ANNOUNCE FOR THIS WEEK

## The Thirtieth Anniversary of the Establishment of Their House.

**I**N celebrating the Anniversary of the Thirtieth Year of the founding of our vast establishment, we realize that the passing years have been a gradual unfolding of our business enterprise, each contributing to the sturdy growth of which this occasion is the perfected fulfillment. Though we attribute our prosperity to those sources which underlie commercial destiny, preparation, steadfastness and readiness to grasp and utilize opportunities, we also pay tribute to the ideal of this house, which ever finds an appreciative public—the social law which renders a service apart from moneyed equivalents.

Usefulness has been the impetus which has enlarged our borders, increased our facilities and developed our resources, until this auspicious day finds our house foremost among commercial establishments in the National Capital, where our achievements have kept pace with the rapid strides of civic development.

The reward of this service is commensurate with our unswerving purpose, and it is with an abiding gratification that we cherish the hearty indorsement of our public, which testifies, by its unbroken patronage and loyalty to its confidence in our worth, a verity which has been steadily maintained during these years of our advancement.

In acknowledgment, then, of this cordial encouragement of our ideals, endeavors and achievements, we bring to our patrons the "tithes" of our abundance by offering for their consideration exceptional values in each and every department of our store, each day bringing fresh opportunities not only to obtain new seasonable merchandise at anniversary prices, but to rejoice with us in the celebration of our long years of uninterrupted prosperity and public service.

### PREACHES ON RESURRECTION.

Rev. Dr. Thirkield Says Christ Is Source of Power.

At the Foundry Methodist Episcopal Church, in Sixteenth street, yesterday afternoon Rev. Wilbur P. Thirkield preached on "They may know Him in the power of His resurrection."

He said the source of spiritual power is the first known knowledge of Jesus Christ—a self-surrendering fellowship with Him. The clergyman said it is one thing to know about Christ, but it is quite another thing to know Him. He said the weakness of the church is in being satisfied with merely knowing about Him, and that a real knowledge of Christ is not merely an intellectual process, but it is an attribute of the soul.

### BIBLE'S HISTORY GIVEN.

Rev. Dr. H. O. Hall, of New York, Preaches at Universalist Church.

Taking as his theme "How we got the Bible," Dr. H. O. Hall, pastor of the Church of the Divine Paternity, of New York, gave a graphic description of the Bible's history in an illustrated lecture last night at the Church of Our Father. The four oldest editions of the Bible he said, were at the present time in the Vatican, at Rome; the British Museum, St. Petersburg, and Paris, respectively. Dating from the earliest periods of Egyptian history, parts of the Old Testament were written on stones and hides of animals, before the Hebrew language was known. The New Testament was written largely in Greek and Hebrew, he claimed, the latter editions being considered the most reliable, known, as it was the custom in those days to destroy the home and works of any scribe found to have made a mistake in writing religious books.

There is no complete manuscript in preservation that is more than 1,000 years old, Dr. Hall said, and those that have been discovered were found after years of research and explorations at great expense. The first edition of the New Testament, Dr. Hall claimed, could not have been written before A. D. 70 or 100, and was largely in the Hebrew language. Later editions were written in Greek, followed in Latin, from which the present edition is largely taken. The printing press served as the first and only means of spreading the Bible broadcast over Europe, Wycliffe's first printed edition, causing life persecution of the author, suppression of the edition, and finally the burning of Wycliffe at the stake.

Parties are each year searching the world over, he said, and the real and complete edition of the Bible can never be published. "In the meantime," said Dr. Hall, in conclusion, "the Book is ours, with all its wonderful history and sacred contents. There are none so poor who cannot possess it. Tradition, history, philosophy, proverbs, poetry, fiction, it is a library in itself."

"It has been the inspiration to multitudes of lives, a guide to countless thousands of human souls, a comfort to the sorrowing, a warning to the erring, a revelation of God's truth to those who have eyes to see and ears to hear."

**FAMILIES FORM HOME TRUST.**  
Rights of Men Colony Opened on a Ranch in California.  
San Francisco, Feb. 20.—The Rights of Men Colony, a co-operative community of Socialistic ideas, is being established on a ranch near Ukiah by a group of fourteen families of San Francisco and Oakland, under the leadership of Albert Adelson, of Oakland.

The families left their former homes yesterday to take up their new residence and commence new life.

The colony is to be conducted strictly along co-operative lines, dividing profits equally. There is to be a central kitchen and dining hall, but each family will have its separate cottage and its own home life. There will be ultimate accommodations for thirty families.

The ranch has 2,800 acres, of which 1,100 are under cultivation, and the remainder is good grazing and timber land. There are now on the property 120 head of cattle, twenty-three horses, sixty hogs, and a variety of poultry. Each family has paid in \$100 to start with, and live stock will be purchased immediately. The ranch is leased, but the community expects to pay for it in fifteen years.

### HOLDS RELIGION NECESSARY.

Max Pam, of Chicago, Addresses Civic Federation Meeting.

New York, Feb. 20.—Max Pam, of Chicago, who was the chief speaker at a patriotic service held by the American Civic Association at the Metropolitan Temple to-night, said that religion and law, which was the codification of the essence of religion in terms safeguarding society, were the two restraining forces of civilization that kept mankind from yielding to the madness that ruled Paris during the revolution when the Goddess of Reason was enthroned on the altar of Notre Dame.

"The place of religion in good government," was his theme, and in expounding it he said that a religious spirit among the people by engendering a self-restraint and self-denial militates against two destructive forces in society, predatory wealth and predatory poverty.
