TUMULTY AND BOILING

Rep. Wood Tells House Committee Rumors of Wall-Street Scandal.

CONTINUED FROM PAGE ONE.

no facts which would constitute evidence and then gave a summary of reports he had received.

He said that Otto H. Kahn, of Kahn, Loeb & Co., had received advance information on the President's note and advised his friends to go short of the market.

He asserted that a confidential telegram was sent on December 22 to a broker in Oshkosh, Wis., stating that a message was going to be sent bearing on the European war.

This message was sent by R. W. McKinnon, of Thompson, McKinnon, Chicago, and to Ralph R. Hartog, of Oshkosh. It advised short selling. He had been advised by William H. Robertson, of Lafayette, Ind., that Lamson & Co., that city, had received the information from Chicago telegrams that the President was sending a most important communication to the belligerent nations and advising short selling.

The names of Secretary Tumulty and F. H. Bolling, came out in a volley of questions to Representative Wood. When asked if he was able to produce the dates of the breakfast-table conferences Clarence Gilmore, editor of the Biltmore Wood said that he did not know of any in mind, but that his informant mentioned the conferences without attempting to report the subject matter. Wood refused to produce the letter for the committee.

No Politics in It.

"Did politics influence your action in introducing this resolution?" demanded Representative Garrett.

"I hope not," replied Wood, and I will answer "no."

On a question which came quickly was from Otto H. Kahn telegraphed.

"The statement reported to have been made before your committee by Representative Wood concerning me is without the remotest basis of fact. I had no idea of any information, direct or indirect, in connection with the President or the so-called leak. I have never sold a share of stock short in my life nor have I advised anyone to do so, either on this or any other occasion.

"I request to be removed from the committee at once so that I may not contradict under oath the alimony to which Representative Wood has not hesitated to give currency not only without a shadow of justification but without the slightest attempt of ascertaining the facts."

Mr. Bolling's Statement.

F. H. Bolling, Mrs. Wilson's brother, made the following statement:

"It is absolutely false that I had any advance knowledge of the German peace note. The first I heard of it was when a New York correspondent advised me by wire of the news. It is true that I am connected with F. A. Connelly & Co., stock brokers, but I am willing at any time to allow my name to be investigated. Also I am ready at any time to appear before any investigating committee. As a matter of fact, we had advised our clients weeks before the so-called 'leak' happened. The market was overloaded on industrial stocks and advised against their purchase."

The committee will hear Mr. B. Baruch today and also Representative Augustus W. Lawson, of Massachusetts. Thomas W. Lawson will be examined Monday.

Baruch Denies It.

New York, January 5.—B. M. Baruch, a New York broker, mentioned in connection with the peace note "leak," sent tonight the following message to the International News Service from Georgetown, D. C.:

"I received no advance information or intimation from any source whatsoever regarding the President's peace note, did I lunch or confer with Mr. Tumulty at the Biltmore or at any other place."

"We are in an age when the world as never before is becoming interested in the study of self, though few have been able to use this study intelligently in life," said Dr. Louise Curtis Fowler in her lecture on "Pythagoras' Law of Love, Business and Marriage," last night at the Portland Hotel.

"In business one should associate with their opposites," Dr. Fowler said. "You should also seek those whose soul vibration and individuality are like yours. This is also the law of harmonious marriage, and might be termed the law of affinity. For we love the thing that is like us and that understands us, for like attracts like, and like holds like."

"The law of opposites is the law of unhappy marriages, and the one that the divorce courts are filled with. These people admire in each other the qualities that they do not themselves possess, and as positive and negative forces are present, friction is created. If you put two chemicals together you have an explosion. The same is true of human beings who attempt to marry under this law. It makes for quarreling and the divorce court."

Evans met him at breakfast the morning he arrived and the show began. Everything Evans ordered on the bill of fare, Colliflower duplicated; every time Billy Evans ate of the question, so far as the club was concerned, as no relinquishing of this tax could be obtained through the government for this meeting, although the track was in first-class condition and all preparations made and already some horses were working out over the course, and the club had gone to considerable expense to promote the meeting before the new law was announced, it was figured that to hold the meeting would cause a big financial loss and accordingly the club had to declare this meeting off.

However, there will be a harness meeting at Hull, Quebec, which is just across the river from Ottawa, Ontario.

OFFERS \$30,000 TO BOXER LES DARCY

New York, Jan. 5.—If \$30,000 is a strong enough magnet to pull Lester Darcy in to the roped arena, he will be seen in action against either Charlie Welmer or Billy Burns at the Harlem Sporting Club some time this month.

John J. Reiser, the barber-promoter, stands ready today to post \$5,000 to Darcy to bind the match if he will accept, and promises to show a certified check for the remaining \$25,000 in due time. If he fails to come through with the match Darcy will have the paltry \$5,000 for lollipops and sody water.

RICKARD THROUGH WITH JESS WILLARD

Chicago, Jan. 5.—Tex Rickard has washed his hands of Jess Willard, heavy-weight champion of the world, according to a letter received here from him today. He is convinced that Jess is through with the ring for good and for that reason has set his price for a match at such a figure that none of the promoters will give it for a bout with any of the present crop of heavy-weights.

Wenck to Have Hearing January 15

Albany, N. Y., Jan. 5.—Frederick A. Wenck, chairman of the State Athletic Council, will appear before Gov. Whitman January 15 to answer to charges leveled against him by Harry M. Pollok, John J. White, Patrick T. Powers and Emil E. Fuchs.

The complaints ask Wenck's removal from his charges, which were received by the governor yesterday. Chairman Wenck asked for an opportunity to be heard, and the governor today gave him until January 15 to file his answer.

There were no marks of foul play about the body and it is believed that Johnson walked out on the ice, broke through and froze to death.

According to reports emanating from New York, the Royal Dutch Company, the principal competitor of the Standard Oil Company in the world oil markets, has made arrangements to enter the American market. Two opinions have been making the rounds of their purpose, one that the Dutch company contemplates more energetic competition with the Standard and the other that the shares market are to be broken by the Standard. All, however, agree that the new move will have a large influence on the American fuel situation.

In an effort to kill the market for stolen cars in Iowa and Nebraska, the Omaha police department has organized a "Stolen Car Department." This proceeds by organizing the co-operation of all the automobile dealers and garage men within a radius of 250 miles, and the tradesmen report at once the sale of any second-hand cars in their territory, especially cars that are known to have been in the hands of persons coming into the territory. Are we to see that the Standard, all, however, agree that the new move will have a large influence on the American fuel situation.

Prospective buyers are warned against purchasing cars from strangers. If the general public refuses to buy from the stranger who steals in one city and disposes of his goods in another, the action goes far toward bringing success.
