PENNSYLVANIA RAILROAD. Bulletin. THE STANDARD RAILROAD OF AMERICA.

326 millions of dollars is a stupendous sum. In gold eagles the bulk of such a sum is inconceivable. It is greater than the total revenues of the United States Government for 1895, and nearly half as much as the total Government receipts for 1902.

It adds to the satisfaction of travel over a matchless roadway in the best built cars and under every known safeguard, to think that the average earning power of the 11,175 miles of this great system was \$290,000 per mile.

From any and every point of view the Pennsylvania is The Standard Railroad of America.
