FOR CLEAN SCHOOLS

Board of Education Discusses Sanitary Measures.

BETTER REPAIR WORK NEEDED

Capt. Oyster Discusses the Power of Commissioners to Pare Down the Board's Estimates—Resolution is Adopted Aimed at Lobbyists—Appointments and Promotions.

Better sanitation and better workmanship in the repairing of school buildings was the sentiment of the members of the Board of Education expressed when they met yesterday in Franklin School.

One of the committees had reported that one of the buildings used by the Langdon School was entirely unfit for school purposes and unhealthy, and that the water supplies of the schools should be subject to an analysis at least three times a year.

After listening to the monthly report of the ways and means committee, Capt. Oyster, president of the board, expressed himself strongly to the effect that the Commissioners should not cut down their recommendation to Congress for school appropriations. The question was raised whether the District Commissioners had the power to cut down the estimates the board submitted.

Capt. Oyster said that, although the board asked for about \$45,000 more than last year for repairs, that the financial condition of the schools was good. But he gave great emphasis to the fact that better workmanship in the repairing of the schools should be demanded. He recited many cases of bad work being done, and said that often when lockers were found broken, the pupils were held at fault. In reality, the blame should be attributed to the workmen who had fixed it in the first place. Specific instances of this were mentioned in the plumbing, black-boards, lockers, and cement floors.

Aimed at Lobbyists.
Mrs. Mussey recommended that none of the employees of the schools should be allowed to go before Congress or any members or committees of Congress to recommend any measure that could be conducive to their welfare or that of any one else. The point was raised that many important measures were hampered because some one would give a biased view of the situation. The resolution was carried.

Dr. Chancellor reported that the board would be asked at some future time to sanction the plan to raise a chorus of 200 voices from the public high schools.

It was recommended by the board to change the classification of L. E. C. Collier from group A, class 5, to group B, class 6. This will give him a salary of \$1,900, with the opportunity to obtain an increase on the plan of the automatic increase. The recommendation was made on Mr. Collier's efficiency as a linguist and a teacher.

PETITION IN MAGAW CASE.
Son Seeks to Be Appointed Collector of Mother's Estate.
Van Brunt Magaw, of Brooklyn, N. Y., yesterday filed a petition in the probate court to be appointed collector of the estate left by his mother, Mrs. Alice D. Magaw, who died August 10, 1907; and also to be authorized to take charge of the personal property left by her, pending the settlement of a suit in equity which has been instituted in connection with two pieces of property which Mrs. Magaw conveyed during her lifetime, and the settlement of a caveat against the probating of her will.
Mrs. Magaw left an estate of an estimated value in real estate of \$12,000, and of personalty valued at \$7,000. In her will Mrs. Magaw left two pieces of real estate to the trustees of the Women's Foreign Missionary Society of the Metropolitan Memorial Methodist Church, which were to be sold and the proceeds devoted to the erection of a memorial to her husband in China or in India, the scenes of his labors as a missionary. Small legacies were left to her two sons, Van Brunt Magaw and Frederick L. Magaw, and two grandsons, Robert Magaw and Stephen Magaw. During her lifetime Mrs. Magaw conveyed by deed to the board of trustees the same two pieces of property which she devised to them in her will. Robert Magaw filed a suit in equity to cancel this deed, and a caveat to break the will.

The Power of Credit.

Now is the time when housekeepers are facing a dilemma. Not only are the necessities of life getting higher every day, but the little touches of luxury desirable in every home are almost unpurchasable by the family of moderate means.

The value of this credit house lies in its immense purchasing power. It takes the burden of paying large cash sums for merchandise upon itself, and then offers its patrons the opportunity to purchase goods on easy payment plans.

Why We Sell Sewing Machines Much Cheaper Than Any Other Store
There Are Many Reasons:
First: We don't depend solely on the profits derived from sewing machines to run this store. Every section contributes its share, lowering expenses to a minimum.
Second: We buy only in carload lots, enabling us to secure the lowest possible wholesale prices and freight rates.
Third: We don't hire any canvassers; we don't send machines from commissions for selling these machines.
Fourth: We are in business to treat each customer squarely and honestly, and have every one continue to deal at this store. So we ask only a fair and reasonable profit above actual lowest wholesale cost to us, and allow you to pay in small weekly or monthly amounts.
Our Automatic Drop-head White Is the Best Sewing Machine Ever Made.
