## FEDERALS TOOK LOOK AT REBELS, THEN SPRINTED

### Cloud of Dust All His Men Had to Shoot at, Says Villa.

### THEY MAY COME BACK

### "Attack" on Juarez Ends Abruptly. Revolutionists Await Further Rally by Huerta Forces.

Juarez, Nov. 23.—When the Federals saw Pancho Villa and his army Saturday they took flight and ran. Thus Juarez was saved from attack. Villa's 5,000 men are now stretched across the country in a line twelve miles long, from east to west, thirteen miles south of Juarez awaiting another attack and preparing to advance if the Federals fail.

This is the story of the rebel chieftain himself, as related today at his headquarters in Juarez, to which he returned this morning accompanied by a bodyguard. Villa says he returned to get food and supplies for his men and that the men have had no pay for a month and that it is necessary to keep them in the cars at night to prevent them all deserting. This may be one reason why they refused to fight when I went out with my army yesterday. It was getting toward dusk when we started the first Federal troop train advancing toward us, north of Tierra Blanca, about eight miles out of Juarez. The train at once began to back the other way. While they claim to have been ordered to do so by whom I captured tells me that they have only about 4,000.

### El Paso in No Danger.

"As soon as the Federals refused to give battle I camped my men where we were, just thirteen miles south of Juarez. We will never permit them to advance to Juarez unless they will kill Villa and El Paso will be in no danger if a battle is fought."

Villa denies the story given out in Juarez last night by his lieutenants that the rebels wrecked a troop train of the Federal advance guard, south of Juarez. He says there was fighting all of Friday night and Saturday morning between the Federals and some of his men, under Rodolfo Pizarro at Ramalaya, thirty-two miles south of Juarez, and that as the Federals advanced there was further fighting, but his main army and the Federal main body did not get within rifle shot of each other Saturday afternoon, because the Federals ran when they saw the rebels approaching.

### TROOPS DESERT HUERTA AND TURN TO WINNING REBELS

Mexico City, Nov. 23.—Aside from the impending fuel famine and the possibility of intervention as a result of the complications that may arise at Tuxpan or Tampico, the principal subject of interest in the capital at present is the Congressional program which probably will be indicated by the action taken when Congress resumes work tomorrow. There is little doubt that the houses will support Huerta in his desire of the United States by approving the oil concessions which form the most objectionable part of the administration program from the American point of view.

### SOLDIERS JOIN REBELS.

Despite the optimistic reports given out by the War Department, private views indicate that the rebels steadily are pushing closer to the capital and receiving accessions of strength in many sections.

### WARSHIP NEW HAMPSHIRE PROCEEDS TO TUXPAM; FOREIGNERS IN PERIL

Vera Cruz, Nov. 23.—The battleship New Hampshire left the harbor for Tuxpam this evening in the railway train. The situation at Tuxpam is said to be decidedly grave, as the rebels insist on holding the Pearson oil properties and have hinted at possible danger to foreigners in the district. A strong Federal force is reported to have started for Tuxpam, and a battle is looked for in the next day or two.

### WILSON AWAITS NEWS OF MEXICAN CONGRESS

President Wilson last night held a conference with Sir William Tyrrell, British secretary to Sir Edward Grey, British foreign secretary, and it is understood that the Mexican situation was the topic under discussion. Washington is speculating as to what course the administration will take in its next move and when it will be made.

### WOMAN KILLED IN AUTO CRASH.

Easton, Pa., Nov. 23.—Mrs. O. G. Schultz, wife of a contractor of Morristown, N. J., was killed this afternoon when the automobile driven by her husband, O. G. Schultz, struck the rear of a car driven by G. O. Johnston of New York. Schultz, it is alleged, was driving at a high rate of speed, and in attempting to turn out to pass Johnston's machine, which was going in the same direction, miscalculated the distance. The Schultz car, after the collision, struck across the road and overturned. Mrs. Schultz was pinned beneath the tonneau of the machine and was dead when the car was lifted.

### Boatle Floats to Scotland.

Rochester, Pa., Nov. 23.—When the Beaver River was at flood height last March, Charles Mitchell wrote a note and signed his name and address and sealing it in a bottle tossed the bottle into the flood. He has received a letter from Frank Worthing, Glasgow, Scotland, and the doctor's report on the Scotch coast two weeks ago. The bottle to reach its landing place had floated down the Ohio and Mississippi rivers to the Gulf of Mexico and through the Gulf Stream to Scotland.

## TRADES BABE FOR CHICKS.

Kansas City, Nov. 23.—How a mother traded a year-old baby girl for six hens and a rooster because she had been deserted by her husband and could not support it has come to light through the death of Mrs. Millie Karnes, after being burned at her home, No. 2313 McGee street.

### Immense Chorus Wanted.

"We will discuss principally the best methods for getting as large a chorus as possible," said Mr. Embrey last night. "We have more than 1,000 singers now, but we are not going to be satisfied with that. They have accomplished wonderful results with immense choruses at the English Crystal Palace, there sometimes being as many as 2,000 singers on the stage at a single time, and we are going to do our best to rival that."

### Striking Looking Woman.

A woman, not tall, rather delicate, but of good figure, with shapely feet and hands, quiet and fashionably dressed, her hair silvered with age, she looked rather than age, with fine gray eyes, firm, but sympathetic mouth, good teeth, a strong chin—such was the person, as Washington saw her, whose leadership of one of the most remarkable organizations of the world has made her name almost a byword in the general mind for intemperance and anarchy, especially emphasized because of her own personal stand, sometimes leaning against a table, she might have been lecturing on cookery, so equably did she speak.
