Light Blue... Cream... Ivory... Pink... Nile... Corn. Navy... Garnet... Lavender... Fast Black.

This is specially desirable on account of the firmness and strength of the fabric. More than 75 per cent pure silk, which gives it a beautiful luster.

Light Blue... Pink... Lavender... New Brown... Pongee. Cream... White... Garnet... Navy... Nile. Maize... Fast Black.

Women's tailored suits at \$24.75 Lot includes \$30 and \$35 suits.

This is by far the most attractive popular priced suit collection in the city. At \$24.75 we can give buyers a selection from a greater number of styles.

Some of the newest suits are very clever military modes. There are also some new effects in tight-fitted and Prince Chap suits.

We cannot emphasize too strongly the values of the suits in this line—they are considerably above the average to be had at the figures quoted.

SOLEMN MASS FOR THE DEAD

Services in Memory of the Departed in Catholic Churches.

Rev. Father Mackin the Celebrant at Impressive Early Service at St. Paul's.

In memory of "the souls of all those who have died in the communion of the body and the blood of our Lord" masses were said in all the Catholic churches in Washington yesterday.

Because of the fact that Thursday was the vigil of All Saints' a fasting day of obligation, Catholics were privileged Friday day to eat meat, by special dispensation from Rome. Few of them in this city, however, took advantage of the fact, although the two days, falling together, made a stretch of forty-eight hours without meat.

All Saints' Day had its origin in the seventh century, in the conversion of the Pantheon at Rome into a Christian place of worship. The Pantheon, dedicated in heathen times to Jupiter Vindex, was in the seventh century the last remaining monument of heathenism. Pope Boniface IV obtained permission from Emperor Phocas to rededicate the Pantheon to the Virgin and all the martyrs.

In 85 Gregory IV induced Emperor Lewis, the Pious, to decree a general observance of the Feast of All Saints. The first of November was the day appointed as being the time when men and women were resting from the harvests. From this time All Saints' became one of the great Catholic church festivals and was observed in all Catholic countries.

OPERATIONS ARE NOT FAVORED

HOLDS INAUGURAL MEETING.

Theosophical Society Hears Some Splendid Addresses.

Capital City branch of the Theosophical Society held its inaugural meeting at its headquarters in Inyan Temple on Sunday evening, last. The president, Mr. Robert L. Lerch, made the opening address, welcoming the audience, and giving an idea of what theosophy meant, and also emphasizing the central teaching of brotherhood.

Dr. W. W. Baker, vice president, spoke of the activities of the branch, stating that free public lectures would be given every Sunday evening, and study classes formed wherever a nucleus could be made.

Mr. W. H. Cragen addressed the meeting, concluding with an earnest wish for the success of the new branch. Hon. George S. Shibley responded to a call to address the meeting, and referred to a proposed federation of theosophical branches in this city.

STRIKE FINAL BLOW IN 1908

Ex-Senator Chandler's Advice to New Hampshire Grangers.

Gives Roosevelt and Bryan Credit for the Great Moral Awakening in Business and Politics.

To a New Hampshire meeting of grangers to which he was invited, ex-Senator Chandler recently wrote a letter containing plain speaking concerning monopolies and political corruption and the attitude toward them of President Roosevelt and Mr. Bryan. His words were the following:

"It is true that a great moral awakening in business and politics has at last come to this country. For many years I longed and labored for such a movement, but the victims of crime controlling business and corrupting politics seemed insensible to their own injuries resulting therefrom. The direct and tangible harm coming at any one time to any one person from taxes unequal and unjust, and from process of the necessities of life inflated by monopolies has been so slight and the chance of relief so feeble that there has been little resistance, either individual or organized, to the gross wrongs which the people have suffered and which have created the enormous fortunes of the masters of predatory wealth who have monopolized trade and corruptly ruled the State and national governments.

"For the awakening which has come at last I urge your unhesitating approval and support. It is not political, although it may affect politics. The two great leaders of the revolt against the crimes in business and politics are Theodore Roosevelt and William J. Bryan, and each is honest, sincere, and courageous—whatever mistakes he may make while performing his share of the great work of national redemption.

"In New Hampshire there is much work to do to put the State in line with reform elsewhere. Corruption money and free passes have been abundant and their distributors are not dead yet; they are only lying low, waiting for the storm to blow over so that they can resume their habit plans and revive their shaken system. The final blow should be given to them in the elections of 1908. To the faithful performance of duty in the destruction of corruption and crime in business and politics the grangers should rally without hesitancy and with persistency and courage."
