It will attract the best horses in training in this section of the country.

Letters from thoroughbred owners continue to arrive daily requesting stabling room. Nearly all the stabling room has been taken at Bowie, and those unable to secure accommodations at the Prince George Park will be able to put up at old Benning track at Washington. A special race train will be run daily from Benning to Bowie.

Secretary Joe McLenahan writes from New Orleans that between 25 and 300 horses, which have been running there will be seen under colors at Bowie. The New Orleans meeting closes Tuesday, February 23. The majority of the New Orleans horsemen will ship to Bowie immediately after the meeting.

CORNELL-VIRGINIA GOOD Relay Between Ithacans and Charlottesville Athletes Is Closest in History of the Games.

By WILLIAM PEET. Washington and Lee University, from Lexington, Va., entered a well-trained team of track athletes and grabbed off the big prize in the seventh annual indoor meet, which was held at the George Washington Athletic Association in Convention Hall last night. From an athletic standpoint the meet was a great success, but financially it is doubtful if George Washington will make a 5-cent piece. Out of the 1,500 or more students enrolled at the downtown institution last night, only a few were seen to see the athletic carnival, which was supposed to put the Hatchettes on the map, and keep them there.

The relay race, for two miles between Washington and Lee and George Washington, was won by the local collegians. The Western High School mid-relay team won over Briarley Hall Military Academy and Central High School in a 1,200-yard race. Wingate, runner-up in the 1,200-yard race, made up a small lead and finished in front of the Briarley Hall representative, who came in second.

GILMORE FORCED MAGNATES TO AID INTERNATIONAL LEAGUE

He Has Unconsciously Made American and National Come to Assistance. SHRIEKED FOR HELP

Big Circuit Moguls Were Having Troubles of Their Own—Clubs on Market. New York, Feb. 13.—Jimmy Gilmore, proxy for the Federal League, seems to have unconsciously forced the leaders of the American and National leagues to go to the assistance of the founding International League.

The terrific losses sustained by several of the International League clubs in 1914 and the gloomy outlook for 1915 caused the International League magnates to shriek for help from the big fellows who had agreed to help them whenever help was needed.

But the International shrieked for a long time in vain. American and National League magnates were having troubles of their own. They didn't care about having anybody else's troubles, much less getting mixed up in them.

They were too busy fighting their own battles to give the little fellows a bit of help. Very soon rumors began floating around that the International League might not open in 1915. It was whispered that some of the International magnates, deserted by their big league brethren, were ready to quit the league in despair. They had lost in the 1914 battle with the Feds at a time when the Feds were comparatively weak.

But the International shrieked for a long time in vain. American and National League magnates were having troubles of their own. They didn't care about having anybody else's troubles, much less getting mixed up in them.

Let It Sink. The big league magnates paid but scant attention to the International League plight at first. That was the International League's mistake. If the International League couldn't swim it could sink. The American and National League magnates had more money than they could count.
