MOVE TO BORDER POINTS TO CRISIS

War Department's Order Raises Army in Southwest to 175,000 Men.

The United States troops on the Mexican border will be brought up to a total of nearly 175,000 men by an order of the War Department yesterday, sending all available militiamen southward.

Officials said yesterday that the order would account for 30,000 men. It was stated that 96,500 National Guardsmen are already there, and in addition there are 48,000 regulars. These figures account for the 148,500 men, and the recruiting authorized after the guardsmen reached the border is expected to increase the number to 175,000.

An army officer said, explaining his order: "When it develops that the Scott-Obregon conference was a failure, the President ordered approximately 100,000 guardsmen to the border for the purpose of repression and for its effect upon General Carranza in making him come to terms. It was a threat of intervention."

"The impression grows stronger every day that the Mexican-American commission may fall before it begins its session, and that General Carranza may nullify it. Therefore the order of today."

Further light was thrown upon yesterday's announcement in a letter written by Secretary of War Baker, made public by the War Department. In this letter, Secretary Baker says that the emergency on the border still exists and that the guardsmen there "are performing an important and necessary service to their country, at this time."

District Militia to Entrain for Border As Soon as Equipped

When it was learned at Camp Ordway yesterday that the District Militia was to be sent to the border as soon as equipped and transportation was secured, regardless of whether or not the units are up to minimum strength, the hunt for recruits began to work up to a grand finish. Practically as soon as equipped and transportation was secured, the units are up to minimum strength, the hunt for recruits began to work up to a grand finish. Practically as soon as equipped and transportation was secured, the units are up to minimum strength, the hunt for recruits began to work up to a grand finish.

No official moving orders had been received by Capt. Horace Hobbs, U. S. A., mustering officer, up to a late hour last night, but he said that he expected them either today or tomorrow. If the orders were received then, he said that all the troops could be moved by the latter part of this week, but could set no definite date. He said that Gen. Wood had received his orders yesterday.

Under the orders that were issued all the troops at Camp Ordway would move. The infantry will start out over the Southern and pass through Louisville, Memphis, Texarkana, and El Paso on the way to Bisbee. The cavalry and artillery will leave Washington over the Southern and go through Lynchburg, Bristol, Asheville, Memphis, Santa Rosa, to Bisbee.

Capt. Horace Hobbs also said that the recruiting of the regiment to full strength of 100 men to a company would be continued after the troops are on the border, and that every man who joins now puts the regiment that much nearer its complement.

BOOST CHISHOLM'S CANDIDACY.

District Man May Head Spanish War Veterans.

Reports read at last night's meeting in Puthian Temple of the council of administration of the Spanish War Veterans of the District indicate that Capt. Daniel V. Chisholm, of this city, will have strong support for the office of commander-in-chief of the national organization at its annual encampment in Chicago, September 4.

The council decided to correspond with every State organization to aid Chisholm. Among the candidates that will oppose Chisholm are Lieut. Gov. Barrett O'Hara, of Illinois, and Thomas Goldingay, of New Jersey.

Chisholm is chairman of the national committee on legislation, which is next in rank to that of commander-in-chief.

DEMOCRATS FIX INHERITANCE TAX

Caucus Agrees to Rates for Estate and Income Levies.

The Senate Democratic caucus last night agreed to the inheritance tax as recommended by the Finance Committee. Similar approval was given to the rates in the income tax section, but only after a heated and protracted discussion. Demands were made in connection with both these taxes that they be reduced and that they be increased, indicating a distinct lack of harmony on the conclusions reached.

In order to present the measure to the Senate Tuesday another caucus will be held tomorrow. Then the tax on munitions, the tariff commission, dyeustuffs, the wine schedule and special stamp taxes will be taken up.

The proposed inheritance tax is as follows:

One per cent on estates valued at not more than \$50,000; 2 per cent above that and not exceeding \$100,000; 3 per cent above that and not exceeding \$250,000; 4 per cent up to \$500,000; 5 per cent up to \$1,000,000; 6 per cent between \$1,000,000 and \$2,000,000; 7 per cent between \$2,000,000 and \$3,000,000; 8 per cent between \$3,000,000 and \$4,000,000; 9 per cent between \$4,000,000 and \$5,000,000, and 10 per cent on all estates exceeding \$5,000,000.

The House began its surtaxes on incomes with amounts in excess of \$20,000 and ending with 10 per cent on the amount by which the incomes exceed \$50,000. The Senate made it 10 per cent between \$50,000 and \$200,000, and 12 per cent on the amount by which the total net income exceeds \$200,000.

The rates in the inheritance taxes from 6 to 10 per cent are additions to those prescribed by the House.

"TYPOS" FEAR RESULT OF NEWSPRINT PRICES

Delegates to Baltimore Convention See Menace of Unemployment in Reduced Business.

Special to The Washington Herald.
Baltimore, Md., Aug. 12.—The danger that thousands of printers may be thrown out of work because of the high cost of white paper was said to be a question seriously concerning the delegates

to the sixty-second annual convention of the International Typographical Union, which begins here next Monday.

John W. Hayes, secretary and treasurer of the union, said the alarming shortage of print paper is making it difficult for many newspaper corporations to continue business. In some cities, he said, there was talk of consolidating two or more plants to reduce working forces and expenses.

That the union probably will decide to co-operate in a Federal investigation to determine whether there is a conspiracy among paper manufacturers was the belief expressed by union leaders.
