BERLIN CONCEALS NEWS OF BATTLE

Strictly Silent on Progress of Campaigns in Both East and West.

TELL OF NAVAL SUCCESS

German Cruiser Emden Sinks Five British Merchantmen—Submarine U-9 Not Fired Upon.

By FREDERICK WERNER. Berlin, Sept. 29.—(By Wireless via Sayville, N. Y.)—The German government maintained strict silence today on the progress of the campaigns in both the eastern and the western theaters of war.

The admiralty gave out an announcement relative to the recent sinking of the British cruiser Emden, which was destroyed by the German submarine U-9, saying:

"The U-9 was not fired upon. British torpedo boat destroyers chased the submarine all day, but without success. The U-9 was not accompanied by any other ships."

Five Merchantmen Sunk. The admiralty announced further that the German cruiser Emden has sunk five British merchant ships in Bengal Gulf.

An oil tank steamer belonging to the British government has been sunk off Madras. Press dispatches report that the Russian commander-in-chief has now received the capture of five English merchantmen, the statement says.

The German cruiser Emden has captured the British ships Tumeric, King, Ludwig, Ribera and Foye. All of them were sunk at the same time.

The British collier Bureak has been sunk by a German cruiser in the Indian Ocean. A supplemental statement by the admiralty raised the number of captured British merchantmen to six, when it was announced that the Germans already have captured the steamer Greyvale.

Allies' Fleet Bombarding Austrian Port of Cattaro. Brindisi, Italy, Sept. 29.—The Anglo-French fleet in the Adriatic has resumed its bombardment of the Austrian port of Cattaro. Two of the fortresses defending the city have been destroyed.

An Austrian man-of-war is reported to have been torpedoed by the Anglo-French fleet.

Allies Take Successful Pot Shots at Aeroplanes. London, Sept. 29.—A Reuter dispatch from Paris says that the French and English artillery has been particularly successful in the past few days in bringing down aeroplanes of the Germans.

"An eyewitness reports he saw two German aeroplanes shattered one day," says the dispatch. "One of them was struck by a sharp and was crushed like an egg shell. The aviators were killed."

FROM RACE TRACK TO JAIL. Man Who Won \$50,000 on One Race Steals to Get Bread. New York, Sept. 29.—From the tail end of a street car to \$150,000 and then to jail as a burglar via the race track is the story of Frank England, hero of Sheepshead Bay and Saratoga, who was arrested in Brooklyn today charged with robbing a house in the Flatbush section.

Save River Situation. The Austrian government has sent word to Berlin that the reports of Russian successes at Presnyal, given out in St. Petersburg, are untrue. Furthermore, the Austrian government claimed that the situation on the Save River in the southern theater of war is unchanged.

Germany Dispatches 25,000 Naval Reserves to Belgium. Rotterdam, Sept. 29.—More than 25,000 German naval reserves have been rushed into Belgium from North Sea stations. Most of them are against Antwerp.

MAJ. GEORGE H. FRENCH DIES. Civil War Veteran Twenty Years a Clerk in Navy Department. Maj. George H. French, for twenty years clerk to the auditor for the Navy Department, died at his residence, 1701 T street northwest, at midnight last night of pneumonia, after a week's illness.

Maj. French was seventy-four years old. He lost an arm in the first day's fighting at the Battle of Gettysburg. He came to this city on his discharge and had lived here for fifty years. He is survived by a daughter, Mrs. William Cunningham, of this city, and a son, George T. French, of Milwaukee.

RELIGIOUS FANATIC SLEW GIRL, IS BELIEF

Akron Police Believe Young Mission Worker Was Victim of a Jealous Foreign Lover.

Akron, Ohio, Sept. 29.—A small scrap of paper on which a few challenging words were scribbled is the only clue the police here have to the murder of Miss Winnie Becker, mission worker, who was found dying late yesterday afternoon in the rear of her brother's tea shop, at 1 Burtz street. A hatchet was buried in her reaching a hospital. The theory of the police has led them to search for a religious fanatic. They believe that the girl's work among foreign-born members of her mission classes made her the unfortunate object of a jealous lover. On the note found on the counter at the tea shop were written these words:

"Why didn't you recognize me last night?"

Six British Merchantmen Sunk in Oriental Waters

London, Sept. 29.—Serious damage has been done to British shipping in Oriental waters by the German cruiser Emden. In an official announcement issued at 4 o'clock this afternoon the admiralty admitted the capture of five English merchantmen, the statement says.

The German cruiser Emden has captured the British ships Tumeric, King, Ludwig, Ribera and Foye. All of them were sunk at the same time.

The British collier Bureak has been sunk by a German cruiser in the Indian Ocean. A supplemental statement by the admiralty raised the number of captured British merchantmen to six, when it was announced that the Germans already have captured the steamer Greyvale.

Brindisi, Italy, Sept. 29.—The Anglo-French fleet in the Adriatic has resumed its bombardment of the Austrian port of Cattaro. Two of the fortresses defending the city have been destroyed.

An Austrian man-of-war is reported to have been torpedoed by the Anglo-French fleet.

FROM RACE TRACK TO JAIL

Man Who Won \$50,000 on One Race Steals to Get Bread. New York, Sept. 29.—From the tail end of a street car to \$150,000 and then to jail as a burglar via the race track is the story of Frank England, hero of Sheepshead Bay and Saratoga, who was arrested in Brooklyn today charged with robbing a house in the Flatbush section.

Twelve years ago England was a street car conductor. With a single \$ bill he was arrested in Sheepshead Bay and "made a killing." He stayed at the track and ran his \$5 up to \$150,000 in one summer. For several years after that he was foreman among the high-flyers and spenders at Saratoga, and was credited with "cleaning up" \$30,000 on Schoolmaster in one race.

Today England was seen coming from the home of Mrs. William Howard. When a neighbor cried to him to halt, he boarded a street car. When arrested, England is said to have confessed to entering the house. He said he had to steal to get bread.

ARMIES STILL LOCKED IN DESPERATE STRUGGLE FOR INCHES ALONG THE AISNE

(CONTINUED FROM PAGE ONE.) Meuse where it passes through the region of St. Mihiel. It then traverses the heights of the Meuse to the southeast of Verdun.

From Verdun toward Rheims the line intersects the region of Varrennes, passes to the north of Soissons and then along the Roman railway, through the Rheims outposts, thence to Berry-au-Bac and to the heights of Chemins-des-Dames. Following the right bank of the Aisne, the line draws near to that river and continues to the region of Soissons and thence in the direction of the forest of l'Aigle, along the first plateau on the right bank of the Aisne.

Try to End Battle. Crossing the Oise river and between that and the River Somme, the front is defined roughly by a line drawn from Ribecourt, occupied by the French, to Lassigny, in possession of the enemy.

CATHOLICS ASK U. S. TO RIGHT MEXICAN WRONGS

Committee from Baltimore Convention Will Seek Protection for Religious Against Outrages.

Baltimore, Sept. 29.—Denouncing in strong terms the alleged outrages perpetrated on the religious in Mexico, and appealing to the government at Washington to do all it can to right the wrongs, a resolution was passed today by the convention of the American Federation of Catholic Societies in session at the Loric here.

A committee left here this afternoon to take the resolution to Washington where it will be put up to the country's leaders. President Schurman will appeal.

Twenty thousand Catholics with Cardinal Gibbons as one of the chief figures, were in line in the big parade held this afternoon.

WILL FIGHT "COLOR LINE."

Mother of Negro Girl Student at Cornell Protests "Boycott."

Ithaca, N. Y., Sept. 29.—An alleged attempt to draw the color line against her daughter, Adelaide Cook, a Cornell freshman student, has caused Mrs. Catherine Charles C. Cook, a well-to-do colored woman, of Washington, to file a protest with President Schurman and to appeal to the National Association for the Advancement of Colored People, of which Henry Villard, of New York, is president.

Mrs. Cook says five white girls, students from the South, have created a situation unpleasant for her daughter in Sage Hall, a dormitory. These girls, she says, demand that her daughter and another colored student be barred from the dormitory, but such action the authorities refused to take. Mrs. Cook now fears that an effort will be made to segregate her daughter, and she proposes to fight.

DEEP MYSTERY IN "PLOT" AGAINST U. S.

(CONTINUED FROM PAGE ONE.) and Great Britain for their alleged compact.

The most thorough possible inquiry was made in all quarters in Washington interested or actively connected with an international compact. This inquiry included in its scope the State Department and the British, Japanese and German embassies.

The most surprising fact elicited by the inquiry thus made was the fact that the British embassy had a warning from London ten days before the outbreak of the relations of Japan and Great Britain was to be put into circulation in the United States.

Denials Are Made. Sir Edward Grey sent to the British embassy a message stating that the foreign office had received information that a group of Germans in Shanghai, China, were planning to disseminate in the United States reports to the effect that Great Britain and Japan had effected an arrangement in the Far East which would be detrimental to the interests of the United States.

According to Sir Edward Grey's information, these reports were to be put before the American public by an American newspaper. The reports were of such a nature as to suggest a particularly influential relation with the State Department, and also influential relations in business circles in New York. The ambassador was instructed to co-operate with the Japanese ambassador in denying these reports originating in Shanghai should they make their appearance in the United States.

The coincidence is so strong as to lead to the conclusion that the state car put in the hands of the Sun correspondent in the "plot" to return to London and the reports which were made in which inquiry was made, with the exception of the German Embassy, it was met with denials and reasons to show why it could not possibly be true.

At the German Embassy the Sun correspondent was asked first if the Sun intended to publish the statements which had been put in its hands, and then told that nothing was known about it at that embassy.

ATTACHE DENIED PASSPORT.

British Ambassador Wont Protect Baron von Castleberg. Baron von Castleberg, in charge of the German Embassy, yesterday requested the State Department for an official document which would guarantee his safe passage across the Atlantic. The State Department referred the matter to the British Embassy, and Sir Cecil Spring-Rice, the ambassador, replied it would be impossible for him to provide such a passport, and intimated the baron would have to stay in Washington or run the risk of capture.

CARDINAL FARLEY RETURNS.

New York, Sept. 29.—Cardinal Farley, of New York, who took part in the conclave which elected Pope Benedict XV, arrived home today on the Italian liner Sardinia. There were 432 refugees on board the liner.

On the voyage over five of the Turco tourists mutilated and had to be put in hospital. One of the ship tried to land his mullinners when the ship put into Alameira, Spain, but the Spanish authorities refused to take them in charge.

Failure to Rout Allies Caused Col. Kock's Suicide

Paris, Sept. 29.—Interesting and dramatic details have reached here as to the suicide of Col. Kock, the German commander at Mauthausen. Col. Kock received repeated orders from the German general staff ordering him to cross the Vosges at all costs and carry the war into France.

After several unsuccessful attempts, Col. Kock telegraphed to Emperor William as follows:

"It is impossible to cross the Vosges. I have no more soldiers. I have no more powder. I have no more food. Then the unhappy commander retired to a private room, placed his service pistol to his head and blew out his brains."

Ninety-fourth Collegiate Year in All Branches Begins. George Washington University opens its ninety-fourth collegiate year in all of its branches today. From the present registration, indications are that the enrollment this year will even exceed that of the past year. The registration last year was 1,611.

The enrollment in the College of Veterinary Medicine will be particularly large this year because of the generous sums recently appropriated by Congress for the study of hog cholera and other animal diseases by the Bureau of Animal Industry, with the work of which the college is in close association.

Representatives May Go Home for Election. Opposition to the President's wishes in the matter of the immediate consideration of the proposed government-owned merchant marine has resulted in a suggestion of compromise from the White House, which may result in the consideration of the bill being put off either until after election or perhaps until the regular session in December.

Representatives are told that if they will not oppose the simple either after an election or in the next session in December, consideration of the Alexander bill they may detain themselves to their homes for the three weeks preceding election.
