Give us your order for the piano tuning. Done by experts, and fully guaranteed; either upright or square pianos. **\$1.25** Special price.....

You Can Now Buy the Harvard Piano

Here—Inspect It To-morrow

As this piano department grows there is a constant reaching out for the highest class instruments produced—for a piano must have proved its superiority before we give it a place on our floors. In following out this policy we have secured the agency for the well-known HARVARD PIANO, one of the highest-grade instruments on the market, and we invite you to inspect it to-morrow. The Harvard is made in the best-equipped piano factory in America—it has achieved fame far above that accorded any other instrument in its class. The tone quality is rich, robust, and musical, having none of the metallic resonance found in the lower grade pianos. It is considered by experts to have one of the best actions of any piano on the market.

The Harvard is used and highly indorsed by the best-known musical artists of the world, and we recommend it to Washington music lovers as an instrument that will not prove out of place in the best drawing-rooms of the National Capital. Visit the piano section (fifth floor) to-morrow.
