FIND BASIS FOR MEXICAN PEACE

State Department and Carranza Representatives Agree on Commission Plan.

An agreement was reported yesterday between Mexico and the United States for settlement of the Mexican border troubles. Carranza's proposition has been accepted, with some minor changes. Negotiations as to these changes prevented a formal announcement of the agreement today, but it is believed the changes will be acceptable to Carranza. It was announced at the State Department late yesterday afternoon that a statement covering the agreement would be issued today.

The agreement as it now stands, according to the best information available, provides:

First, that this government accepts the general plan of a commission to deal with the subject.

Second, that this government agrees to a long discussion of the whole Mexican question by the Cabinet and after two conferences at the State Department at which Eliseo Arredondo was present.

Administration officials without exception regard the commission and its work as a virtually an accomplished fact. Some of them, including Cabinet officers, however, say that the result was obtained only by mutual concessions.

This enlargement of the subjects to be discussed by the Mexico-American commission was insisted upon by the United States. These are the "minor changes" agreed upon which are now awaiting Carranza's approval.

TROOP A ADOPTS NOVEL WAY TO WIN RECRUITS

Window of F Street Store Is Used for Posting Daily Bulletins of Activities.

F street is the field that Troop A, District militia, is working in its recruiting campaign. In the window of one of the stores on the fashion display street of Washington is a bulletin, which is posted daily, telling of troop activities. Yesterday's message told of the scores made on the rifle range.

When the troop gets to Bisbee it intends sending a fifty-word night letter each night to be posted in the window. Supply Sgt. Ernest Coolidge is promoter of the scheme.

The A. C. Smith prize of \$10 in gold for the highest score made on the range will be awarded to Corporal Harry H. Semmes tonight at 7:30 o'clock. Maj. J. C. Castner, U. S. A., adjutant general of the District of Columbia, will speak, and the medal will be presented by the donor, A. C. Smith, former captain of the troop.

Women Eager to Try Back to Nature Life

MISS EMILY HAMMIS & JOE KNOWLES

New York, Aug. 8.—Forty women have asked to join Joe Knowles, the American Robinian Crusoe, who will soon start again for the wilderness with no food, no tools and no such foolishness as clothes. He believes men should get back to the primitive, but he hadn't counted on the other sex.

However, he has encountered a group of women who are anxious to prove that they also possess the cave-man spirit.

Miss Emily Hammis, prominent in Brooklyn's young society set, is particularly determined to join Knowles in his back-to-nature expedition; and it looks as if Knowles will have plenty of company.

BIG TICKET SALE FOR CONGRESSIONAL GAME

Proceeds Will Be Given to Associated Charities for Outing Fund.

Tickets for the Congressional baseball game, to be played between the Republicans and Democrats next Thursday, are going fast. Every individual points to a large attendance. Many notables of both political and social life will grace the boxes and the outing fund of the Associated Charities, to which the proceeds of the game will be applied, is certain to be materially increased.

Regardless of the hot weather, both teams have been spending much time in training, under the leadership of Representatives Clarence B. Miller and Pat Harrison.

Uniforms for the game have been loaned by the Board of Trade and the Chamber of Commerce.

WEATHER CONDITIONS.

District of Columbia—Probably showers Wednesday and Thursday, not much change in temperature; light northerly wind, becoming variable.

Virginia—Generally fair Wednesday; except showers in north portion. Thursday fair; moderate west to southwest winds.

Maryland—Scattered showers and thunderstorms Wednesday. Thursday probably fair; not much change in temperature; light northerly wind, becoming variable.

An area of low pressure that developed over New England in the last twenty-four hours has caused an energetic indraft of southerly winds over that section and portions of the Middle Atlantic states, thus greatly intensifying the heat conditions over those districts. Happily, local thunderstorms during Tuesday lowered the temperature somewhat, even if but temporarily. Thunderstorms also occurred over a narrow strip stretching from Missouri eastward to the Atlantic, also moderating the temperature in that region.

The weather will be showery in the Middle Atlantic States, with fairly high temperatures. Fair and somewhat warmer weather is probable toward the end of the week.

The winds along the Middle Atlantic coast will be moderate west to northwest and occasional thunderstorms.

THIRD TO LEAVE BY AUGUST 20

Mustering Officer Sets Probable Date of D. C. Infantry's Departure.

"I hope to send the Third Infantry to Warren by August 20, possibly sooner. They need fifty more men to fill them to minimum strength. Recruiting slow. Will wire again in a few days."

This is the telegram sent last night by Capt. Horace Hobbs, U. S. A., mustering officer at Camp Ordway, to Capt. C. B. Butler of the Twenty-second, regular, Infantry, which is stationed at Warren, Ariz., awaiting the arrival of the District Militia Infantry.

Capt. Butler had asked Capt. Hobbs to advise him how soon the Third Infantry would arrive on the border, as the Twenty-second was in "pup" tents and stationed at Warren temporarily until the District troops arrive. The regulars are anxious to know how soon the militiamen are coming, as they wish either to build a permanent camp at Warren, or go back to Douglas, where their large tents now are.

Only lack of recruits holds the Third Infantry at Camp Ordway, said Col. Glendie B. Young yesterday. The organization is practically fully equipped. When Col. Young can report his men minimum strength of the regiment, actually in camp, Capt. Hobbs will report the regiment ready to move.

Both Troop A and Battery A, the other remaining organizations at the camp, hope to move soon, possibly next week. Lack of equipment delays the troop, while Battery A needs six men in order to move. Capt. L. C. Vogt stated yesterday that he had 120 serviceable men in his organization, and that his equipment was practically complete.

Battery A went through mounted drill of four sections yesterday with the horses that Battery B left behind. The Third Infantry worked out another tactical problem with blank cartridges.

BALL GAME PROCEEDS TO GUARD RELIEF FUND

Picked Teams From Board of Trade and Press Club Will Play in September.

The baseball committees of the Board of Trade and the National Press Club met yesterday in the club room of the Press Club.

The object of the meeting was to arrange the details of the ball game to be played between picked teams from the two organizations, the proceeds to go to the Guard relief fund.

No definite date was decided upon, but it was announced that the game would be played in September at the American League Park during the next tour of the Nationals.

Announcement was also made that an effort is being made to get a troop of Boy Scouts to give a drill in addition to the game.
