Union Pacific Stocks Soar in Active Market.

REALIZING SALES ARE NOTED

Speculation Among Operators as to Source of Big Deals Induced Much Short Selling, and Now the Market Has Support of Greatest Short Interest in Several Weeks.

New York, Aug. 13.—In another active stock market in which there were sales of 1,245,000 shares, there were transactions in 234,000 shares of Union Pacific common, and 60,000 shares of Union Pacific preferred, with gross gains of six points in the common, and ten points in the preferred. Reports accompanying the advance were to the same effect as those circulated yesterday.

The company was preparing to distribute its holdings of investment securities in some form or other, and the only variation at all was that the company would make an offer to preferred stockholders to retire their stock on advantageous terms.

Nothing official was announced in this connection, and the disposition among speculators in other stocks seemed to be distrust against the extraordinary activity and strength of the Union Pacific shares, and to consider the movement as designed to facilitate distribution of other stocks in which speculation has been keen in recent weeks.

No Evidence of Suspicion.

No evidence of any such suspicion was noted in well-informed quarters, where it was believed that developments of importance would appear at no distant date, but at any rate the majority of the active stocks moved as if the Union Pacific shares were the only ones to be other exchanged and had no influence upon other stocks in the New York market.

In these other stocks there were very heavy realizations, and the market, though not very material, declines. This large amount of profit-taking was, however, very easily absorbed, and the buying power, the recessions notwithstanding, seemed still of the most substantial kind.

The day was rather barren of news developments of market importance, and discussion of the Union Pacific rumors was the always interesting question of the extent and sources of the heavy realizing sales were most heard among speculators.

On these points there was enough difference of opinion to induce much short selling so that now the market has the support of a greater short interest than at any previous time for several weeks. Its technical position, so called, seems thus to have improved.

Whatever developments of the day brought were again of a character to supply no reason for sales of securities. The Rock Island, for instance, was in the market for 5,000 shares, and this inquiry, following closely the heavy orders placed by the Pennsylvania and Baltimore and Ohio, furnished additional evidence of the gratifying and decided improvement in business of car equipment, car companies, and the steel companies.

In steel, it is known that the increase in steel mills had surpassed expectations. Reports of the improvement in retail trade were also well up to sanguine expectations. A 2 1/2 per cent. advance on call loans was established for the first time, and the demand for time money continued healthy.

NEW YORK MONEY.

New York, Aug. 13.—Money on call at the stock exchange today opened at 2 1/2 per cent. highest, 2 1/2 per cent. lowest. The rest of the day's loans were made at 2 1/2 per cent.

Time money remained firm in tone. There was a slightly better demand for time money than for freely. Demand was confined chiefly to the year maturities. Rates for sixty days, 2 1/2 per cent.; three months, 2 3/4 per cent.; six months, 2 3/4 per cent.; one year, 3 1/2 per cent.

The market for sterling today was steady with rates unchanged. A 2 1/2 per cent. advance was noted as follows: Sixty days, 4.65; three months, 4.80; six months, 4.95; one year, 5.10.
