TURKEY TROT A BACK NUMBER.

Care If the Dance is Barred.

No tears are being shed by the students of the George Washington University over the fact that the official ban of the faculty against the turkey trot still remains in force.

The prescription of "rag" dancing, pronounced nearly a year ago, recently was rescinded with respect to all the dances except the trot. This means that practically all of the popular dances will be permitted at the freshman ball, which is to be held at Raucher's, Monday evening.

"All of the latest dances will be permitted at the ball," said a member of the floor committee last night. "We are not much concerned over the prescriptions of the turkey trot, as that dance has been eclipsed by some of the later and more delightful creations."
