TAKEN TO NEW YORK.

Alleged "Black Hand" Operator is Arrested in Washington.

William E. Beall, twenty-four years old, left Washington yesterday afternoon for New York in charge of Detective John E. Bottle to answer a charge of attempted blackmail. Beall was arrested by Detectives Barbee and Vermillion at the home of relatives, 1213 Park road.

Beall, according to Detective Bottle, is under indictment in New York for sending "Black Hand" letters to an Armenian business rival, Dr. Dardarian. About a year ago Dr. Dardarian received a letter demanding \$10,000, and shortly afterward two others asking various sums. An infernal machine constructed in a cigar box and containing enough powder to demolish a house was received by the Armenian, and turned over to the police.

In the final report of the October grand jury, made to Justice Gould yesterday, an indictment was returned against Jules M. Waterbury, for false pretenses.

Waterbury, it is charged, represented himself as an agent of the Associated Press, and procured money from Senator J. C. Burrows, of Michigan, Representative John A. T. Hull, of Iowa, Representative Richard Bartholdt, of Missouri, and Assistant Attorney General Ormsby McHardy, by promising to deliver to them copies from steel encryptions of prominent men. Waterbury denies that he used the name of the Associated Press.

COMMERCE COUNCIL OPENS ITS OFFICES

Organization of Business Men Formed Here.

TO PROMOTE FOREIGN TRADE

Copied After System Used in Germany—At Present in Experimental Stage—Particular Attention Will Be Paid Cotton Industry—To Keep in Touch with Other Countries.

The National Council of Commerce, composed of fifty of the best known business men of the country, opened its headquarters in the Adams Building yesterday morning.

The object of the council is to act as a clearing house between the large business houses of the country and the government.

Secretary Straus was the originator of the idea of such an institution. In an address in New York City some months ago he suggested the need of a bureau of commerce to promote the trade interests of this country in foreign lands.

Germany has the most perfect system for the promotion of foreign trade of any country in the world, and it was because of such a volume of business going to that country in the last few years that the need of a body such as the one just organized here was felt.

Particular attention will be paid to the cotton industry, and the council will endeavor to extend the market for the American product. The decisions given by various courts in relation to commerce will be closely followed.

It will keep in close touch with trade conditions of other countries through the consular agents.

TEXANS MEET TONIGHT. State Society Will Elect New Officers—Excellent Programme.

The Texas Society of Washington will hold its annual election of officers at tonight's meeting, which will be called to order by the president, Representative O. W. Gillespie, at 8 o'clock, in Pythian Temple.

It is the usual custom of the society to change its president each year, and a constitutional provision provides that no officer shall serve more than two years.

In addition to the election, an excellent programme has been arranged under the direction of Mrs. Mary M. Hayward, chairman of the programme committee, and the entertainment committee will also provide refreshments. All Texans in the city, whether members of the society or not, are invited to be present.

MANDAMUS IS ASKED. Former Captain in Fire Department Attacks Commissioners' Action.

Anthony J. Moshevel, former captain in the fire department, yesterday filed a petition in the Supreme Court of the District for a writ of mandamus against the Commissioners to pension him at the rate of \$75 a month.

He says he was severely injured at a fire in Elsdinger's lumber yard, Seventh street, between Florida avenue and Pomeroy street, in March last, and that the Commissioners, knowing of his injuries, entered an order dismissing him, giving as a reason that he had failed to maintain discipline in the engine company of which he was captain. He claims the Commissioners have not the right to issue an order affecting his claim for a pension.

Will Elect Officers. The annual election in the Woman's League of the National Junior Republic, will be held in the Arlington Hotel Friday morning, at 10:30 o'clock.

BOYS ASK CERTIFICATES.

Many Applications to Work Under Child Labor Law.

Raymond O. Wilmarth, assistant secretary of the board of education, was a busy man yesterday afternoon, attending to the needs of nearly seventy-five boys who came for certificates which would allow them to work.

The child-labor law provides that every child between the ages of fourteen and sixteen can be legally employed only when he has a certificate from the superintendent of public schools or from his duly authorized representative.

Mr. Wilmarth, since the new law went into effect, has issued nearly 850 certificates. The majority were applied for by newsboys.

The department stores of the city were well represented by children anxious to become cash boys or messengers. The majority of these were between the ages of twelve and fourteen years.

One of the features of the new law requires that newsboys must wear a badge.

DENIAL OF WASTE.

Government Printing Office Official Says Use of Water is Normal.

A denial has been made by officials of the Government Printing Office regarding the charge of water waste at the institution made by Supt. McFarland, of the water department.

Capt. Henry T. Brian, Deputy Public Printer, who is in charge of the mechanical department of the establishment, says that the 1,000 gallons per minute consumption does not represent any waste of supply.

Pending an official reply from the Printing Office, the District authorities will take no action on Mr. McFarland's report.

NO MONEY FOR REPAIRS.

Fund for School Improvement is Exhausted, Secretary Says.

A request that the grounds of the Ketcham School be improved, made through H. C. Hines, secretary of the board of education, to the Commissioners, has occasioned a statement from Henry Storey, superintendent of repairs, that the present condition of the repair fund will permit of no further expenditures at this time.

According to Mr. Storey, \$50 has already been spent in beautifying the school surroundings, such as inclosing the grounds with a wire fence, providing a cement walk around the building, and covering the rear yard with crushed stone. All further work on the schools has been postponed.
