fairbanks Recommends the Re-election of Gov. Cummins.

Waterloo, Iowa, Oct. 13.—Vice President Fairbanks spoke to a large audience here this afternoon, formally opening the Republican campaign in Iowa. He declared that a Democratic majority in the House this fall would mean disaster to the country. He endorsed Gov. Cummins and recommended his re-election, paying a high compliment to the personality of the governor.

B. T. WASHINGTON EXPLAINS.

Says He Did Not Advise Members of His Race to Carry Arms.

New York, Oct. 13.—Booker T. Washington, of Tuskegee Institute, Alabama, is at the Stevens House, Broadway. He says his remarks before the Afro-American Council Thursday night have been misunderstood, and that he does not counsel or advocate the carrying of firearms or weapons of any kind by his people or by the operators of businesses.

He says that in his address he was simply explaining what some of the colored men in Atlanta were insisting upon.

Arrangements being made by Chairman T. P. Shontz and the other members of the Isthmian Canal Commission to sail the last of this month for Panama, in order to be there when the President makes his visit in November.

I SAW YOUR AD. IN THE HERALD

MAGOON AT THE HELM.

CONTINUED FROM FIRST PAGE.

The assurances given by predecessor will be strictly adhered to and carried out. As provisional governor, I shall exercise the powers and perform the duties contemplated and provided for by the third article of the appendix to the Constitution of Cuba for the preservation of Cuban independence, and for the purpose of protecting life and property and individual liberty. As soon as it shall prove to be consistent with the attainment of these ends, I shall seek to bring about the restoration of the ordinary agencies and methods of government under the other and general provisions of the Cuban Constitution. All provisions of the Constitution and laws, the application of which for the time would be inconsistent, must be deemed to be in abeyance. All other provisions of the Constitution and laws continue in full force and effect. (Signed) "CHARLES E. MAGOON, Provisional Governor." "Oct. 13, 1906."

Rousing Farewell to Taft.

The battle ships Louisiana and Virginia, with Secretary Taft, Assistant Secretary of State Bacon, and Gen. Funston and their party aboard, were given a rousing send-off by 2,000 persons, who crowded the Caballeria wharf as the monster craft took the air with vivas from the crowd, which Secretary Taft and the party acknowledged by doffing their hats. As the war ships passed out, they were saluted by the guns in Cabanas Fort, and responded to the salute with their small guns.

The Fifteenth Cavalry and one battalion of infantry is at Matanzas, a battalion of the Seventeenth at Camaguey, and another battalion of the Seventeenth at Ciego de Avila. Another transport with two regiments of infantry aboard will arrive here in the morning. Part of these troops will be sent to Santiago and Cienfuegos, to reinforce the soldiers now there.

PREPARING FOR OUTBREAK

Cavalry Has Been Ordered to Santa Clara Province in Cuba.

Officers Detailed to Island Have Gone with Expectation of Spending at Least a Year There.

Advice was received at the War Department yesterday that the Fifteenth Cavalry has been ordered to the Santa Clara province, where detachments will be stationed at various points for the purpose of preventing any outbreaks. Because of this movement, the horses destined for the use of the regiment were ordered sent to Isabella de Sagua. Accordingly, Gen. Humphreys, the Quartermaster General, sent instructions to Newport News to transfer the horses to the transports Taarholm and Bergen, and to ship them as quickly as possible to the above-named port. It is expected both vessels will sail to-morrow.

Among officers at the War Department this sudden move is regarded as an indication that the peaceful situation in Cuba is about to end. They have been skeptical from the first of the success of any efforts to bring about a complete disarmament and restoration of peaceful conditions without some sporadic outbreaks.

Press dispatches from Havana, telling of the continual agitation being kept up by the various parties, tend to confirm this idea in the minds of well-posted officers. They believe the malcontents will get the public mind inflamed to such an extent by means of the mass meetings that clashes of a serious nature are bound to result.

As an indication of how general feeling in the street-cleaning department, it is known that McCarren told him that there was a secret organization of sweepers in Brooklyn, who were supporting Hearst, but that they could be turned away from the labor of the candidate if Clarke were transferred.

McCarren, it is known, is getting ready to knife Hearst all along the line in Kings, because Hearst has put up an independent ticket for special officers. His demand upon the mayor for the removal of Clarke is looked upon as the first step in the scheme to give Hearst an awful beating in Brooklyn.

Dr. Woodbury was a spectacular figure in the public life of New York. By some, principally politicians, he is looked upon as the worst street-cleaning official New York ever had, others are sure that he was the best.

THE PHILIPPINE VACANCY.

Situation in Cuba Necessitates Appointing Another Vice Governor.

The administration has been convinced, according to a high official of the State Department, that it will be impossible to hold new elections in Cuba until after the next sugar grinding season is over. That begins in January, and usually lasts two or three months. The elections can therefore hardly be held until April, May or June, the latter month being the most strongly favored by those in touch with the situation in Havana.

Until these elections have been held, and the new government firmly established in power, it will, of course, be impossible for the United States to withdraw its representatives from the island. Consequently Gov. Magoon, under the best of circumstances, is apparently booked for a stay of at least nine months in Cuba.

This is the reason that it has been decided to appoint another vice governor of the Philippines, the position to which it had been intended to transfer Gov. Magoon when he was recalled from Panama. It is deemed inadvisable to have the office vacant for so long a time. It is well that there are pressing questions arising in the Philippines requiring immediate attention, but the members of the Philippine cabinet have been so busy that some of them have been working overtime on account of the existing vacancy. They have also been deprived of their vacations, which are necessary for health after some years residence in a tropical archipelago.

Who will be appointed in Gov. Magoon's place will not be determined until after Secretary Taft's arrival in Washington. There are a number of aspirants in the Philippines, but it is expected that some one will be sent from the United States. It is positively asserted at the State Department that, no unforeseen circumstances have developed in Cuba since Magoon's appointment as provisional governor of that island, to indicate that his stay there would be so prolonged as to make it desirable that the Philippine vacancy be filled at once. Secretary Taft has been anxious for some time that the Philippine Commission should have a full complement of members, for the reasons named, as well as for some of the new Philippine Commission members to be elected next spring, and is to have his first session about June of next year. He is especially desirous that the Philippine Commission be given assistance in this first assay on their part in parliamentary government, and he wants the way made as smooth as possible, and the commission filled, so that every day of the government might be in good working order. He himself has promised that he would be present at the opening of the Parliament, if it were possible for him to get there.

OKEA STEAMSHIPS.

New York, Oct. 13.—Arrived, New York, from Southampton, Oct. 12: Toronto, Liverpool, October 6; La Touzaine, from Havre, October 6. Arrived, Oct. 13: Quentown, from New York; Philadelphia, from New York. Sailed from foreign ports: Liverpool, for New York; St. Louis, from Southampton, for New York.

Outgoing steamships sail Tuesday, October 15: Kaiser Wilhelm II, for Bremen, 5 a. m.; Sailer Wednesday, October 17; Teutonic, for Liverpool, 10 a. m. Incoming due Sunday: Celtic, from Liverpool, October 6.

Arrangements being made by Chairman T. P. Shontz and the other members of the Isthmian Canal Commission to sail the last of this month for Panama, in order to be there when the President makes his visit in November.

TURN GUNS ON HUGHES

Hearst and Shearn Address Binghamton Crowds.

AMBITION NOT SELFISH ONE.

Attorney and Manager for Democratic Candidate Calls Charges Malicious and Reckless—Two Well-attended Meetings Are Held. Hughes Again Scores Hearst.

Binghamton, N. Y., Oct. 13.—W. R. Hearst, the Democratic candidate for governor, was given a warm reception when he reached here to-day. Clarence Shearn, in a lengthy speech, attacked the Republican candidate, Charles E. Hughes, for his assaults on Hearst. Mr. Shearn said in part: "At Lyons, Mr. Hughes, who poses as fair, truthful, and conservative, in a statement recklessly asserted that this great Hearst movement which is sweeping resistlessly through the State is a systematic attempt to obtain control of the government of the State of New York in the interest of selfish ambition. That is a malicious and reckless charge that does Mr. Hughes no credit. Why is the ambition of Hearst to be governor selfish and unselfish? How does Mr. Hughes know the ambition of Mr. Hearst is selfish? They are not personally acquainted. What right has one to assail the motives of a man that he has never looked into the eye or exchanged a word with? Is it fair? Is it decent or honorable?"

Hearst's reception in Binghamton was the most noisy and cordial he has encountered in his up-State campaign. When his two private cars entered the railroad station at six o'clock this evening the street approaches and platforms were crowded with cheering people. A joint committee of the local Democratic and Independence League organizations took charge of the visitor, put him in an open carriage, and whisked him over to the Democratic headquarters, where he held a brief reception.

The Democrats held their meeting at the Princess Skating rink, which has a capacity of 1,000, and the Independence League held their meeting at another skating rink in the abandoned St. Paul's Church, which has a capacity of 1,200. His speech was practically the same he delivered last night at Elmira and Ithaca.

Charles H. Haswell, who, at ninety-seven years, feels sure that he is the oldest Democratic voter in Greater New York, and who says he is one of the three men now living who voted for Andrew Jackson, announced to-day that for the first time in seventy-six years he will not cast his ballot this year for the Democratic candidate at the head of the State ticket.

He says he has been removed from public office three times because he was a Democrat, and will continue to be loyal to the party, but he will have to scratch the ticket this year. Mr. Haswell, who is assistant engineer in the board of estimate, was chief engineer of the United States navy for eight years. He constructed a number of vessels, among them the famous Powhatan, in which Commodore Perry sailed to Japan to open up the ports to commerce.
