BULGARS SEIZE FIFTY MILES OF LAND IN GREECE

Eastern Flank of Allied Armies Menaced as Foe Draws Near to Saloniki.

London, Aug. 26.—The Bulgarians have seized fifty miles of Greek territory on the Aegean Sea and are menacing the eastern flank of the allied armies, according to official announcements in Sofia.

A war office statement issued there indicates that the invaders are in occupation of all northeastern Greece, from the Bulgarian frontier to the Aegean Sea.

From this direction their left-wing armies are less than fifty miles from Saloniki, base of the allied expedition.

The same statement records a heavy defeat of the Serbians on the western wing of the entente front. Not only have they made progress northwest of Lake Ostrov on the Cianska ridge, but strong Serbian attacks in the Mogliena sector were repulsed with heavy losses, the Serbians retiring.

The strong menace on the Aegean coast is indicated by the fact that the Bulgarians have seized a number of positions around the present extremity of the allied front.

They report that British advanced groups in this region were driven in. The Greek fort of Startila also has been seized by the invaders. According to a dispatch to the Paris Matin, the garrison is said to have been wiped out.

This and the other Bulgarian incursions are reported to have so aroused the Greek populace that the government feels uneasy.

The government is also much worried about a meeting of Venizelos scheduled to be held in Athens tomorrow.

ENTENTE CHECKED ON ALL SIDES, IS CLAIM

Major Moraht, German Expert, Reviews Situation.

(By the International News Service.) Berlin (via Saville), Aug. 26.—Major Moraht, writing in the Berliner Tageblatt, says concerning the military situation:

"German troops now successfully hold in check the entente offensive on all fronts, from the Somme, Thibaut, Alou, and Pinak to the Roumanian frontier, as well as on the Isonzo front, where the Italians must prepare for entirely fresh battle positions, while the combined German-Bulgarian offensive in the Balkans is methodically progressing.

"If the French flyers on the Somme front observe more exactly, they will discover the same number of fresh German positions as those taken by the Anglo-French troops. Yet M. Herve, in La Victoire, expresses his delight over the fact that the French have stormed our third positions.

"Although Gen. Brusilov's troops are breathing profoundly, which is no sign of force, Herve declares that German troops might be transferred to the East, and that the pressure against the French would be diminished."

Says Administration Left Citizens to Face Death.

By WILLIAM HOSTER, (International News Service.) Denver, Col., Aug. 26.—Charles E. Hughes closed the first three weeks of his transcontinental campaign tour at a big meeting in the Auditorium here tonight.

Hughes' parting word before going into his mountain retreat left this indictment against the Wilson administration: "Before I leave I want to say what is very close to my heart. We have not to have economic, business-like administration of government in this country, in charge of competent men.

"Our opponent said, 'who would reduce the cost of living. They haven't reduced it. They said they would stand for the merit system in government. They have shamelessly betrayed the merit system in government.

"They said they were for the maintenance of the constitutional rights of American citizens throughout the world. They left our citizens to be murdered and their property to be destroyed right here in Mexico close to our boundary.

"They did say they were opposed to a tariff for protection. That they carried out, with the result that before the European war broke out, unemployed men were walking the streets of our cities, jobless, asking for work and having to be fed by countless charitable organizations.

"I want to see efficiency in government, efficiency in business," he declared, "efficiency in the execution of all laws relating to governmental activity. I desire to see a contented people, living under just laws as fellow working men and fellow laborers in a splendid co-operative enterprise. That is what free institutions mean. They mean co-operation.

"Now, my friends, I leave the word with you. Shall we, as a great people, advance and hold ourselves in the difficult days of the twentieth century? If I can aid to the accomplishment of that end, my service is at your command."

BABY EATS POISON; SAVED IN 3 HOURS

First Aid Treatment Given at Casualty Hospital.

Doctors at Casualty Hospital regard as remarkable the case of 2-year-old John Shannon Litchfield, who was rushed to that institution at 11 o'clock yesterday morning after having swallowed eight tablets containing a high percentage of strychnine, and from a dying condition recovered sufficiently to be removed to his home, 610 Morris street northeast, at 8 o'clock in the evening.

The tot climbed on a chair in the parlor of the house while his mother, Mrs. Lanza D. Litchfield, was preparing luncheon in the kitchen, and ate eight pellets from a bottle which he thought contained candy. One minute later the little fellow toddled into the kitchen, complaining of pain in his stomach and immediately went into convulsions.

Mrs. Litchfield frantically called Casualty Hospital and an ambulance responded, carrying Dr. Harry H. Warren, who applied first-aid treatment to the suffering child. At the hospital physicians worked three hours over him and saved his life.

The mother never left her son for a moment and was overjoyed when assured that he would be all right. Poisonous tablets had been prescribed by a physician for the use of Mrs. Litchfield as a cure for nervous troubles.

GIRL "SLAVE" PRISON FOUND BY OFFICIALS

Fair Captives Held in Bondage in Alleged Vice Resort.

(By the International News Service.) New York, Aug. 26.—A resort into which pretty young girls are lured and held in captivity until they can be sold into bondage in this and other cities, is said to have been discovered by the district attorney's office as a result of Judge Swann's crusade against vice.

Half a score of handsome young women, who, Smith believes, were forced into a life of misery and shame have been subpoenaed as witnesses.

"It is evident," said Mr. Smith today, "that Kugelmann, alleged white slave, now under arrest, picked out girls of this city for the past fifteen days, keeping a list of their names. One of the young women who had been subpoenaed is a floor manager in a well-known Broadway hotel. Another was a cashier in a restaurant. All the girls were of refinement until they met him."

Five women begged Mr. Smith today to institute search for girl relatives they believe have been forced into lives of shame. In three of the cases, Mr. Smith was furnished with information which offered valuable leads.

One woman, a rich wife, who lives in a luxurious home on Washington Heights, told Mr. Smith her 19-year-old sister had gone on an excursion in July. She became acquainted with a handsome young spender. The next day the girl disappeared.

ENTOMBED TWO WEEKS IN SALT MINE; ALIVE

Employee Wins Battle With Death by Eating Brine.

Two weeks ago Godowsky, employed in the salt mine, became separated from his companions, and before he could reach the shaft of the mine the electric lights went out, and he was left in the various passages he struck an unused shaft, and, becoming fatigued, fell into a pool of salt brine.

Here he lay exhausted, eating nothing but salt from the side of the mine and drinking nothing but brine at intervals. Physicians declared that the blackening of his body was the result of drinking and lying in the brine and they gave that as the cause for his being alive.
