Cleveland Battler Is Beaten and Suspended

Johnny Kilbane, of the Forest City, Feather-weight Champion of the World, Takes Trimming from Mitchell and Has Hard Setback—Other Fight Comment.

Chalk up a world's record for Johnny Kilbane, feather-weight ruler of the universe. To the Cleveland star has come the unique distinction of being the only champion in the history of legalized boxing who received a licking in a right and then was suspended. This signal honor was conferred on Kilbane through an edict handed down this week by the Wisconsin boxing commission. The ban, while temporary, will be effective until the honorable commission has had further opportunity to investigate Kilbane's case. The point at issue concerns Kilbane's tactics in a ten-round contest with Richie Mitchell, Wisconsin's lightweight champion, staged at the present time. The commission is of the opinion that Kilbane and Mitchell stalled in the early rounds of that encounter and this belief is the basis for the present action against Kilbane. When the case was called for hearing Mitchell appeared but Kilbane was unable to be present. Mitchell was let off with a reprimand, but action was deferred on Kilbane. Undoubtedly the commission was influenced in withholding suspension in Mitchell's case because of the fact that the fighter had clearly given Kilbane a trouncing. In the tenth round he knocked the champion down and then followed him up by battering him all around the ring, cutting the title holder's face until his features were spattered with the crimson fluid. Kilbane was weary and in distress at the time. Even Kilbane was forced to admit that he received the worst of the milling. The commission does not put out the board in clear air, but the members do maintain that the boxers could have put more aggressive action into their work at the outset of the contest. In striking contrast to the decision of the commission in the present instance is the decision of the board in the case of Britton two years ago. McFarland and Jack Britton two years ago. McFarland was that fight on points, yet he drew a year's suspension because he did not put out the board in clear air, but the members do maintain that the boxers could have put more aggressive action into their work at the outset of the contest.

General Lament Concerning Activity of Enemies While Sport Is at Standstill.

New York, Oct. 17.—Commenting on the activities of their German and Austrian enemies in their continuance of racing, despite the stress which must be occasioned by the war, and bemoaning the fact that the racing season is at a standstill, the writer states:—"It is obvious that the lighter horse breeding industry is being slowly but surely suppressed, and while this will undoubtedly receive the wholehearted blessing of the faddist element it is not to the members of that unhappy section of the community that sensible people look for enlightenment in any direction."
