

# KING HARD CRAB MAKES HIS DEBUT

### Washington Merchants Expect Supply Will Be Sufficient for Needs of Epicureans.

### QUOTED AT \$0.40 DOZEN

### Shellfish Now on Sale Shipped from Hampton Roads—Other Market Prices Vary Little.

Old King Hard Crab made his appearance on the local market this week, selling at 40 cents a dozen or \$4.50 a barrel.

Fish merchants stated that while crabs are not as plentiful as they will be about the middle of June, the supply at present is sufficient to meet the demand. The crabs now on the market are coming from the waters in the vicinity of Annapolis Roads. Fish merchants stated last night that crabs are hardly beginning in the Potomac before the middle of July.

Although dealers in fish and game have been uneasy for several years because of the apparent steady decline of the crab family, local merchants said last night it was impossible to tell yet whether crabs will be scarce this summer.

Quotations on other food stuffs were practically unchanged during the week. They were given as follows:

## Breath-Stealing High Jump Brings Horse Show to End

### Confidence and Skyscraper Hurdle Bar at Seven Feet and Divide Purse—Program of Thrills Winds Up Most Successful Exhibition Ever Staged Here.

With a breath-stealing high-jump contest between the present record holder and a strong contender, a day of championship contests yesterday wound up the most successful horse show Washington has ever known and one which, with respect of many of the classes represented, offered more than did the big Madison Square Garden show of last winter.

The largest and most interesting attendance of the show turned out to watch the closing and stayed until the bugler blew "Taps" at 6:30 o'clock. The first part of the program included a number of local hunting classes, and the championship contests wound up the bill. The high jump contest between Confidence, holder of the present record of eight feet, and Skyscraper ended in a draw, with the bars at seven feet, Donnelly riding Norton's Confidence, and Monahan upon Mrs. G. H. Chipchase's Skyscraper, determining to split the purse without trying for a higher mark. The jumping started at five feet, and the bar was raised six inches at a time. Confidence started out clearing the bar like a deer at each attempt, while Skyscraper jumped with close margins.

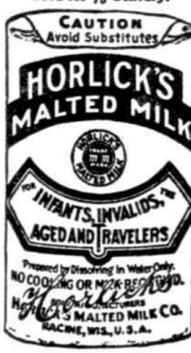

Confidence cleared the bar without a knock until the seven-foot level was reached, when he slowed down perceptibly and barely managed to get over without knocking the top bar down on his third attempt. Skyscraper, on the other hand, worked himself over the seven-foot bar on the first try, and there the jumping stopped.

The single harness horse championship class was perhaps the closest contest of the entire show. Judge William H. Moore entered his beautiful bay Bountiful, which Miss Constance Vanclain, whose entries have been pushing the Moore stables hard, entered her Lady Dilham and Princess Sheila. Reginald Vanderbilt and George B. Hulme were doing the judging, and Mr. Vanderbilt himself drove each of the entries around the ring. He and Mr. Hulme found themselves unable to reach an agreement between Bountiful and Lady Dilham, and the services of Howard G. Davidson were called in, with the result that Bountiful got the blue.

Oracle Defeats Katydid. In the light-weight hunters' championship class, Arthur White's Oracle won from Miss Buchanan's Katydid on conformation. Miss Buchanan's famous hunter offering a perfect performance over the jumps.

## BAD HOUSING CITED AS AID TO WHITE PLAGUE

### Lawrence Veiller Tells Tuberculosis Congress There Was Less Disease Prior to Erection of Dwellings.

The health and prowess of the American Indian before he was placed in houses on reservations was cited to show that bad housing conditions is one of the chief causes of tuberculosis by Lawrence Veiller, secretary of the National Housing Association, addressing the National Association for the Study and Prevention of Tuberculosis, at the Willard last night. "To my mind," said Mr. Veiller, "bad housing conditions are the first thing to attack in getting at the causes of tuberculosis. Bad housing, I believe, is worse than bad working conditions."

Prof. Livingston Farrand, president of the University of Colorado, presided. Following Mr. Veiller's address the relation of housing to tuberculosis was discussed by the 200 delegates attending the convention.

Papers on practically every phase of the tuberculosis problem will be read by experts today. Tonight the delegates will close the convention with a business session, at which resolutions urging new steps in the fight against the great white plague probably will be adopted.

At the afternoon session yesterday Representative William Kent, of California, urged the payment of a subsidy by the Federal government to States caring for nonresident indigent tubercular patients.

## If it Catches You There "ANURIC"

### Will Quickly Stop it!

Simply to realize the importance of the oncoming kidney trouble, by its first symptoms, backache or throbs through the kidney region, is money in one's pocket as well as years of sickness forestalled.

No organ of the body is more easily deranged than the kidneys. Day in and day out their action is constant, in separating poisonous matter from the blood. Most cases of kidney trouble may easily be overcome by merely taking hot water and a little "Anuric" before meals. Citizens daily voice their praise of the merits of "Anuric," the recent discovery of Doctor Pierce, of "Favorite Prescription" and "Golden Medical Discovery" fame.

For instance, here is a letter that of Mr. WALTER CANTLOR, who says: "I suffered for four years with pain in my back. I tried everything there was but they all failed to help me. I even went to a doctor and he could not cure my backache—said it was from the kidneys. A friend of mine advised me to try a box of Dr. Pierce's Anuric Tablets, and so I did; I used two boxes and the pains were gone. I am not telling any lie—the pain in my back was something terrible. As soon as I would bend over to get something from the floor I thought my whole back would break."

"I would advise sufferers to try 'Anuric Tablets' and they will find results; they need not take my word for it."

NOTE.—Experiments at Dr. Pierce's Hospital for several years proved that "Anuric" is many times more potent than bicarb. in removing uric acid from the system.

Just ask for "Anuric" at druggists, or send Dr. Pierce 10c. for a trial package.
