NORTH CAROLINA PROSTRATED BY RAGING FLOODS

Asheville Without Lights or Car Service—Damage May Total \$8,000,000.

Special to The Washington Herald.
Asheville, N. C., July 17.—Asheville is almost completely isolated tonight. Practically all towns to the east, west and south of here are completely cut off from communication. The town of Marshall, twenty miles west of here, has been completely destroyed.

From every point with which communication can be had reports are that rivers are rapidly rising. The damage to crops and property is estimated between \$6,000,000 and \$8,000,000.

Asheville itself is without electric lights or gas, and the street cars have not run since the storm broke.

Reports from Clifton, Tenn., say fully 1,000,000 acres of corn and peanuts in the Tennessee River valley are inundated.

In North Carolina alone more than 7,000 men, women and children have been made homeless. No estimates of the dead can be made with any degree of accuracy.

BUYS BACK OWN DOG.

"Don't Tell I Stole It," Requests Thief.

Baltimore, July 17.—"I'll sell you your dog for \$1, but don't tell anyone that I stole it from you."

Mrs. Esther R. Statter, 1111 Watson street, paid George Ball what he demanded for her pet poodle, which she values at \$25, but did not agree to the latter part of the deal.

In Eastern Police Court this morning on her complaint a warrant was issued for Ball and Mary West, both colored, 14 East street, the latter charged with being an accomplice in the larceny.

LIUT. WINANT DEAD.

Inventor of Ammunition Conveyor Dies in New York.

New York, July 17.—First Lieut. William B. Winant, U. S. N., retired, inventor of the Winant ammunition conveyor used on the battleships of the United States navy, is dead at his home in Brooklyn in his 50th year. Lieut. Winant, who served for twenty-five years in the navy, designed the steamer Roosevelt, used by Rear Admiral Peary when he discovered the North Pole. Lieut. Winant is survived by his widow, a son and a daughter.

"SUB" SAILORS AT ORDWAY.

Three of Deutschland's Crew In Aspect Militia Camp.

Three of the sailors of the big submarine Deutschland inspected Camp Ordway yesterday. They were surrounded by the District soldiers and seemed to enjoy answering questions.

"Sure, they took me from the trenches, and, sir, in sixteen days I am in America," was the way one of them described the trip across the Atlantic.

ALASKAN JAILS FILLED.

Outbreak of Crime and Insanity at Bristol Bay.

Seward, Alaska, July 17.—An outbreak of crime and insanity in the Bristol bay settlements has filled all jails here, necessitating a visit from the coast guard cutter McCulloch to take out a number of prisoners.

PREDICTS CHRIST'S ADVENT.

Evangelist Says Event Due in Next Generation.

Baltimore, Md., July 7.—"The present generation is the last generation that will live on the earth before Christ comes the second time."

So declared Evangelist Booth last night at the tent pavilion, Monument and Potomac streets.

90-POUND AUTHORESS WOULD GO WITH "SUB"

Special to The Washington Herald.
Baltimore, July 17.—Scarcely more than four feet in height, or ninety pounds in weight, Miss Claire Harrison, a fragile little woman, is attempting to secure passage on the German submarine Deutschland, although she scarcely looks as though she could undertake a man's work. She hails from New York and is a magazine writer.

"When they declined to let me go as a correspondent on the Deutschland," she continued, "I volunteered to go as one of the crew. I said I would scrub decks for them, take the place of stewardess; in short, do anything that might be asked of me. Awful? Well, yes, I suppose it would be. But the achievement would be colossal. My success would be made, and I would be able to offer to the reading public a story a little different from anything else they might imagine."

NATIONAL GUARDSMEN ASK FOR COLD CREAM

Special to The Washington Herald.
Indianapolis, Ind., July 17.—A group of hard-headed business men who were considering what to buy with a fund raised for the members of the Indiana National Guard in Texas were surprised when a letter from a sergeant of the Second Infantry was handed them, advising the business men that the best thing they could buy for the boys would be cold cream.

"You ought to see my nose," he wrote. "You'd think I was a toper, it's so darned red and blistered. Bet your life you couldn't spend money better than to buy the boys some cold cream."

BAKER APPOINTMENT OPPOSED BY LEAGUE

Strong protest was made last night at an executive session of the board of the Anti-Saloon League held in the Y. M. C. A. Building against the reappointment and confirmation of Henry S. Baker as a member of the Excise Board.

A special committee, the personnel of which was not made public, was appointed to investigate thoroughly the political record of Andrew J. ("Cy") Cummings, of Chevy Chase, Md., who has been nominated by the President to succeed Judge Robert G. Smith, who was renominated by the President to succeed himself, but who the Senate refused to confirm.

PORTO RICO CLOSED TO MR. CASTRO, TOO

Cipriano Castro, former president of Venezuela, not only will be debarred from landing at New York, but he will be refused entrance to Porto Rico, officials of the Immigration Bureau said today.

Chiefs of the Immigration Bureau said today that Castro would not be admitted if he attempts to go to Porto Rico from the United States, as the United States immigration laws operate in Porto Rico as well as here.

"COMFORT BAGS" SENT TO MEN ON BORDER

Special to The Washington Herald.
Baltimore, July 17.—"Mere man, war or no war, is rapidly threatening to degenerate into a pampered, petted, over-indulged creature of selfish tastes and careless habits.

And now as if his pet inclinations had not been deferred to enough, indefatigable woman is actually planning to send him "comfort bags." Imagine it! Picture it if you can! The arrival at the Mexican frontier of some hundred odd dainty hand-embroidered silk bags, delicately emitting the fragrance of sachet!

PASTOR FROM PULPIT DENIES GRAVE CHARGE

Special to The Washington Herald.
Harrisburg, Pa., July 16.—Rev. J. R. Rosenberger, pastor of a Penbrook church, who was arrested last night in a movie theater on a charge of insulting a woman sitting in front of him, occupied his pulpit today, informing his congregation that he was innocent.

He asked for the prayers of his people and announced that he would fight the charge.

Villa Sweeping Away All Carranza Power

(International News Service.)
El Paso, July 17.—"Pancho" Villa is declared by United States military authorities to be rapidly and effectively sweeping all evidences of Carranza control from north central Mexico.

The Carranza commanders have become demoralized and are experiencing difficulty keeping any of the units of the army together.

The effect has been to create almost overnight at least two new parties. One of these suggests a coalition between the so-called Cientificos and Villistas; they propose to name Francisco de La Bara provisional president.

The members of another faction call themselves "Legalistas."

CREW RUSHES BACK TO "SUB"

Deutschland's Men Hurriedly Ordered to Baltimore. May Be Leaving.

Unexpected orders for the engineering force of the German submarine Deutschland to report at once were received in Washington last night and gave rise to the belief that the submersible will depart shortly on her return voyage.

The sailors were enjoying a day of Capital sight-seeing and were scheduled to wind up their entertainment with a reception at the German Sangerbund, when the orders were received to return at once. They immediately boarded autos for Baltimore.

Gus Buckholz, who was host of the party on the tour of the Capital, yesterday said that he knew nothing about the cause for the sudden departure.

It is believed that the Deutschland will slip quietly out of her landing and submerge before she reaches the high seas in order to avoid enemy ships that are said to be waiting her departure just outside the three-mile limit.

"Don't worry. They won't catch us," was the parting salute of the crew as they left the Occidental Hotel.

SHARKS FIGHT CREW OF SHIP

Survivors of Collier, in Open Boats, See Man-eaters Take Steward.

(By International News Service.)
Philadelphia, July 17.—Fourteen survivors of the wrecked coal steamer *Rhinos*, who saw their captain and ten members of the crew lost in a sea alive with sharks, after their ship was battered to pieces in a hurricane, fifty miles off the Bahama Islands, last Wednesday, reached this city today on the United Fruit Company's steamship *Jose*.

The men had been in lifeboats twenty hours without food or water, when they were picked up forty miles from the scene of the disaster. The *Jose* found the men stark naked in their boats. Thousands of sharks trailed the battered lifeboats, and the men were compelled to use the oars to keep the sharks off. The sharks got one member of the crew.

According to survivors, they saw the steward of the ship snatched under by a shark when he fell into the water when the lifeboats were being put over in a terrific sea.

McADOO TO QUIT?

Report Credits Secretary with Seeking New Place.

Official circles were interested in a report here last night that Secretary of Treasury McAdoo was to resign from the Cabinet to accept an appointment as Governor of the Federal Reserve Board, succeeding Charles H. Hamlin. Secretary McAdoo could not be reached last night. Gov. Hamlin was out of the city.

The term of Governor Hamlin expires August 1. His successor will be given a term of ten years. Members of the Federal Reserve Board receive \$2,000 a year.

CASEMENT APPEAL ARGUED.

Court of Criminal Appeal Hears Plea for Life.

London, July 17.—The appeal of Sir Roger Casement from his conviction of treason carrying with it the death sentence was argued today in the court of criminal appeal before Justices Darling, Bray, Scrutton, Lawrence, and Atkin. Alexander Sullivan, of Dublin, counsel for Casement, in his argument briefly outlined the grounds on which the appeal was taken.

ANTI-AERO GUNS BEING SUPPLIED TO U. S. NAVY

Washington Factory Ready to Equip Whole Fleet, Says Department.

Battleships of the Atlantic Fleet are being equipped with 3-inch rapid-fire anti-aircraft guns, recently completed at the gun factory of the Washington Navy Yard. The guns have already been mounted on the battleships *Pennsylvania* and *Nevada*. The design of the new weapon was drawn up by the Bureau of Ordnance of the Navy Department.

Forty of the guns are already manufactured and tested. The importance of this, according to the Navy Department, lies in the fact that the United States navy is now in position to provide anti-aircraft guns by the thousands and at short notice in case of war or emergency. The guns can be mounted in skyscrapers or church towers as effectively here as they have been used on high buildings abroad.

Until recently the United States had no defense against aeroplanes. Rear Admiral Straus, chief of the Bureau of Ordnance, realized that the fleet would be at a distinct disadvantage against an enemy fleet which carried aeroplanes for the reason that these craft could operate un molested over our naval forces. It is now a simple matter, it is explained, for warships to carry aircraft aboard ship and launch them from the decks.

SEE HITCH IN PEACE PLANS

State Department Pauses in Movement Toward Mexican Settlement.

The belief that a hitch has developed in negotiations between the United States and Mexico for settlement of the border troubles grew yesterday when no steps were taken to carry out the plan for the appointment of a commission.

The only activity on the subject manifested by the State Department was in denying a statement given out in Mexico City which said the two governments had reached an agreement, and that an announcement would be made yesterday by the United States government. The only announcement that the State Department made was that "negotiations are progressing favorably."

Carranza's permission for Brig. Gen. Pershing to use the Mexican railway from the border to Colonia Dublan has completely eliminated the problem of communication and supplies for the American forces.

ORDWAY SEES FIRST BLOOD

Men and Horses Powder-burned Through Mishap at Drill.

Black powder smoke, powder burned men, bloody horses, and artillerymen prostrate after being dragged, gave the drill field at Camp Ordway a warlike look yesterday afternoon during the athletic meet. The scene was the finish of a section race between two three-inch guns companies of Batteries A and B District Militia.

Two galling gun sections raced down the field. Suddenly the gun of Battery A broke loose from its carriage sending three artillerymen head over heels in air. Battery B continued halted, wheeled around, unlimbered and loaded the rifle with the black powder blank, which when exploded would win the race. The badly frightened team of Battery A, without the gun, had come to within 20 yards in front of the muzzle of the loaded gun.

"Don't fire," yelled someone. The gun pointer fired the cartridge by mistake, and the full force of the exploding powder burned the men, scratched and plodded the horses.

The horse that Sergeant Willis Bryant was riding bolted, threw him to the ground and dragged him about 20 yards. At the post hospital, it was found he was badly bruised and suffered a badly cut knee.

More Russians in France.

Paris, July 17.—Another contingent of Russian soldiers landed at Brest today to re-enforce the allied army on the western front.

Parker's Orphan Moose Bid for "Dry" Support

(By International News Service.)
St. Paul, July 17.—A coalition between the prohibitionists now gathering here in national convention, and Col. John M. Parker's orphaned Progressives, was considered a strong probability here tonight.

So strong was it that it temporarily overshadowed interest in the various personal candidates.

In a letter today to Virgil G. Hinshaw, chairman of the prohibition national committee, Col. Parker made what is construed by prohibition leaders here to be an out-and-out bid for the "dry" support. And he found the prohibitionists in a receptive mood.

SEARCH WILDS FOR GILLILAND

Former District Man Possibly Dead in Forests of Alaska.

Additional searching parties have been ordered to join in the hunt for Ralph Gilliland, former Washington high school student, who is reported lost and possibly dead, in the wilds of Alaska. Gilliland left Fairbanks on July 8, for a trip down the Tanana River, on business for the Department of the Interior, with which he was connected as a timber cruiser.

Commissioner Talman, of the Land Office, has informed Mrs. Robert Simpson, of North Chevy Chase, a sister of the missing man, that word is expected from the searching parties some time this week. Gilliland's boat was found 30 miles below Fairbanks, and foul play is feared.

He was an expert woodsman, a fine swimmer and athlete and for two years, he was a student at the Business High School here. Gilliland is well-known in Washington, and is a nephew of Mrs. A. R. Wingate, of Garfield street.

STORK WORKS OVERTIME; 19 BABIES IN TEN YEARS

Special to The Washington Herald.
Corning, Ark., July 17.—Frank Scott and wife, of Kensett, have been married ten years. Nineteen boys have been born to them, all living with the exception of six, who died at birth. Of the thirteen living there are three sets of triplets and two sets of twins.

The parents have been partial to the letter "A" in naming them. Ashbell, Archer, and Austin are 4-2-3 years old; Arthur and Arnold, 3-2; Alfred, Albin and Adolph, 2 months, and Abel and Abner, 6 months.

BABY PLAGUE KILLS BIG GRIDIRON STAR

Special to The Washington Herald.
Bridgeport, Conn., July 17.—The plague that usually claims weak babies killed husky Frank McCormick in 1906 a center on Villa Nova football team and picked on the All-American team that season. Doctors today diagnosed his case as infantile paralysis. He was 36 years old.

SCHOOL OF MAN-EATERS DRIVES OFF FISHERMAN

Special to The Washington Herald.
Tampa, Fla., July 17.—Because immense schools of sharks made fishing impossible, the schooner W. D. ... of the Tampa fishing fleet, has ...

To Send Captain's Body North.

Douglas, Ariz., July 17.—The body of Capt. Christian Brand, Twelfth United States Cavalry, who committed suicide by shooting at his post at
