Mr. Lorimer was born in Louisvile, Ky., thirty-nine years ago. After he got through with school he obtained a position, a very small one it was, it the packing house of Armour & Co., in Chicago. He was on the job from the minute he began, and in course of time he became the head of the glue department. It was an important position in The National Theater-"Il Trova- | Belasco-"The Marriage of Kitty" Porkopolis, and there was a good salary

But Lorimer wanted to write. He said he went to Yale. Then he went into Boston, and began to write things as a free lance. He sold them sometimes, and sometimes he didn't, but at any rate he tor of the Saturday Evening Post, at

In time the chief editor of the weekly severed his connection with the management. Cyrus K. Curtis, the head of the publishing house, was in Europe, and Lormer was put in charge of the paper until Mr. Curtis could return and find a satisfactory editor. This was the plan of the management. The Lorimer plan was that the way to make glue was to make glue that would stick. So he went into the editor's office, hung his hat on the editor's peg, and then and there glued himself to the job. When Mr. Curtis came back, and was asked who was to take the editorship, he went over the files and saw evidences of "Lorimer Glue The Kind that Sticks"-on every page. body has since tried to pry Lorimer out

One day Lorimer looked over the paper, humor must be had. He decided that the scored signally in the "Miserere" and the deep problems, nor has any moral lesson" way to have humor was to make humor, The first installment of "Letters from a Self-made Merchant to His Son" was the result of this self-communion. While he was seeing the world, Mr. Marriott walked hundreds of miles in the jungles of Africa and South America. He experienced numerous adventures with beasts and savages, and suffered hunger and thirst under the tropical sun. Upon one occasion his team of oxen fell sick in the Transvaal, and he was compelled to walk 180 miles through a country infested with dangerous wild animals. His love of curios had led him to trade his rifle to a native, and he was equipped with no arms other than a native spear, in the use of which he was not expert. Alexandria, Va., Aug. 19.-Gov. Swanson to-day gave audience in Richmond to Delegate James R. Caton, Judge J. K. who is co-operating with the board in the peared to urge the appointment of Attorney John M. Johnson, of Alexandria, to the judgship of the Sixteenth judicial circuit, which will be made vacant September 10 by the resignation of Judge Louis C. Barley. Upon his return to Alexandria to-night Mr. Caton stated that the governor, after listening to the representations in favor of Mr. Johnson had announced that he would take the matter under consideration.

So far as the Alexandrians were informed, no one appeared to request the appeintment of J. B. T. Thornton, of Manassas, Prince William County, who recently became a candidate for the position. As the governor had set to-day for hearing supporters of the candidates in regard to their qualifications and recomnendations for the office, it is presumed that the friends of Mr. Thornton were content to have his name submitted without special appeal,

At their interview with Gov. Swanson Judge Norton, Mr. Caton, and Mr. Fisher called attention to the numerous indorsements Mr. Johnson had received from the lawyers throughout the circuit. Reference was also made to the petition signed by more than 700 of the representative cit izens of Alexandria, asking for Mr. Johnresidents along the street over which the son's designation to the judgship. It is expected that the governor will announce his decision in a short time. In the meantime Mr. Johnson's supporters will be active in his behalf.
