

### EIGHTEEN INJURED IN VIRGINIA WRECK

#### Five Cars of Southern Special Derailed.

Section No. 2, of the "Southern Limited," one of the Southern Railroad's fastest trains, left the tracks at Cedar Run Bridge, Fauquier county, Va., at 5:55 yesterday afternoon, slightly injuring eighteen passengers. The injured are: Harry M. Edwards, 309 Trinity street, Buffalo, N. Y.; H. G. Ashler, Mobile, Ala.; Mrs. A. L. Shuler, Honesdale, Pa.; Herbert A. Whiting, 77 Somers street, Boston, Mass.; James Clark, 35 Wall street, New York; Charles F. Smith, 740 Richmond avenue, Buffalo, N. Y.; Mrs. S. C. Ferrands, Seattle, Wash.; J. P. Dunnicliff, 601 McDonald street, Montgomery, Ala.; Mrs. G. E. Meina, 461 Norman street, Bridgeport, Conn.; S. F. Miller, 207 West German street, Baltimore; Miss Marietta Walsh, 117 West Twenty-first street, New York; Capt. S. D. Duck, Baltimore, Md.; Mrs. William F. McAvoy, Baltimore, Md.; W. W. Tower, 431 West End avenue, New York; Mrs. E. B. H. Tower, 431 West End avenue, New York; H. C. Hill, Perry street, Buffalo, N. Y.; Mrs. I. S. Vanhook, Park avenue Hotel, New York; A. M. Dummer, 7 Hanover street, Baltimore, Md.

The accident occurred 200 yards from the bridge, which spans a creek fifty feet deep. The engine and tender ran upon the bridge. Five coaches were derailed. The train was running as a special from New Orleans to Washington, and pulled out of Atlanta, Ga., ten hours late. In order to make up time, it was speeding at fifty miles when the accident occurred.

Chairs were torn from their fastenings and passengers thrown to the floor. None of the injuries are regarded as serious. Physicians who were aboard the train cared for the victims. Among the passengers was Col. James L. Wright, of New Orleans, who was on his way to this city in the interests of the Panama Canal Exposition at the Crescent City. He arrived here late last night with his wife and child. In speaking of the accident, Col. Wright said: "We were ten hours late leaving Atlanta, because of another wreck on the road, and were going very fast to make up time when the accident occurred. Though every one was thrown from his seat and it seemed as though the cars were about to turn over, there was no panic or hysteria. A few women fainted, but the assurances of the train officials quieted any uneasiness as soon as we began to slow down."

### MYSTERY IN SNELL DEATH.

#### Son of Murdered Man Is Found Dead in Bed.

Chicago, May 23.—Albert J. Snell, son of Amos J. Snell, millionaire, who was murdered in his home in Washington boulevard in 1888, was found dead in bed to-day in a cheap rooming-house at 9 Clark street. Mystery surrounds the cause of death. The police and officers of the coroner's office are putting forth every possible energy in making an investigation. Snell was fifty years old. He had lived at the rooming-house, which is operated by Mrs. Margaret Adams, a little more than a year. He was a brother of Mrs. Grace Snell-Coffin-Walker-Coffin-Layman-Love, known as the most married and divorced woman in the United States.

### YESTERDAY IN CONGRESS.

(MAY 23, 1910.)

**SENATE.**  
The naval appropriation bill, carrying about \$13,000,000, was passed by the Senate yesterday. It was under consideration all day, the principal debate occurring on the question of the number of battleships to be authorized. The Senate voted in favor of two.  
The Senate adjourned at 5 o'clock until to-day at noon.

### HOUSE.

After a day of wrangle on the provision in the sundry civil appropriation bill appropriating \$20,000 for the tariff board, the point of order of Representative Fitzgerald, of New York, against the provision was sustained.

Chairman Tawney immediately offered a similar amendment in modified form, against which a point of order was also made, and which is pending. Representative Dalzell, of Pennsylvania, a high priest of protection, made the strongest argument against the provision, which is opposed by almost the entire minority.  
The House voted to sit-track "District day" in order to consider the sundry civil bill.  
The House adjourned at 5:30 p. m. until to-day at noon.

### SHIP CANAL TO BALTIMORE.

#### Mr. Gallinger Asks for Survey from Anacostia River to Chesapeake.

Senator Gallinger offered in the Senate yesterday a concurrent resolution authorizing a preliminary survey to determine the most feasible route for a ship canal from Anacostia River to Chesapeake Bay. Two routes are proposed, one from Bladensburg to the Severn River, seventeen and one-half miles long; the other from Bladensburg to the Patuxent River, twenty-one miles long.  
No appropriation is carried by the resolution. The project would furnish canal transportation between Washington and Baltimore, and has been urged by the Washington Chamber of Commerce.

### HACKNEY A FRANK WITNESS.

#### Kansas Given a Chance to Explain Ship Subsidy Charges.

William P. Hackney, of Winfield, Kans., who appeared yesterday before the House committee inquiring into the ship subsidy scandal, proved to be a frank witness.

In a pamphlet written by him some time ago, Mr. Hackney characterized every man in the United States who was opposed to the ship subsidy legislation as "an ignorant ass, an unprincipled demagogue, or the paid hireling of hateful influences."  
Hackney wrote this pamphlet and sent it to members of Congress and newspapers "to jerk them loose and set them thinking," according to his testimony before the committee.  
Next hearing June 1.

### MAY ADJOURN IN JULY.

#### National Lawmakers Guessing on the Date.

Somewhere between July 1 and July 15 Congress adjournment land, according to a half dozen more or less expert legislators who were interrogated on the subject at the White House yesterday.  
"I think it'll be about July 15," said Champ Clark, the leader of the minority in the House.  
"Put me down for July 1," was the representative Nicholas Longworth subscribed to the symposium.  
"I'll take some of that July 1, too," said Senator Simont, of Utah.  
"It'll hardly be as late as July 15, in my opinion," remarked Senator Crane, of Massachusetts.  
"About the middle of July," predicted Senator Dick, of Ohio.

### THE TIRED MAN'S SLEEP.

Now the long, long day is fading, and the hush of dusk is here, and the stars begin parading, each one in its distant sphere; and the city's strident voices dwindle to a gentle hum, and the heart of man rejoices that the hour of rest has come. Thrown away is labor's fetter, when the day has reached its close; nothing in the world is better than a weary man's repose. Nothing in the world is sweeter than the sleep the toiler finds, while the ravening mosquito fesses at the window blinds. Nothing 'neath the moon can wake him, short of cannon cracker's roar; if you'd rouse him you must shake him till you dump him on the floor. Idle people seek their couches, seek their beds to toss and weep, for a demon on them crouches, driving from their eyes the sleep. And the weary hours they number, and they cry, in tones distraught: "For a little wad of slumber, I would give a house and lot!" When the long, long day is dying, and you watch the twinkling stars, knowing that you'll soon be lying, sleeping like a train of cars, be, then, thankful, without measure; be as thankful as you can; you have nailed as great a treasure as the gods have given man!

WALT MASON.

### KING GEORGE'S GREETINGS TO THE BRITISH COLONIES

London, May 23.—King George to-day issued the following:

"To my people beyond the seas:

"Innumerable messages from my people beyond the seas have touched my heart, and assured me that I have in full measure their sympathy in the great trial which has befallen me, and then, that my sorrow is their sorrow, and that all share a common loss. The happiness of all this people throughout his dominions was dear to the heart of my beloved father. For them he lived and worked, and as in their service he died, he cannot doubt that they will hold his name in grateful remembrance.  
"I am now called to follow in his footsteps and carry on the work which prospered in his hands. As a sailor, I have been brought in constant touch with the overseas dominions of the Crown, and

have personally realized the affectionate loyalty which holds together many lands of diverse peoples in one glorious fellowship.

"Nine years ago I traveled through the empire, accompanied by my dear wife. Had the late King lived, we should together, at his expressed wish, have visited South Africa this coming autumn to open the first parliament of the South Africa Union, the last and greatest evidence of that peace and harmony which my father loved to promote. It will be my earnest endeavor to uphold, in all their fullness the safeguards of an excellent government, and the liberties which are now enjoyed throughout my dominions, and under the good guidance of the founder of all men I will maintain upon the foundation of freedom, justice, and peace the great heritage of a united British empire."

### SNUB PARTY CAUCUS.

#### Twelve Insurgents Refuse to Sign Call for Hearing.

Twelve Republican insurgents refused to sign the call for the party caucus which is to be held to-morrow night to take action on the postal savings bank bill.  
Among those who withheld their signatures from the call was Representative Norris, the Nebraska Republican who led the fight against the Cannon organization in March.  
The indications are that unless a compromise is effected on the postal savings bank bill in caucus it will fall by the wayside.

### Free Remedy for Weak Bowels

There are two forms of bodily cleanliness, the external and the internal. The one is for your pride in yourself, the other for your life and health. Both are important, but of vastly more importance in the long run is the internal cleanliness.  
This is one point that all should watch about their body—the cleanliness of the bowels. Keep them clean and free from obstructions. To do this you must have one or two movements of the bowels each day, and do this naturally, in the process of eating and drinking, then you must obtain aid of some kind. After finding out that cathartics, salts, and such things relieve you for a day, but bind you up worse than ever the next day, then try a simpler and more natural remedy like Dr. Caldwell's Syrup Pepsin.

For the skeptical the best way to begin is to send your name and address to Dr. Caldwell for a free sample bottle. Use it as directed and if it convinces you that a brief continuance of its use will relieve you permanently—that it will train the stomach and bowel muscles to again work naturally at certain hours—then buy it of your druggist at 50 cents and if a bottle, just as so many others are doing. They began with a simple bottle, then bought a 50-cent bottle, and now, fully convinced of its merits, they buy the one-dollar family size. All the members of the family can use it, down to the very youngest.

A brief use of this grand laxative tonic will cure constipation in its worst form, indigestion, liver trouble, sick headache, sour stomach, and such ailments, and keep you in continuous good health at a very small cost. Such is the experience of many families like that of Mrs. Oscar Fleener, Unionville, Ind.; J. F. Daniel, Saron, Tex.; and hundreds of others that could be named.  
Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver, or bowels absolutely free of charge. Explain your case in a very small card. Such is the experience of many families like that of Mrs. Oscar Fleener, Unionville, Ind.; J. F. Daniel, Saron, Tex.; and hundreds of others that could be named.

### RIDES ROUGHSHOD OVER THE DISTRICT

#### House Ignores Regular Order for Local Legislation.

Utter disregard of the rights and necessities of Washington was shown by the House of Representatives yesterday. "District day" was sidetracked for the sundry civil appropriation bill, and twice refusal was made to have District legislation in order on the next legislative day.

Another opportunity for the consideration of local legislation was not afforded before the second Monday in June, and this in the face of the fact that Congress will not be in session many more weeks, and that much of importance to the people of Washington is awaiting action.

Ordinarily a bare quorum of members attend the session of the House on "District day." Yesterday when the House assembled Chairman Tawney, of the Committee on Appropriations, made a motion that the House resolve itself into Committee of the Whole for further consideration of the sundry civil bill.

Chairman Smith, of the District Committee, entered a protest, but Mr. Tawney insisted upon the programme which had been decided upon by the leaders. Mr. Smith made a point of order against the Tawney motion. It was overruled by Speaker Cannon.

#### Would Not Fix a Day.

Mr. Smith then said he would not make a point of no quorum, but Mr. Carlin, of Virginia, made the point. It then developed that 28 members were present, of whom only nineteen voted to proceed with District business. A request by Mr. Smith that the first legislative day after the passage of the sundry civil bill should be devoted to District business was refused, on objection by Representative Johnson, of Kentucky, a member of the District Committee.  
Just before adjournment Mr. Smith renewed the request, but was again refused.

Reports on several District bills, ordered favorably reported by the committee last week, were filed with the House yesterday. The reports included those on the Coudrey and Cary-Borland gas bills, the teachers pensions bill, the bill providing for the extension of Barry place, and the bill for the widening of Park road.

### OLD OFFICERS RE-ELECTED.

#### Only Typo to Fall by Wayside in Fennessy, of Los Angeles.

Special to The Washington Herald.  
Indianapolis, Ind., May 23.—Reports from 55 of the approximately 700 unions of the International Typographical Union indicated that with one exception the present officers will be re-elected. The exception is that of the defeat of T. D. Fennessy, of Los Angeles, the totals showing that Michael Powell, of Ottawa, Canada, is leading by several hundred majority in the race for trustee of the Union Printers' Home, at Colorado Springs.

The reports received at the general office in this city indicate that James M. Lynch, president, will be re-elected by a majority of about 7,000, while Secretary J. W. Hays' majority may reach 10,000. The official roster of the organization will be as follows unless some of the unions yet to report change the ballot very materially:  
President, James M. Lynch, Syracuse, N. Y.  
First Vice President, George A. Tracy, San Francisco, Cal.  
Delegates to the American Federation of Labor, Frank Morrison, Chicago; Max S. Hayes, Cleveland; Hugh Stevenson, Toronto, and T. W. McCullough, Omaha, Neb.

Trustees of the Printers' Home, Michael Powell, Ottawa, Canada; Walter H. McKee, New York, N. Y.; and Thomas McCaffery, Colorado Springs.  
Agent Printers' Home, George P. Nichols, Baltimore.  
The delegates to the American Federation of Labor will attend the meeting held at St. Louis in November.

### STORMS SWEEP FRANCE.

#### Earthquakes Aid in Creating Disaster in Some Sections.

Paris, May 23.—Hurricanes and torrential rains continue to sweep over France. This afternoon Thonon-les-Bains was visited by a cyclone, which was followed by a water spout. Three persons were killed or drowned. The municipal building was washed away, and the body of a brother of the mayor was carried miles away.

#### Reims, in the department of Marne, was visited by a hurricane. Several sections of the railroad have been washed out in the same department, were devastated. Great damage was caused in this latter section.

#### In the department of Tarn there were similar disturbances, while seismic shocks were felt at Agde, in the department of Hérault.

### THE NEW ARCADE MARKET.

#### An Opportunity to Inspect the Building To-morrow Night.

Because of the agitation for and against the new market which is proposed on the ground floor of the Arcade, Fourteenth street and Park road, and because the Arcade Company believes that the opposition to the market by a few of the residents of Columbia Heights is caused by a misapprehension of the real purposes of the company, an opportunity will be given to inspect the new market rooms to-morrow evening at 8 o'clock. The entertainment will consist of a free promenade concert, and the room will be thoroughly lighted for the occasion.

None of the business to be conducted in the market and none of the delivery wagons will be visible from the streets, and no curbside business or huckster will be permitted in the vicinity. The visitors Wednesday evening will find an immense room, constructed of concrete, finished in white, brilliantly lighted and well ventilated. Among the specially attractive features of the business place is a balcony for ladies, which has been provided as a meeting and resting place for shoppers. The delivery department is in a large rear room, and is so arranged that auto delivery wagons enter the building to deliver and receive goods.

## Reason, Sane and Clear, Unquestionably Indicates New Orleans as the Site of the World's Panama Exposition, 1915.

WINTER TEMPERATURE IN NEW ORLEANS

70  
50  
ZERO

There is no city wherein all the conditions that go to make up the ideal location for a tremendously successful World's Exposition, so well situated from a geographical standpoint, as

# NEW ORLEANS

The vital success of a World's Exposition depends primarily and almost wholly upon the volume of its attendance.

Fully 75,000,000 people of the United States could visit New Orleans at an average cost for transportation for the round trip of only \$12 each.

Nine great trunk lines radiate toward the population centers of the United States, Canada, and Mexico. Ships sail to and from every great port in the world. The magnificent Mississippi River, with its palatial steamers, offers unrivaled and low-priced transportation from thousands of interior points.

New Orleans is only four and a half days from the Panama Canal.

New Orleans is hundreds of miles nearer to the Central and South American points than any of the other seaports of first rank in the United States.

The average temperature during the winter months ranges from 50 to 70 degrees, the mild winter climate making it possible to produce exhibits, especially those of foreign countries, that in a colder climate could not be presented under natural conditions.

New Orleans, with its famous restaurants, variety of sea foods and creole dishes, including the "Bouillebaisse" made famous by Thackeray, offers gastronomic attractions unequalled by any other city in the world.

New Orleans is accustomed to the entertaining of great crowds. Its hotel facilities are at the present time equal to the accommodation of fully 100,000 visitors daily. New hotels and annexes to the present hotels will shortly double these facilities, and one of the recent distinguished visitors, a potentate of the Mystic Shrine, says: "Every man who visits New Orleans during the Exposition will come away with the idea that he has been entertained by personal friends, and that he has had one of the times of his life."

All these great advantages can be found at only one great American city,

It makes the old feel young and keeps the young strong and vigorous.
