

CONGRESSMEN TO ASK PRESIDENT FOR HELP

Will Urge that He Aid in Various Local Fights.

A concerted demand that he devote the first month of the campaign to a series of personal "appeals to the voters" is to be made, on President Wilson by Senators from doubtful States and Representatives from doubtful districts. This was learned yesterday from the scattering Congressional representatives still remaining in the city. Curiously enough, statements made by the President and his campaign managers will be used to show the necessity for such a trip.

GUARDSMEN TO STAGE REALISTIC WAR GAME

Third Infantry Will Be Put Through Paces Today.

Residents of Alexandria County, Va., need not think the country is being invaded if they see large numbers of soldiers on the roads in their neighborhood. For the Third Infantry National Guard, accompanied by the Machine Gun Company, today will begin a personal appeal for a Democratic Congress to uphold his policies, that even though he is re-elected, the Republican may get the lower house, thus endangering administration legislation for the first two years of his administration.

FIVE YEARS MORE WAR, COL. THOMPSON SAYS

The war in Europe will last five years yet, says Robert M. Thompson, president of the Navy League of the United States. "It seems to be fashionable just now to prognosticate the end of the war. I believe, however, my forecast is based upon better information than that of most of my rivals. "One of the most reliable experts of the Navy League has spent a year in Europe since the war began. He is a man who has devoted a lifetime to the study of military problems. His judgment of military organization should be the best. He believes the war will end about 1921.

Notes of Camp Ordway

A football game is scheduled for next week between Companies F and G. The players are the best in the camp, some of them being former stars on college teams in the past. The boys in Company H are eating heartily again. Their old cook is back with them. He goes by the name of "Best Feeder Porter." Those recently promoted are: Corporal William Ahem to sergeant and Private George Conlon to corporal, both of Company H. Lieut. Francis A. Martin, in charge of the First Separate Battalion, is having a busy time these days. It is said that he arises at 4 a. m., gets up the cooks at 5:15, sounds bugle call and then awakes the company. At the auction of condemned kits, coats, tents, etc., good prices were paid by the purchasers. It is said at the camp that somebody lately has been training mosquitoes to drink oil of citronella, and if the educator of the insects is caught he will be severely punished, for soldiers have to sleep.

DEMANDS OF JAPANESE STIR OFFICIALS HERE

Admission of Activity in China Call for Further Probe.

Official admission by the Japanese government of the demands made on China for Japanese military officials to be put at the head of certain Chinese communities, though pronounced by Japan not to be threatening the sovereignty of China, has spurred the State Department to further investigation of the Far East situation. The investigation, officials say, may result in Japan never taking advantage of the Chinese concessions, even if they are made, through fear of displeasing the United States. Minister Rehnach, in Peking, and American consuls in Mongolia and Manchuria, have been given instructions to continue their watch of the situation.

Frank Hanley and Dr. Ira E. Landrum, national candidates of the Prohibitionists, are making a strong bid for the suffrage vote in the coming national election. The candidates are "pointing with pride" to their record of forty-four years' adherence to the principle of equal suffrage and are laying stress on what they term the vacillating policies of the two old parties on the matter. The prohibition special, bearing the campaign party, reached here this forenoon. Mr. Hanley made a short address to a crowd at the station and then the special resumed its journey to Bonners Ferry, Idaho, the next scheduled stop. Tulsa, Okla., Sept. 13.—Fully recovered from his attack of acute indigestion last night at Oklahoma City, when he was forced to stop speaking for several minutes, Charles M. WIFE SLAYS INTRUDER TO PROTECT HER HONOR

Flees in Night Dress to Neighbor's Home After Shooting.

Special to The Washington Herald. New York, Sept. 13.—A young married woman in a life-and-death struggle to protect her honor succeeded at the expense of the assailant's life. This, in brief, is the story of Joseph Cuosah's violent death as narrated by Mrs. George Kish—and her tale is confirmed by the silent evidence of circumstances as pieced together subsequently by the police of New Brunswick, N. J. Nevertheless, she is in jail with her 9-months-old baby. Her husband, who was away from their home on Monday night when the attack occurred, is also in prison. Their home is in Livingston Park. They have no near neighbors. Cuosah boarded with them. Mrs. Kish had gone to bed, not expecting her husband home until a late hour. She was awakened by an intruder in her room. It was Cuosah. He had chosen to play the role of Tarquin, and was armed with a revolver. In the furious struggle the revolver was discharged. Mrs. Kish declares that she never had the weapon in her hand—that she only tried to keep it from pointing at her baby and herself. And she succeeded. The bullet flew upward and pierced Cuosah's throat.

DID NOT BELIEVE SHE WOULD LIVE

Startling Testimonial Given for the New Herbal Stomach Remedy, Plant Juice.

One of the most interesting recent statements made concerning the much-discussed preparation, Plant Juice, now being introduced in Washington, is that of Mrs. Alice Wilson, wife of Charles E. Wilson, who resides at No. 137 Fortieth street, Lawrenceville, a suburb of Pittsburgh. Mrs. Wilson is well known

MRS. ALICE WILSON.

and a lady of the very highest standing among her friends. She had this to say: "If any one knows what stomach trouble is, it is surely myself. For the past eight years I suffered from severe pains. At times I would become so bad that I was unconscious for hours at a time and my mind would fall me for days—a perfect blank. My circulation would almost stop and my hands and feet would become cold and clammy. Food would not lie on my stomach and I was compelled to subsist on liquids and a very light diet. I lost flesh, and my weight was reduced from 136 to 148 pounds. My neighbors did not expect me to live and gave me up to die. My husband, who was employed at the Clark mills, brought me home a bottle of Plant Juice. Before I used one-half of it I began to feel better and my strength to return. I have used Plant Juice now for the past five weeks and want to state publicly that I have entirely regained my health. I can eat any kind of food and digest it perfectly; do not have an ache or pain in my entire body. I am doing all of my housework for the first time in the past eight years, and am so happy that I sing from joy, for I am a well woman once more—entirely cured—and I give all praise for same to Plant Juice. I am recommending this medicine to all of my friends." The Plant Juice Man is at the People's Drug Store, corner of 7th and E Sts. N. W., where he is daily meeting the local public and introducing and explaining the merits of this remedy. Free samples given—Adv.

MILK PRICE ARGUMENTS WILL BE MADE TODAY

Producers to Open Battle for Increase at Official Hearing.

The first step in the controversy to increase the price of milk in Washington, will be taken this morning, when producers from Maryland and Virginia will appear before officials of the Agricultural Department to present their claims. Developments in the last two weeks have led government officials to conclude that a national agitation by farmers is possible and that an advance all over the country is likely. As a consequence, W. J. Spillman, of the office of farm management, and B. H. Rawie, chief of the dairy division, will make a thorough investigation of the situation. Letters from every section of the country have been received by the Agricultural Department in the past year, it is said, requesting information as to the cause of small profits which have been derived by milk producers. Mr. Spillman said yesterday that he would appoint an expert to investigate conditions. This investigation, Mr. Spillman said, probably would be begun in the fall. In the meantime, the Washington dealers are reticent as to their position in the matter. They take the stand that the producers began the fight and that they must wait a decision before expressing views.
