

TROTTER AND PACER

Remarkable Epoch in Light-harness Racing.

RECORDS BROKEN BY SCORE

No Previous Years Can Show Such Peerless Trotters as Uhlman and the Harvester-Columbus Track a Marvel-Maneuver the First Local Horse to Win Grand Circuit Race.

By L. D. SALE.

The month of September, 1910, is one that will long be remembered by those who swear by the light harness horse.

Records have fallen all along the line as thick as autumn leaves. Other months and other years have brought forward a large crop of record-breaking pacers. No previous year, however, has brought forward such peerless trotters as Uhlman, 1:58 1/2, the Harvester, 2:01, and Colorado E. (3), 2:05 1/2, each a holder of the world's record. So splendid has been their deeds that Minor Heir's remarkable mile at Indianapolis, September 16, has almost been lost sight of. On that day, in a special to beat 1:39, he paced a mile in the open in 1:58 1/2; while George Gane reduced his record in a trial mile from 2:05 1/2 to 2:02 1/2.

Great as is the son of Heir at Law as a record smasher, there is a little black stallion on his trail called The Abbe, that, in another season, will make him writhe to his laurels. Up to this hour of writing he has won ten straight races in fast time and his speed limit is far from being reached. As a race horse pacer it is doubtful whether the world has seen his superior. It is rather remarkable that the sire of The Abbe, the sire of Minor Heir, and the sire of East H. Kay, another crack Grand Circuit pacer, should have all been owned by the late C. J. Hamlin, of Village Farm, East Aurora, N. Y. Chimes (3), 2:04 1/2, came to the farm as a three-year-old. He is the latter's sire, Direct Hal, 2:05 1/2, became the property of Mr. Hamlin in his five-year-old form, after retiring an unbeaten pacer. Heir at Law, the sire of Minor Heir, was bred at Village Farm. It might be a stretch of the imagination to say that Mr. Hamlin bred better than he knew.

Like the late Leland Stanford, he was a man of methods, and was businesslike to the core. Unlike the master of Palo Alto, however, he was little given to experiments. Mr. Hamlin would hardly have dared to breed either Chimes or Mambrino King to strictly thoroughbred mares, as did Senator Stanford. Heir at Law, and it is quite probable that even had he attempted the experiment that it would have resulted in disaster.

In controlling speed in his get Electioneer stands in a class by himself. Just why this is so it is hard to explain. There were, contemporaneous to Electioneer, stallions quite as well bred as he, but none of them ever showed the superlative quality of speed controlling power as did this son of Hambletonian and Green Mountain Maid.

The track at Columbus has long been known for its speed producing power. Its soil is of that peculiar elasticity that suits horses of all ages and all ages. Its futurities have long been classics, and for years past those interested in the light harness industry have flocked annually to Columbus from all parts of the union to witness the youngsters perform. This week we shall probably be treated to some remarkable miles by the two and three year olds at the trot and pace. One conspicuous owner of fast youngsters will be absent this year, Senator J. W. Bailey, of Texas, who, for the first time in many years, has nothing entered, although it is to be presumed that the youngsters on his breeding farm, near Lexington, Ky., are equal to, if not better, than those he has entered in the past for the stakes.

Thus far the eminent Texas statesman has entered into no public explanation as to why he has ceased his activities. It certainly is not because he loves the light harness horse less, but rather that he lacks a trainer that is up to his ideal as a colt handler.

It is possible here this article reaches the readers of The Washington Herald, Senator Hale will have tasted the preceding qualities of the Columbus track. At Indianapolis, September 14, he headed the summary in the \$5,000 2:20 trot, in a field that included the swift Barron Penn and My Gift, and in which, in the second heat, he reduced his Hartford record of 2:12 1/2 to 2:10 1/2, and trotting the third heat of his race in 2:12 flat. Penn took the first heat in 2:10 1/2, and the fifth heat in 2:14. My Gift took the fourth heat in 2:12 1/2. It was a hard fought race, and Kelly writes that he did not expect to win the largest share of the purse.

He expects the Senator to do better at Columbus, as he seems to be improving in every race that he is started in. He hopes to give him a record of 2:07 1/2 before the meeting at Lexington closes. As Hale never makes a mistake, when at a high rate of speed, this he should be able to do.

And, speaking of Columbus, what is the matter with our own local mare, Manuella? She seems to be all right in spite of the general belief that her owner, E. F. Hall, was suffering from an enlarged cranium when he entered the mare in such a good field of horses. Her first mile on Thursday last, in 2:07 1/2, her second in 2:04, and her third mile in 2:04 1/2, indicates that she is of higher class than she has been generally credited with. For two or three days previous to her race of Thursday she was quietly whispered in this town that she was slated for a killing, and certain persons residing at this point were urged to come on and get a share of the spoils. Very few, if any, believed that she was equal to the task.

\$40,000 PRIZES FOR HORSE SHOW

National Event in New York Bigger Than Ever.

New York, Sept. 24.—Forty thousand dollars will be distributed in prizes at the twenty-sixth annual exhibition of the National Horse Show Association at Madison Square Garden, November 14 to 19. This is the largest sum of money ever offered for a horse show in the United States, and considerably in excess to that paid out at last year's national show.

The prize list comprises 151 classes, and includes a number of new events which will add to the spectacular features of the show. The improvement in the breed of hunters is responsible for the addition of several new classes, which are certain to add to the interest of the exhibitions. At the coming show jumpers will form a conspicuous feature of an attractive programme. This will include officers' chargers and militia mounts. Twenty-five classes have been set apart for hunters and jumpers with a total amount of \$7,500 for prizes in those events. Several of these events are closed to officers' mounts, in which representatives of the English, Belgian, and French armies will compete against American army officers.

While the breeding of hunters and jumpers has been encouraged by the National Horse Show Association in offering special premiums for these classes, the interests of the spectators have been safeguarded, in that these events have always featured the most attractive features of the annual exhibition. The growing popularity of hunting as a winter sport has resulted in the substitution of classes for this breed of horse for events which failed to appeal to the public.

The success of the heavy draft-horse classes last year is expected to be repeated two months hence. Five classes have been arranged for Clydesdales and a like number for Percherons, while heavy draft horses will be sent into the ring for judging four times. Many European prize winners in these classes have been imported during the last few months, and several foreign champions have already been entered in these events.

RACES AT LAUREL.

Chairman Dallam Plans Attractive Card for Horsemen.

A large fair and race meet will be held at Laurel, Md., from October 10 to October 14. As the fair grounds are situated between the Washington and Baltimore, lovers of the sport from both cities have easy access to the grounds. The management aims to rival the fairs at Brandywine and Mineola. The running races will be for horses of \$100. There will be a county race for mares from Anne Arundel, Howard, Montgomery, and Prince George counties, and it is expected that the event will be well filled.

During the meet \$3,000 in purses will be given. The meet will start at 1 p. m. daily. Mr. Frederick Dallam, chairman of the race committee of the fair and race meet in Baltimore recently in the interest of the coming fair.

COBB PICKS ATHLETICS.

Tigers' Team Outlander Sees Mack's Team Champions.

New York, Sept. 24.—Ty Cobb, champion batter of the American League, and one of the recognized brilliants of the game, picks the Philadelphia Athletics to beat the Chicago Cubs in the coming world's champion series. "If both teams play to their usual form, and if the luck of the game is at all evenly balanced."

Writing in the New York Evening World.

Cobb explains his choice in this way: "By 'form' I mean the style of baseball play that has made each of these two teams the champion of its league. By 'luck' I mean the great uncertainty, the element of chance that makes baseball the favorite game of the people of the United States."

Writing in the New York Evening World.

"In a series of seven games for the championship of the world, the team that wins the first game has 'an ace in the hole' to use a poker term. That first game puts its winner on a pedestal to which the loser is trying to climb. It means an uphill fight for the under team. The players know that it only takes the next game to tie the percentage, but it takes two straight victories to gain the lead. The Philadelphia Athletics and the Chicago Nationals are both 'fast starters.' To judge of them by their past performances, they should both put up the clearest, hardest sort of ball in that first game, and if they do, and the goddess of fortune keeps her hands off, I think that Philadelphia will win."

Hatcheries to Play in Lynchburg.

Lynchburg, Va., Sept. 24.—Football devotees of Lynchburg will see two games during the coming season. The Thanksgiving game has not been definitely settled yet, but it is expected that V. M. I. will arrange for a game, for the team has obligated itself for the grounds for that day. The other games will be Washington and Lee vs. A. & M., of North Carolina, November 5, and V. P. I. vs. George Washington University, on November 12.

KAUFMAN RESUMES WORK FOR KUBIAK

Big Fellow Starts Training for Fight in Baltimore.

Baltimore, Sept. 24.—Al Kaufman, the heavy-weight boxer, who arrived here last night, did not lose any time to-day when it came to training for his six-round affair with Al Kubiak, scheduled for to-morrow night at Albaugh's before the Army Athletic Club. "Chaperoned" by Manager Barrett, Kaufman and "Bob" Deady went to Doyle's early this morning, and after a change of dress beat it for Druid Hill Park, where a jaunt around the big lake and several of the adjacent roads was the programme.

After the return to the gymnasium, Kaufman went through considerable indoor work, but did no boxing. "Kiki" Tutts, the clever local lad, will work out with the big fellow, Kaufman does little boxing before a bout, but on this occasion will go through a few rounds of work daily with the local boy. Kaufman, of course, will do the work mainly for the defensive training, otherwise Tutts would never think of facing the big fellow, who is said to be the one man in the country with a chance to finally wrest the heavy-weight title from Jack Johnson.

Kaufman arrived last night, and looks in good condition. He has never met Kubiak, and, while sanguine of victory, stated that he was not taking any chances, and that he would go in to win from the jump-off.

It is his first visit to the city, although he said that he remembered several lay-overs at Union Station while passing through from New York on his way to the Coast on several of his seven trips that he has made from the Atlantic to the Pacific.
