MEDIATORS MAKE PUBLIC NOTES TO GEN. CARRANZA

Directors of Peace Conference Take Unexpected Step After Waiting Nine Days in Vain for Reply to Invitation to Rebel Chief to Send Delegates to Niagara Falls.

Niagara Falls, Ontario, June 11.—After waiting nine days in vain for a reply to their invitation to Gen. Carranza in which they invited the constitutionalist chief to send delegates here to take part in the mediation conference, the three mediators today made public the text of the correspondence which had passed between them and the revolutionary leader.

Text of First Letter. "Washington, D. C., May 1.—To Gen. Venustiano Carranza, Chihuahua, Mexico, via El Paso. "We have received your courteous telegram of yesterday in which you invited us to take part in the constitutionalist cause to suspend hostilities against Gen. Huerta because the suspension would benefit the United States and public peace and the international conflict between Mexico and the United States for solution of which you accepted our good offices. It is independent of the internal strife in that country.

"We consider this unexpected declaration incompatible with the purpose which prompted our office. We believe as a matter of fact that all difficulties which have contributed to bring about the present situation of Mexico are of a political nature and that the settlement negotiations for the full success of which we have deemed the suspension of hostilities to be indispensable.

"If you should not so understand, we would be compelled to withdraw as in consequence of our invitation to appoint representatives of the constitutionalist party to attend these negotiations. We greet you with all our consideration. Signed: D. GAMA, Ambassador, Brazil. R. S. NAON, Minister, Argentina. R. SUAREZ MUJICA, Minister, Chile.

Zabaran's Reply to Note. "Confidential agency of the Constitutional Government of Mexico. "Washington, D. C., May 28. "To Your Excellencies. "The undersigned, the special representative of the First Chief of the Constitutional Government of Mexico, Venustiano Carranza, following express instructions, has the honor to communicate to your excellencies, the Ambassadors of Brazil and Chile and the Ministers of Chile and Argentina, the following:

"Prompted by a noble desire to solve, in an amicable and peaceful manner, the conflict pending between the United States and the Mexican nation, your excellencies addressed the government of Mexico, through the good offices of the First Chief of the Constitutional Government, tendering your good offices and inviting each of the interested parties to appoint representatives for the purpose of discussing the details of negotiations.

"The chief of the Constitutional Government, greatly appreciating the good wishes of the people of Mexico—your excellencies would be inconsistent with his obligations to the people of Mexico to draw as efficacious the invitation to him to appoint representatives. "The voters until many of them honestly believe that success in business is contained by rogues, and unfavorable criticism of a proposed measure by business men is regarded as an insult. "The conduct of business is vastly more ethical than the public believes it to be. Our representatives inform the public of the truth, and when that done, the business men will be able to reach an honest conclusion; but if we are to have a public opinion, we must make united effort to that end.

MEDIATORS BAR REBEL LEADER

Continued from page one. granted to financial favorites of the dictator. If the Huerta administration is legalized so far as to validate these concessions Carranza will not be able to gather among his backers the right spoils which he is understood to have promised them.

The difference of opinion on the exact method of transfer from the present to the future government became so acute that the question was postponed for consideration at a conference tomorrow. For the first time in two weeks the mediation conference included the delegates of both the United States and Mexico. Shortly after the mediators had made public the correspondence between Carranza and themselves, the American delegates hurried over the Canadian shore and joined the mediators in secret session.

Tampico, Mexico, June 11.—With 1,000,000 rounds of ammunition and two aeroplane companies to the Mexican constitutionalists, the Cuban steamship Antilla arrived from New York and began discharging her cargo today. She is anchored off the coast of Tampico. "Under these circumstances the chief of the constitutionalist government finds himself compelled to state to your excellencies with all the respect and consideration due your high offices, that he considers that said conflict should not be the subject of negotiations at the mediation conference, the peace between representatives of the first chief of the constitutionalist army.
