**PUT LID ON LIQUOR**

Oldest Inhabitants to Have Extra Dry Banquet.

"A LITTLE BEER" BARRED

Contribution of \$10 for "Spiritual" Comfort at Anniversary Feast, December 7, Returned to Two Members After Insertion of Prohibition Clause in Arrangements.

The lid will be clamped down tight at the annual banquet of the Association of Oldest Inhabitants, December 7.

When Secretary W. Reiss told the meeting of the association last night that \$10 had been contributed for "spiritual" comfort at the banquet, there started an argument that resulted in the insertion of the prohibition clause in the arrangements for the celebration.

The association will be forty-five years old December 7, and arrangements for a suitable celebration of the anniversary progressed smoothly last night until Secretary Reiss rose to state:

"The sum of \$10 has been contributed by two members for the purchase of a little beer for the banquet." Some of the oldest of the Oldest Inhabitants sat up straight as Mr. Weiss continued: "I think it will be perfectly all right to have a little refreshment of the nature, and I would move that the financial secretary act accordingly."

Opposed to the "stuff."

"I'm a Jonadab, and am against liquor in any form," promptly answered Financial Secretary Regan. "I won't purchase the stuff, as I'm absolutely opposed to its use."

Then the members looked from one to another. Who would buy? was the question that agitated. Decided views were offered in the preliminary discussion, which went somewhat as follows:

"I'm not a Jonadab, but I was born and reared a prohibitionist," said Smith Williams. "I won't go to any banquet where liquor is served. It is the bane of our nation."

"It would be a different matter if there were a lot of young fellows going to the banquet," said Roy Phillips. "We're rather a level-headed lot of old fellows, and I believe some of us need such an addition to our banquet menu."

"As I understand it," began another member, "this dinner—"

"Banquet, banquet," corrected several voices.

"This banquet," he resumed, "is to be given by the association. I can see no harm in members acting according to their own views in regard to what shall constitute the menu."

Halted by Judge Bundy.

Until Acting President Bundy rapped for order the arguments were presented. The uses and abuses and disuses of liquors were discussed thoroughly. Then Judge Bundy said:

"This subject of whether there shall be liquor at our dinner, while an academic treatise, is yet interesting. As there is no business before the house, the discussion is out of order."

Secretary Reiss decided that, rather than cause a split on the banquet question, the contributors of the \$10 refreshment money would withdraw their donations. The members acquiesced and the banquet will go on sans liquor, sans discussion, sans everything but harmony.

The banquet will be held at Freund's and a meeting of the association will be held previous to the repeat at Room 2, Corcoran Building, whence the members will march to dinner.

**CITIZENS INDORSE MUNICIPAL PLANT**

Brightwood Sees Chance for More Street Lights.

Further indorsement of Commissioner Judson's plan to establish a lighting plant under municipal ownership was given last night at a meeting of the Brightwood Park Citizens' Association.

Although malice still rankles in the hearts of the citizens with regard to the Engineer Commissioner's removal of certain lights from the vicinity, members of the association last night were inclined to think they might be able to get better lighting facilities if the District owned its own plant, and that the element of cost, on which the Commissioner has so heartily played, would be eliminated, if such were the case.

Railroads running into the District were censured for their discrimination against shippers of Washington, although no specific cases of discrimination were mentioned.

L. P. Shoemaker, president of the association, said he considered the Commissioners were antagonistic to the interests of the citizens of Brightwood, although later he refused to cite any specific instance.

Mr. Shoemaker joined in the movement for the indorsement of the Engineer Commissioner's scheme for a municipal lighting plant, and acquiesced in the general opinion that it would be a mighty good thing for the section, in view of the recent light-reducing action of the District's governing body.

Trolley roads running to the Brightwood section were grumbled for their inaction regarding the bettering of facilities. Car schedules according to a number of the members were not as good as they should be, and a request will be sent to the superintendent of the Washington Railway and Electric Company for better service.

**WICKERSHAM REVIEWS CASE.**

Becomes Indignant at Intention of Pittsburgh Glass Factories.

Attorney General Wickersham became indignant yesterday when his attention was directed to a dispatch from Pittsburgh to the effect that as a result of the fines recently imposed on the Imperial Glass Company, of that city, and its officers and directors by the United States court at Pittsburgh every factory in Fayette County would suspend operations, throwing between 700 and 800 men out of employment unless the men should decide to accept a reduction of 30 per cent in wages.

Mr. Wickersham issued a statement reviewing the case as it was presented in court, and made it clear that he was disappointed in the leniency of the court in imposing fines instead of jail sentences on officers of the company.

**VAUGHN CLASS ENTERTAINS.**

Twentieth Annual Concert Given at Calvary Baptist Church.

With the same success as in former years, the twentieth annual concert of the Vaughn class of the Calvary Baptist Church was given last night before an appreciative audience which crowded the large assembly hall and filled the doorways.

The singing of the Calvary Baptist Church Quartet was especially noteworthy, their ensemble work, under the direction of Prof. Arthur D. Mayor, being exceptionally balanced and artistic.

In addition to the quartet, George H. O'Connor was marked for the special appreciation of the audience.

The programme was as follows:

**JUST ESCAPES DEATH.**

Andrew McCarthy Almost Asphyxiated While Asleep.

Andrew McCarthy, single, thirty-five years old, of 1873 Rhode Island avenue northwest, narrowly escaped death from asphyxiation yesterday afternoon while asleep in his room. The doctors at the Emergency Hospital, where McCarthy was taken, think he will recover.

McCarthy is employed as a footman by Mrs. E. H. G. Slater, of 1313 Eighteenth street northwest. He lives over the garage of his employer.

Before going to sleep yesterday morning, McCarthy brought an unused gas heater to his room. He found an old rubber gas tube in the garage with which he connected the stove with the gas jet. When he lay down he failed to detect the leaking gas.

A man by the name of Pierre, employed by Mrs. Slater as a chauffeur, was on the second floor of the garage shortly after 12 o'clock, when he detected the odor of gas. He found no trouble entering McCarthy's room. McCarthy was lying across the bed unconscious.

While the lodge was in session the ladies of the candy committee, Miss Rose Collins, chairman, were busy in one of the clubrooms preparing sweetmeats that will be presented to all who attend their dance this evening in the Elks' hall.
