"OUR OWN HAWAII."

Burton Holmes Takes His Audience
Across the Pacific.

Before an audience that occupied every
available nook and cranny Mr. Burton
Holmes inaugurated his Wa-hington sea-
son of lectures at the New Masonic Au-
ditorium last night.

The subject was one that may be said
to be near home, though thousands of
miles distant—"Our own Hawaii." Many
effective and delicately hued pictures of
Hawaii's life, scenes in Honolulu; bath-
ing at Waikiki; the hula dance; pol-eat-
ing; the sugar cane fields; ranch life;
and, above all, there is a wondrous mov-
ing picture of the crater of Kilauaea in
action, which was taken by the lone light
of the Hawaiian Islands.

Then Mr. Holmes dips into the heart of
Hawaii's life, scenes in Honolulu; bath-
ing at Waikiki; the hula dance; pol-eat-
ing; the sugar cane fields; ranch life;
and, above all, there is a wondrous mov-
ing picture of the crater of Kilauaea in
action, which was taken by the lone light
of the Hawaiian Islands.

MAKES FINAL PLEA FOR PLAYGROUNDS.

Dr. Curtis Delivers Lecture
at Church of Our Father.

HOUSE TO VOTE TO-MORROW.

Passage of Law Advocated with
Similar Provisions to Those in Ef-
fect in Massachusetts—Recreation
for Children as Necessary as Edu-
cation—Gives History of Movement.

In a last public plea for children's play-
grounds in Washington, Dr. Henry S.
Curtis, secretary of the National Play-
grounds Association, delivered a lecture
on the subject at the Church of Our
Father yesterday afternoon.

The House of Representatives to-day
will vote upon the proposed appropria-
tion for this purpose.

Dr. Curtis gave, in brief, the history of
public playgrounds, the first of which
was in use in Germany more than twenty
years ago. He declared that there is not
a city in the United States to-day the
size of Washington that feels the lack
of playgrounds for the children as this
city does.

He advocated the passage of a law
similar to the one in the State of Massa-
chusetts, which provides that each city
shall have a public playground for every
20,000 of its population. He stated, how-
ever, that the question here is not so
much whether such a system shall be
established as whether the National Cap-
itol shall be among the foremost or the
most backward in caring for its child-
ren.

RECREATION NECESSARY.

Dr. Curtis declared that public recrea-
tion for the children is every bit as
necessary as public education. The lack
of amusements, he said, particularly dur-
ing the summer months, is responsible
for the evil ways into which young girls
and boys fall. He asserted that larger
playgrounds were an absolute necessity
to keep the children of Washington out
of trouble.

Challenging the argument used by the
House Committee in reducing the pro-
posed appropriation of \$25,000 to \$120,000
claiming that the children do not need
playgrounds, Dr. Curtis produced records
showing that there were 42,000 children
in attendance at the playgrounds during
the last season.

He declared that there was no founda-
tion for the statement that children did
not like to be under the supervision of
a teacher while at play.

Dr. Curtis said it was wrong for the
government to expect that the play-
grounds here should be maintained by
charity, as he said had practically been
the case lately. He asserted that during
the past year the duty had been thrust
upon private charity in the District.

PRIVATE MONIES FURNISHED.

Private purses, he declared, already
have contributed \$22,000 for the grounds
for the coming summer, and said that
\$100 more must be raised before the
opening of the grounds then. Congress
made no appropriation for the play-
grounds last year.

The history of playgrounds, as told by
Dr. Curtis, shows that two years after
such grounds were first put in use in
New York City, just ten years after
the idea was first introduced in Germany,
sixty cities had established public play-
grounds. Last year, he said, reports
showed that near 200 cities had made ap-
propriations for this purpose.

To illustrate his arguments yesterday,
Dr. Curtis showed a series of stereopti-
con views of many of the largest and
most handsome playgrounds throughout
the United States. According to his
statements, while Chicago leads with the
largest grounds, Los Angeles is noted
for having the most beautiful amuse-
ment places for its children.

In most of the Chicago playgrounds,
said Dr. Curtis, field houses have been
erected, not only to be used by the chil-
dren, but by their parents as well. He
favors the construction of such places
in Washington.

In speaking of the law in Massachu-
setts governing playgrounds, he declared
that in less than ten years there would
not be a State in the Union which had
not passed a similar law. He expressed
the hope that the District of Columbia
would soon lead in the matter of taking the
best care of its children.

CHINESE ENVOY DEPARTS.

Ambassador T'ang Sails for Europe
on January 19.

Expressing his conviction of the friend-
ship of the United States for China, and
for the integrity of its purposes in the
Orient, ambassador T'ang Shao Yi, of
China, yesterday morning departed for
New York, where he will visit friends
until the sailing of his steamer for
Europe on January 19.

Secretary Chung and other high offi-
cials of the Chinese legation accom-
panied the Ambassador to the station.
Just before climbing aboard his train
Mr. T'ang said: "I am convinced of
the sincere friendship of the United
States for China, and the integrity of
its purposes in the Orient. That China
appreciates this friendship is to put it
mildly. The American people really have
no idea of the high regard in which they
are held by my people."

Secretary Chung will remain in Wash-
ington a few days, settling up affairs of
the mission, leaving for New York in
time to sail with his chief for Europe.

UNIVERSITY OF CHICAGO.

Alumni Club of Washington Soon to
Hold Second Banquet.

Former students and faculty members
of the University of Chicago will meet
next Friday night for the purpose of
electing officers of the University of
Chicago Alumni Club of Washington for
the ensuing year, and to make prepara-
tions for the second annual dinner of
that organization. There are nearly 100
former students and faculty members of
the university in Washington, not in-
cluding many teachers in the local
schools who are eligible to membership
in the Alumni Club. The list of honorary
degree alumni in this section includes
President Theodore Roosevelt, Charles D.
Walcott, Secretary of the Smithsonian
Institution, and President Ira B. Remsen,
of Johns Hopkins University.

Representative Frank O. Lowden, of
Illinois, is trustee of the university, and
Representative Burton French, of Idaho,
is the only graduate of the young univer-
sity who has attained a seat in Congress.
It is the intention of the club to invite
President Harry Pratt Judson, of the
university, to repeat his visit to Wash-
ington, made last year when the club
organized only two weeks, gathered for-
ty-three members about a banquet board.

The coming meeting will be held in the
editorial rooms of the Washington Times
at 8 o'clock next Friday night.

WELL FOUNDED CITY.

Rev. Dr. Woodrow Declares This
Should Be a Righteous Nation.

Rev. Dr. Samuel H. Woodrow, pastor
of the First Congregational Church,
preached yesterday morning on the sub-
ject, "A well-founded city." He said:
"The men who did most for the purifi-
cation and elevation of civic life were
the men who declared, 'Here we have no
continuing city, but we seek one to come.'
'We should do all we can to make this
a holy city and our country a right-
eous nation, loving truth, doing justice,
displaying benevolence. Here we have
no continuing city. The passing year,
with invisible hands, push us ever faster
and faster along the pathway of life.
Happy are we if with every passing year
we hear with ever-increasing melody the
music of our own country, and catch the
radiance of the Eternal City.'"

MRS. MACNULTY STRICKEN.

Death Comes to Her Suddenly at Her
Tilden Street Home.

Mrs. Abigail Prout MacNulty, wife of
Capt. W. A. MacNulty, of the Post-of-
fice Department, died suddenly at her
home, 284 Tilden street northwest, at
3:25 o'clock yesterday morning, of heart
failure.

Mrs. MacNulty retired at 10:30 o'clock
Saturday evening, after having passed a
pleasant evening at a social gathering at
the home of a neighbor. She seemed in
excellent health and the best of spirits.
She was taken violently ill at a few
minutes after 1 o'clock, and before the
family physician could reach her she
expired. With her at the time of her
death were her husband and son and
daughter.

Before marriage Mrs. MacNulty was
Miss Abigail Wigin. She was born at
Prouts Neck, Me., November 11, 1841.
She married Capt. MacNulty August 23,
1865. She was the mother of six children,
four of whom survive: A. C. MacNulty,
of New York City; Mrs. Eugene E.
Stevens, of Chevy Chase; Miss Nease E.
MacNulty, and Will G. MacNulty. Mrs.
MacNulty was for years a member of
St. Mark's Pro-Cathedral, but in later
years attended All Saints' Church, Chevy
Chase.

Funeral services will be held at the
