MORROW HAS A PLAN Suggests Method of Preventing Building Disasters.

SAFETY LIES IN THE PERMITS Would Grant Them Only to First-Class Builders Who Agree to Employ High-Class Workmen—Finding of the Grand Jury Expected by End of Week—Conference Held.

To procure the enactment of legislation prohibiting the granting of permits to all except licensed builders, is the solution of the problem of preventing building accidents such as occurred at the Pickford apartment house on Tuesday last.

"They feared," said Maj. Morrow, "such a law might bring about a combination of practical builders qualified for licenses who might boost up prices or their work, or otherwise dictate to building promoters and speculators, to the financial detriment of the latter."

In anticipating that the grand jury will reach its findings by the end of this week in connection with the four men held by the coroner's jury as criminally responsible for the collapse of the Pickford apartment house, the Commissioners did not hold their executive session yesterday for the purpose of determining what their line of action would be in their inquiry into the conduct of Snowden Ashford, the suspended building inspector, and the workings of his department.

They said yesterday that the work of investigation is being pushed as rapidly as possible for its presentation to the grand jury, and no one, they say, whether he was named by the coroner's jury or not, will be permitted to escape responsibility.

Experts retained to make a thorough inspection of the structure have about completed the preliminary part of their report, and are now engaged in the preparation of the report, which will be laid before the grand jury with the evidence already in the hands of the district attorney's office.

Congress Hall Hotel SPECIAL SUMMER RATES. Beautiful rooms, all new and outside; coolest spot in the city.

CHANGES AT THE G. P. O. New Assignments Made by Mr. Leech at the Printery.

As a result of the elimination of night work and the transfer of the night force to day duty, Public Printer Leech has made the following new assignments: Charles E. Young, assistant superintendent of manufacture, night, at \$3,000 per annum, has been made a computer and estimator at \$2,000 per annum.

James H. Ross, assistant chief of section, night, has been made a proofreader, and reduced from 80 to 60 cents an hour.

Ellis M. Wheat, head reader on the night force, was made a proofreader. Louis P. Kenney, first assistant chief of the linotype section, has been promoted to the position of chief, to succeed John R. Berg, recently made superintendent of work.

Charles J. Bell, treasurer of the Crosby Stuart Jones memorial fund, acknowledges receipt of the following additional subscriptions: A. R. Sevier, \$10; James F. Oyster, \$20; N. H. Shea, \$10; H. A. and B. K. Willard, \$25; James R. Young, \$5; J. A. Van Orsdel, \$5; M. F. F. M., \$10; Mrs. Cohen, \$10; W. C. East, \$10; Joseph C. Hornblower, \$10; D. J. Kaufman, \$10; George H. Harris, \$10; Charles H. Robinson, \$10; W. C. Hibbs, \$10; Charles D. Walcott, \$10.

Several matters were disposed of at the noon meeting of the executive committee of the Chamber of Commerce yesterday. One was the sending of two members of the chamber to out-of-town points to invite national bodies to hold their next conventions in this city.

H. C. C. Stiles, chairman of the committee on conventions, was delegated to attend the convention of the National Educational Association, carrying a formal written invitation to that body to hold its next annual meeting in Washington.

Thomas Grant, secretary of the chamber, was delegated to go to Atlantic City, where the Master Car Builders' Association, the American Railway Master Mechanics' Association, and the Railway Supply Manufacturers' Association will meet this year, and to confer with the proper officials of these bodies with a view to having them hold their meetings in 1909 in this city.

Members of the chamber and others have been agitating the question of holding an excursion, to last several days, at some point down the river. President Europe will call the executive committee together next Wednesday at 9 o'clock to consider the time and the ways and means of the proposed excursion.

A building permit was issued yesterday by Assistant Inspector Ponton to H. J. Bradley to erect three two-story frame dwellings, No. 38, and No. 39, near street southeast, at an estimated cost of \$2,100.

A number of freight officials from several of the great railroads in the West were presented to President Roosevelt yesterday by Assistant Secretary Wheeler, of the Department of Commerce and Labor.

NOT FOR MUZZLES Commissioners Appeal to Dog Owners to Be Careful.

RABIES LARGELY IMAGINATION District Officials Ask that Dogs Be Kept on Owners' Premises and that Aid Be Given in the Destruction of Stray Canines—Three Pound Wagons Soon to Be in Service.

A step toward the solution of the problem of dealing with rabid dogs, which has been the subject of so much discussion recently, was taken yesterday by Commissioner Macfarland, when he issued an appeal to the owners of dogs to keep their animals, so far as possible, on their own premises, or to keep them in leash when on the street, and to the general public, asking their assistance in catching unlicensed dogs.

No mention is made of the muzzling of dogs, but the Commissioner suggests to citizens generally that they discourage sensational rumors, that they remember that most dogs called "mad" are not mad at all, and also that nervous people may work themselves into a simulated hydrophobia by dwelling upon its symptoms and becoming unduly excited.

Last week the Commissioners received a letter from the President, transmitting from the Secretary of Agriculture, enclosing a report from the chief of the Bureau of Animal Industry, Dr. Mohler, of the number of cases of rabies reported to his bureau since January 1 last.

In their reply the Commissioners stated that when it was reported that the number of dogs at large was increasing and that rabies was reported among some of them; they had ordered an additional pound wagon, and instructed the poundmaster to make special efforts to capture stragglers from the District. As a result 2,750 stray animals were captured between January 20 and April 20, and painlessly put to death at the pound.

Furthermore, on account of the reports in May of increasing numbers of dogs coming to the city from Maryland and Virginia, a third pound wagon was ordered on June 2, which the health officer is now preparing to put into service.

Dr. Mohler, of the Bureau of Animal Industry, declares that the only way to eliminate rabies from the District is to order all dogs allowed on the street to be muzzled, and stray dogs, licensed or unlicensed, to be shot. He says that the situation is too serious for any half-way measures. The danger to human beings, he maintains, far outweighs the claim that the muzzle is cruel to the dog.

The Commissioners affirm just as decidedly that experience has convinced them that the muzzle is not effective. The experiment was made in 1890, and having proved a failure, it has been thought inadvisable to renew it, as their belief is that whatever rabies among dogs is existent in the District is due primarily to the constant incursions of dogs from Maryland and Virginia, and to other unlicensed dogs, who would not in any event be muzzled, and that the most effective manner of treating the problem is to capture and destroy the unlicensed animals.

A building permit was issued yesterday by Assistant Inspector Ponton to H. J. Bradley to erect three two-story frame dwellings, No. 38, and No. 39, near street southeast, at an estimated cost of \$2,100.

Y. M. C. A. BOYS TO CAMP Three Outdoor Treats Planned for the Present Summer. Cruise on the Chesapeake is Also Annual Event—Big Relay Race to Be Run.

A delightful summer is promised the boys of the Young Men's Christian Association this season. There will be several camps, one at Edgewater, on South River, Md., seven miles from Annapolis. The camp will open on June 23 and close July 12.

There will also be a week-end camp one mile beyond Cabin John Bridge, so that young men who work during the summer may spend Saturday and Sunday away from the heat and stuffy atmosphere of the city.

Mr. G. K. Smith is the chief promoter of the week-end camps. A day in camp begins with a swim in the lake. Breakfast is then served, after which the class in Bible study is called. Thence on the boys are at liberty to devote themselves to sports.

Several matters pertaining to organizing the horsehoers will be considered to-day. The officers of the International Union are: President, Hubert S. Marshall, Cincinnati; vice president, Patrick J. O'Brien, Albany; secretary-treasurer, Rody Keenehan, Denver.

Secretary Metcalf, the first member of the President's Cabinet to desert Washington for the summer, left here yesterday afternoon at 6 o'clock for California. He will pass through Chicago, but will take no part in the convention.

SHOERS IN SESSION Delegates Here from United States and Canada.

WELCOMED BY MACFARLAND Greeted Members of the International Union of Journeyman Horsehoers in Costello Hall—Invites Them to Meet in the National Capital at Least Every Two Years.

More than eighty delegates attended the opening session of the twenty-ninth biennial convention of the International Union of Journeyman Horsehoers of the United States and Canada, in Costello's Hall yesterday.

The meeting was called to order by International President Hubert S. Marshall, of Cincinnati. Commissioner Macfarland and Peter Gaitly, president of Washington Local No. 17, addressed the delegates.

Commissioner Macfarland said: "The District government is glad to see you here and has a special welcome for the delegates from Canada. You of the United States ought to feel at home here, for this is your capital. All of you outside of the District of Columbia contribute one-half of the expense of maintenance of our common National Capital, while we who live here contribute the other half."

Just before the close of the session, a communication from the Master Horsehoers' Association was read. This referred to matters that come under the open-shop question, and while no action was taken, it will be brought up again, and it is said action unfavorable to the request may result.

Several matters pertaining to organizing the horsehoers will be considered to-day. The officers of the International Union are: President, Hubert S. Marshall, Cincinnati; vice president, Patrick J. O'Brien, Albany; secretary-treasurer, Rody Keenehan, Denver.
