LEADERS ARE UNMASKED

WOULD NOT AID U. S. IN WAR

William Reichert Says Teutonic Societies Would Be "Neutral" in Clash with Germany.

By JOSEPH P. ANNIN.

The National Labor Peace Council, a part of the German-American propaganda, seeking an embargo on shipments of munitions of war to the entente allies, yesterday sought to involve the national farmers' organization, in the pro-German movement.

Through Oliver Wilson, grand master of the grange, State grange organizations and other farmers' bodies, were invited to send representatives to confer with the Labor Peace Council, "with a view to keeping this country out of war," at a meeting at the New Willard Hotel. About twenty-five, mostly from the seaboard States, attended.

As a result of the meeting the grange officers discovered the true inwardness of the "Peace Council" and balked an attempt to line them up in a political fight on President Wilson because of his attitude on American neutrality.

"Peace Council" Unmasked.

The most important result of the meeting, however, was the complete unmasking of the "Peace Council" which, according to one of its officers, is supported very largely, if not entirely, by German-American contributors from an organization whose membership, he declared, would not stand by the United States in the event of trouble with Germany.

Representative Frank A. Buchanan, one of the labor representatives in the House, is president of the "Peace Council," the suspicious nature of which The Washington Herald first called attention to on June 23. Former Representative Fowler, of Illinois, is general counsel, prominent in the organization—or the small part of it that is tangible—are Edward B. Martin and Herman Schults, of the Anti-Treaty League, which operated with David Lamar, the now indicted "Wolf of Wall Street," in his stock market raids on United States Steel.

Here is the "peace resolution" which Fowler and his followers sought to force down the throats of the farmer members of the resolution committee, and which these members refused to accept:

"Resolved, that we recommend to Congress the passage of a law authorizing the government to take over the manufacture and sale of all instruments and munitions of war, and that we further recommend the speedy passage of a law conferring on the President the right to issue an embargo upon all contraband."

In view of existing conditions, the enforcement of such a law would be an unneutral act of a decidedly unfriendly nature toward Great Britain. Financed by Germans.

William Reichert, of Chicago, a naturalized German, and vice president of the so-called Labor's Peace Council, last night admitted that the Peace Council is financed by the money of German-Americans.

"I am second vice president of the Teutonic Sons of America," he said. "I am not ready to say how much we contributed to the Labor's Peace Council, but it was a very substantial sum—a very substantial sum. Of course, we did not make it directly. The contribution was made through an organization known as 'The Friends of Peace,' of Chicago. This organization, which is affiliated with the Teutonic Sons, is a war organization, called into existence by the present situation. It is in turn affiliated with the Embargo conference, which represents 3,000 other anti-English thinkers."

"It was declared between the United States and Germany, would your friends of the Teutonic Sons enlist?" Reichert was asked.

"No, sir; we would not," was the prompt reply. "We would remain neutral, that is, unless the provocation was most clearly on the side of Germany. We do not believe in the theory of patriotism that whatever the nation does should be made right."

Farmers Are Pro-English.

Speaking at the afternoon meeting Reichert said there had been a hot session because "these farmers have strong pro-English sentiments, and they insisted upon talking about the 'atrocities' committed by the Germans."

U. S. INTERVENTION IN MEXICO IS LOOKED FOR BY CARDINAL GIBBONS

Says He Believes It Will Be Only Solution to Reign of Anarchy Existing.

Southampton, N. Y., July 31.—"Armed intervention by the United States in Mexico would be deplorable and I should be sorry to see it, but I believe that some form of intervention by this country is the only solution to the reign of anarchy that has existed there for several years."

The speaker was Cardinal Gibbons, of Baltimore, who, with the Right Rev. F. O'Connell, of Virginia, and Bishop Duffy, of Brooklyn, is spending a fortnight at the rectory of the Church of the Sacred Heart of Jesus and Mary.

"Only three ways to settle the difficulty lie open," continued the cardinal. "Armed intervention, which would be deplorable, but probably necessary; the installation of some strong man with a restoration of constitutional government, or a protectorate. We did very well with a protectorate in Cuba, and it might be repeated in Mexico, although with more difficulty."

"Your eminence, do you believe intervention by the United States would be acceptable to the Mexican people?" "No, I do not," the cardinal answered promptly. "I have talked with the Archbishop of Mexico in New Orleans and I have talked with other Mexican bishops in Chicago. They believe they can yet settle their troubles among themselves."

"In your opinion who is the man capable of taking hold of the situation and governing the Mexican people?"

"The good, capable men have left the country. Villa will not do and Carranza, by the way he is acting, is showing that he will not do. Minister de la Barra I regarded as a cultivated, capable, honest man. He might have handled the situation."

"Do you see any signs of peace in Europe?" "It is too violent to last much longer. The more violent the shock the shorter its duration. The most violent storm is of the shortest duration."

Before leaving Jersey City Mr. Rogers said they would spend their honeymoon somewhere in New York State.

The marriage was performed a scant twenty-four hours after Mrs. Colin Giddings Rogers, Rogers' second wife, obtained her final decree of divorce from him in this city. The divorce was secured following the discovery that Rogers and Mrs. Walters had been living in the Bronx with their

MERCURY CLIMBS TO 95.

In Spite of Heat, However, No Prostrations Are Reported.

With the mercury at 95 degrees, Washington sweltered again yesterday, being surpassed by only two cities in the entire country—New Orleans and Atlanta. In spite of the high temperature in this section, not a death or prostration was reported. Relief is promised today by showers.

In Baltimore, where the temperature reached 92 degrees, one death, a probably fatal stroke and a number of temporary prostrations were reported. In New York the maximum temperature yesterday was 90. Several deaths and more than a score of prostrations were reported from various hospitals.

At sunrise yesterday the mercury was at 78, but from 5 o'clock it began to climb until in mid-afternoon 95 was reached. Late last night it had dropped to 82, and a warm breeze was stirring. Washington has been one of the greatest sufferers thus far from the heat wave that is sweeping the country.

BRIDESMAID, IN 'SPAT' WITH GROOM, LEAVES HEIRESS' MARRIAGE

At \$30,000,000 Nuptials of Miss Barker, Girl Furnishes Surprise After "Slight Misunderstanding."

Harbor Springs, Mich., July 31.—With the gap in the line of her wedding left unfilled after the withdrawal of Miss Elizabeth Goodrich, the maid of honor, Miss Catherine Barker, of Harbor Point and Michigan City, daughter of the late John H. Barker and heiress to \$30,000,000, was married at 4:30 o'clock this afternoon to Howard Spaulding, Jr., of Chicago.

Before hundreds of guests assembled from all over the United States, representing hundreds of millions of dollars in wealth, and overflowing every nook and cranny of the reception hall, library, and porch of the bride's magnificent cottage on the terrace at Harbor Point, the simple but impressive ceremony which joined in marriage the 19-year-old girl, the richest young woman in America, and the youthful graduate of Yale, was performed by the Rev. John M. Bleckmann, of Mishawaka, Ind.

All day Harbor Point has been buzzing with the gossip of the break that caused Miss Elizabeth Goodrich, Catherine Barker's most intimate girl friend, to leave her wedding party on the eve of the ceremony.

What was characterized by the Goodriches as a "slight misunderstanding" between Miss Goodrich and Howard Spaulding was responsible for the absence of the maid of honor. The cause will not be told by members of either family. It is said to have been brewing for some time, however, and must have been serious, as Spaulding and Miss Goodrich have been close friends.

SHIP FLEES 'SUB;' AMERICAN DIES

Muleteer, of Boston, Killed in German Attack on Iberian.

DIED IN A SMALL BOAT

Five Members of Crew Killed by Shell Fire—Sixty-one Saved After Vessel Sank.

Special Cable to The Washington Herald.

London, July 31.—The Leyland liner Iberian, flying the British flag, bound from Liverpool for Boston with a cargo of general merchandise, has been sunk off the south coast of Ireland by a German submarine. Five members of her crew were killed by shell fire as she attempted to escape after being halted by the submarine. Two others, one an American, Mark Wiley, of Boston, died in a small boat from superficial wounds and shock. The rest, sixty-one in all, were landed at Queenstown.

According to official advices, the Iberian was fired upon only after she tried to run away from the undersea boat. The men aboard were given ample time to take to the boats. Then the submarine fired a torpedo, and the liner sank almost immediately. She was a vessel of 5,223 tons and had been employed in carrying horses and mules from American ports to England.

Shelled in Flight.

The first news of the sinking of the Iberian was received here in a Lloyds dispatch, which stated that the survivors were being brought into Queenstown by a trawler, which had picked them up after the submarine disappeared. Later they landed at the Irish port and Consul Frost took charge of the surviving Americans among the crew, of whom there were twenty-six.

Statements by the men and by the ship surgeon, Dr. Burns, were to the effect that the commander of the submarine had ordered the Iberian to halt and had opened fire from deck guns only after the liner's skipper had ordered full speed ahead and had begun to trace a zig-zag course in an effort to shake his ship loose from the trailing submarine.

Shells bursting over the deck killed five men of the crew, many of whom had rushed to the rail when the submarine appeared. Seeing that flight was hopeless, the captain finally ordered the Iberian brought to, and the commander of the submarine then ordered the men to take to the boats.

Wiley, the American, who was serving aboard in the capacity of a muleteer, had suffered a flesh wound during the firing and this, added to the shock and exposure in the small boat, caused his death.

RIOTERS IN GERMANY HOOT AT AMERICANS; OLD GLORY IS BARRED

Serious Demonstration Against U. S. Citizens Staged Before Embassy in Berlin.

Zurich, July 31.—Serious anti-American demonstrations occurred in Berlin on last Tuesday and Wednesday, according to American travelers who have just arrived here.

The principal demonstration was before the American Embassy, where a large crowd of students gathered and hooted and yelled until police were summoned to disperse them.

Americans in Berlin have been requested by the police to refrain from wearing the Stars and Stripes as an emblem because the sight of these often irritate the Germans and sometimes lead to insults and molestations to the wearers.

GERMANY SEEKS HAGUE PARLEY ON LUSITANIA

Berlin Foreign Office Has Approached U. S. on Arbitration, Dutch Newspapers Say.

Amsterdam, July 31.—Dutch newspapers learned today from their correspondents in Berlin that the German government wishes to submit to The Hague tribunal the question of compensation for American lives lost upon the Lusitania.

It is reported on excellent authority that the German foreign office has already sounded the United States government upon the question, and it is believed that the numerous conferences in Berlin this week between American Ambassador Gerard and officials of the German government have something to do with the matter. In one day Mr. Gerard conferred with both Dr. von Jagow, the German foreign minister, and Dr. von Bethmann-Hollweg, the German chancellor, several times.

An impression prevails in official circles in Berlin that arbitration is the only solution of the troubles between the two countries without arousing more hostile feeling.
