**A CHRISTMAS GIFT OF DISCRIMINATION**

Seldom indeed it is that a second sale of an article almost identical with the first can be held successfully—but this is the exception. The values are so unusually great, the cut glass so remarkably appropriate just at this time for gifts that here is a second sale on the heels of the first a few weeks ago—and it's a foregone conclusion it will be even a greater success in volume of sales and pleased patrons than the first.

The first coming of the war cloud cast a shadow, most depressing of a lifetime. The demand for luxuries such as jewelry and cut glass fell to almost nothing. This greatest of all great sales, was born of this war cloud depression. The Palais Royal proprietor saw the sunshine behind that cloud and anticipated the clear, blue sky of now.

The leading manufacturers of this country---and the world's best cut glass is made in America---were approached by this store and a contract concluded to keep them busy when they needed orders badly. Thus we have today many thousands of pieces of best cut glass---perfect---and the highest grade, guaranteed perfect cut and absolutely flawless, at far less than the prices of ordinary inferior "seconds." On Fourth Floor---6 Elevators.
