In paying his respects to Mr. Gompers, Secretary Daniels of the Navy referred to him as an earnest and sincere leader who has done much in good cause and doing right in the light that God gave him.

POLICE FREE RIDE BILL GETS ADVERSE REPORT

Commissioners Tell Congress Appropriation Should Be Made for Car Fare.

The "free riders" bill, discussion of which only recently led to a fist fight between Attorney John H. Shields and Representative Ben Johnson, chairman of the District House Committee, was dealt a hard blow yesterday when the District Commissioners forwarded to Congress an unfavorable report on the measure. The bill seeks an amendment to the public utilities act so as to allow uniformed firemen and policemen, to ride free of charge on the street cars in the District.

The Commissioners state in their report that realizing it is a hardship on the members of the police and fire departments to pay for their transportation when engaged in official and public business, they have included in their recommendations for appropriations an item to be set aside for the reimbursement of this purchase of street car tickets for the official use of the various agents of the District government.

"BUTCH" McDEVITT IN BAD

No Chance for Placing Statue and He May Not Get Parade Permit.

"Millionaire for a day" Butch McDevitt, of Wilkesbarre, Pa., is sadly mistaken if he thinks he can get Congress to honor the official use of the various agents of the District government.

It may be a perfectly good statue that McDevitt will bring to Washington on February 2, but Congress don't know McDevitt and hasn't time to consider him or his statue seriously, according to general Congressional opinion yesterday.

If the Wilkesbarre man is lucky he can persuade some member of Congress to present a resolution suggesting that Congress honor the McDevitt statue, but that is about as far as he will get. Even the McDevitt parade down Pennsylvania avenue may pan out to be a failure, police officials intimating that a permit for such a spectacle might not be granted.

CLOCK CAUSES ARRESTS

Alarm Fails to Arouse Slumbering Plunderers of Store.

New York, Jan. 27.—The failure of an alarm clock to arouse them led to an arrest of three men. According to the police, Thomas Pennachio, Albert Rizzi, and Louis Maneri forced an entrance into the factory of Urdond Brothers and Applied Manufacturing Co., at 100th street, today, collected \$2,000 worth of loot and telephoned to a confederate to bring a wagon.

Being sleepy the men stretched themselves out in the office after setting an alarm clock. The alarm failed to arouse them, but it did arouse the night watchman, who made an investigation and reported to the police. Just as the wagon arrived, three policemen came also, and the sleepers were aroused with night sticks.

GARAGE ORDINANCE DEBATED AT LENGTH

Alexandria Council Disposes Prohibiting Establishment Within 300 Feet of Church.

OTHER BUSINESS TRANSACTED

Alexandria, Va., Jan. 27.—An ordinance prepared by the general law committee to prohibit the operation of a garage within 300 feet of any place of public worship in the city of Alexandria, caused a long debate in the city council tonight. Finally it was passed by a vote of 10 to 4 in the lower branch of the city council. The legal expenses of Councilman Marshall said the ordinance was aimed at a particular piece of property on Washington street.

Those voting for the resolution were Councilmen Burke, Leadbeater, Lambert, Smith, Graham, Monroe, Brockett, Harrison, Low, and Brumback. Those against its passage were Councilmen Spinks, Williams, Marshall, and Chauncey.

By a vote of 5 to 3 the board of aldermen sustained the vetoes of Mayor Fisher to the resolution appropriating \$500 to defray the council's legal expenses of Councilman Urban S. Lambert in his fight to retain his seat in the city council, and one appropriating \$100 for the construction of a sewer on upper King street. The lower branch of the council last night passed the measures over the mayor's veto.

A resolution of Councilman Smith that the corporation attorney prepare a deed to the street cars in the District, and examine title of the blocks property, and Cameron and West streets, which the city proposes to use in connection with a strip of ground purchased for a high school site, and appropriated \$2,500 for purchase of same, was passed. The money for this property was appropriated at a recent meeting of council, but Mr. Williams stated that the finance committee did not want to permit from the State legislature to own property for school purposes in Alexandria County.

Councilman Brumback named Mr. Williams for the lower branch of the council to go to Richmond and urge upon the legislature the passage of a special act granting the city the right to own property in Alexandria County for school purposes.

Permission was granted the light committee to enter into a contract with C. C. Bailey to purchase the entire lot on the corner of the city, for a period of three years, at \$50 a year. The present contract is held by Mr. Bailey, and expires February 1.

A resolution of Councilman Chauncey that all vehicles and other vehicles in Alexandria, or coming into the city, bear a city license tag, the same to be purchased from the city auditor at \$1 each, and making the same to be punishable by a fine of from \$1 to \$5, was referred to the general law committee.

The general law committee recommended that no action be taken on a letter of Col. E. Smith relative to the pollution of Hooff's run, they reporting the city not responsible for it. The report was adopted.

A communication from the George Washington Association, through its secretary, H. Noel Garner, asking for \$200 for the parade to be held February 23, and also asking that the city shall be made a party to the parade, was referred to the finance committee.

A recommendation of the fire committee of the city council, at the suggestion of Chief Gronau, of the fire department, that the city purchase 1,000 feet of hose, was referred to the joint committee on fire and finance.

The Mutual Ice Company asked the city for red cobble stones to be used to complete the pier at the foot of Cameron street. This was referred to the street committee.

A petition for an arc light at Queen and Fayette streets, by the Alexandria Laundry, incorporated, was referred to the committee on finance and light.

A petition for a gas light at Alfred and Montague streets was adopted. The report of the light committee in favor of keeping the light burning in front of St. Paul's P. E. Church nightly was adopted.

The aldermen decided to hold an adjourned meeting at noon Saturday for the purpose of acting on the resolution appropriating \$3,500 for the purchase of the Black property in the northwestern part of the city, inasmuch as that body could not act on the matter tonight.

Two horses attached to a hack belonging to the Mount Vernon Stables ran away from the Union railway station, shortly after 1 o'clock this afternoon and, after running half a mile, collided with a car belonging to W. A. Smith & Co., on King street, between Washington and St. Asaph streets.

All three horses were thrown to the ground and one of the animals was badly injured. Charles Drayton, colored driver of the cart, escaped injury by jumping. The driver of the hack was not on the box when the animals took flight. A large crowd was attracted by the runaway.

Miss Ethel Brill, daughter of Mrs. Louis Brill, this city, and Laurence McKellett, of Seminary Hill, were married last night at the parish of St. Mary's Catholic Church by Rev. H. J. Cutler, pastor.

ADDS \$15,000,000 TO ROADS' REVENUES

Commerce Commission Rules Allowances to Iron and Steel Concerns Must Cease.

RATE ADVANCES REFERRED TO

The Interstate Commerce Commission yesterday handed down a decision which is of great importance in connection with the pending request of the railroads for a 5 per cent increase in freight rates. The commission refers directly to the advance rate case and for the first time announces that it will not shirk the responsibility of granting a general advance provided the railroads are able to show that this is necessary in order to insure a fair return to investors.

The commission takes occasion, however, to warn the railroads that they must conserve the sources of revenue which they now have. As a step in helping them to do this, the commission holds that certain allowances, including remission of demurrage charges, division of revenues of the railroads affected. These include the railroads in the territory east of the Mississippi and north of the Ohio and Potomac rivers. The United States Steel Corporation is the hardest hit of the concerns that have been enjoying these favors from the railroads.

The case decided by the commission relates only to the iron and steel industries, but it is not finished and will include all industries having plant railways. The allowances objected to are made by the trunk lines to industries that own and operate such plant lines in connection with their industrial establishments.

The allowances are made in the form of divisions of rates, per diem rebates, and remission of demurrage and furnace allowances. Yesterday's decision is regarded as only the first of a series that will materially increase the revenues of railroads by conserving their present sources.

Objections Made to Granting D. J. O'Donnell's Application.

E. Shoemaker, representing the Anti-Saloon League. Mr. Shoemaker claimed that there already was enough saloons in the neighborhood. Objections also were entered by Rev. A. W. Spooner, in behalf of residents of southwest Washington.

O'Donnell was represented by Attorney A. H. Bell, who presented a petition signed by a number of business and real estate men asking that the application be granted. The board reserved decision.

Daily Short Story AFTER THE YEARS.

By ARTHUR WALLACE PEACH. (Copyright, 1914.)

Shafner settled himself comfortably in the one chair the room afforded and smiled across at his friend and partner. "It was the queerest sort of a hole-in-a-village, you know, and there wasn't much sign of anything going on. I thought I could rest there for a while until the smoke blew over and they began to forget about that bank deal of ours," he was explaining.

"But, coming to the point, I ran on to the strangest deal you ever heard of. I got in with the preacher there, a kind, good-natured old fellow, and got wise to the whole thing. A woman came there; she was about twenty-five, they guessed, and settled down. She was alone most of the time and no one knew anything about her. The minister got into her ways, however, and they grew to be chummy. She died five years later and left with the preacher there a kind, good-natured old fellow, and got wise to the whole thing.
