Last Week of Our Annual September Furniture Sale

This has been the most successful September Sale we have ever enjoyed

And can only be construed as conclusive proof of appreciation of the values and workmanship shown by our patrons. Notwithstanding the heavy inroads made on our stock we have been particularly fortunate in being able to turn misfortune into fortune. At the very beginning of the sale we were alarmed by delayed shipments, due to the impending nation-wide railroad difficulties. The shipments have recently arrived, adding materially to our assortments.

CRETONNES Have a Multitude of Uses And There Never Was Such a Choice as Now

Under the general term of Cretonnes one finds weaves of several different textures—Cretonnes proper, printed linens, chintzes, reps, etc. It is a great showing and a beautiful one in its wealth of color and beauty.

Designs Are Unlimited

English and French patterns of the somber effects with heavy and large patterns and so many colors that they resemble the rich verdure tapestries. Cretonnes for Chinese and Oriental rooms and periods, Cretonnes for stately English period furniture. Cretonnes for a colonial room of simplicity, Cretonnes for the daintiest French-like boudoir. Exquisite flower pot and gay floral effects with foliage, and greens so prettily grouped; wonderful stripes in every width and color; quaint Futurist and Cubist designs, in striking colors of black, reds and greens; simple checked and striped gingham-patterned effects.

How to Use Cretonnes

Here are delightful and most attractive suggestions in Curtains for all styles of windows; showing plain and draped effects; most of the curtains have the valance. There is an Austrian Puff Shade, all finished with fringe and tassels, and the Glazed Chintz Shades, which are very decorative, and make a most exquisite window treatment.

Cretonnes are used for entirely covering walls and for paneling walls, for upholstering and cushioning wicker furniture of all kinds; for making bed sets and complete bedroom sets, such as scarfs and table covers; for luncheon sets, centerpieces and doilies; for lamp and candle shades; for draping the colonial four-poster beds. Many uses are suggested by some clever design in the Upholstery Store.

The Prices of Cretonnes

You will probably be surprised to find how moderately priced some of the most elegant designs are: Chinese Chippendale and Rich Tapestry Effects, copied from French and English, are only 75c yard. It does not require a large amount to fit out an entire room—only thought and careful choice. Special display tables have been arranged directly in front of the Tenth street elevators showing the exceptional qualities and wide range of patterns obtainable from 40c to 65c yard. There are others at 25c, 30c and 35c.

Also showing New Silkolines, in figured colorings, at 16c yard; and Figured Sateens at 40c yard.

To Regain a Healthy, Girlish Complexion

If you would have a clear, fresh, girlish complexion, one ounce of ordinary macerated wax will aid you in this direction more than shelves full of cosmetics. It reduces a natural beauty. This wax, procurable at any drugstore, completely restores a bad complexion, revealing the healthy young skin underneath. Its work is done so gradually, day by day, that so inconvenience is caused. The wax is applied at night, like cold cream, and removed in the morning with soap and water.

promises certain benefits. Uranus and Venus are mildly adverse. It is an unfavorable day for romance or love affair, as both men and women may be easily deceived. New acquaintances should be accepted cautiously, while this rule prevails. Women may meet with delays and disappointments under this configuration. In business they will reach big opportunities through disappointments. Weddings are not particularly well directed under this rule, as women have a leading that is believed to make them impractical in domestic affairs. Theaters are likely to go through a period of uncertainty in cities outside of New York, but better conditions are prognosticated as the season advances. In all dramatic matters the seers presage an improvement in public taste and a turning away from old standards that are not good. A visit from a foreign playwright will have some permanent influence on the theatrical season in New York. The new moon of this date occurs with Libra rising and Saturn culminating. The position of Saturn is said to be rather threatening for rulers, indicating new problems and anxieties. The aspect is not good for England and the month may be marked by immense expenditures and

The Hoover Electric Suction Sweeper

Enables Quicker and Better House Cleaning.

It is by far a more thorough cleaner than any other, because it is an electric cleaner. The patented electric driven brush of the Hoover sweeps up all lint, hair, thread, etc., and shakes to the surface the dirt and dust imbedded in the carpet so that the suction gets all the dirt.

We will gladly demonstrate these features—found only in "The Hoover." Come see the difference that the electric brush of the Hoover makes.
