### WEEK OF MERCY TO AID JEWISH WAR SUFFERERS

Appeals for Relief Fund to Be Made from January 28 to February 4.

Preparations for "A Week of Mercy" to be held throughout the United States from January 28 to February 4, inclusive, are being made by the Central Committee for the Relief of Jews Suffering Through the War. Between these dates the committee expects to carry the message of the hardships of the Jews in Europe and Palestine to the remotest corner of America.

"The Week of Mercy" will actually begin Saturday, January 27, the first anniversary of Proclamation Day, which President Wilson set aside last year as a day on which the American people should turn their thoughts toward blighted Jewry abroad and should open both their hearts and their purses in an effort to succor the starving and miserable.

Saturday, January 27, the Jewish Sabbath, will be set aside in the synagogue throughout the country as a day of exhortation and prayer in behalf of the Jewish war sufferers, and on the day following, Sunday, January 28, a series of great public mass meetings is planned in the principal cities of the United States. Especially important will be the meetings to be held in Philadelphia, Pittsburgh, and Brooklyn, at which speakers of note, both Jew and Gentile, will be heard.

### CONGRESSMEN TO VISIT ESTATE OF JEFFERSON

Committee Considering Governmental Purchase of Monticello.

A widespread sentiment in favor of governmental purchase of Monticello, the home of Thomas Jefferson, is being engendered by the recent activities in this direction by the National Society of the Daughters of the American Revolution.

Mrs. William Cumming Story, president general of the National Society of the Daughters of the American Revolution, accompanied by many prominent members of the society, recently appeared before the Congressional Committee on Public Buildings and Grounds and urged that Congress purchase this historic mansion at this time.

Personal letters of endorsement of the movement recently were written by the President of the United States, the Secretary of State, and other prominent officials. These letters have been placed on file during the different committee hearings.

That the work of the Daughters of the American Revolution has been productive of results is evidenced by the news that the Congressional Committee has decided to make a personal trip to Charlottesville, Va., this week. Many distinguished men will accompany the committee on its pilgrimage of inspection.

### ATHLETIC CLUB PLANS GOING AHEAD RAPIDLY

Interest in Washington's new million dollar athletic club was given great impetus by the open meeting last Thursday night at which the club was formally launched, and new members are being added by scores. Many of the local business men who are active in the league are "trying in applications daily, in numerous instances in batches of half dozen at a time.

Meetings by both the membership and executive committees will be held this week and the work of selecting other committees completed. Milburn, Helzer & Co. are rushing plans for the twelve-story building in order that they may speedily be submitted for approval and actual construction work begun early in the spring.

### WILL LECTURE ON BIBLE

That the world can gather more than religious consolation from the Bible is exemplified in the subject of "The Bible," a prominent cotton merchant of Charlotte, N. C., has chosen for a free public lecture which he will deliver at Poli's Theater this afternoon at 3 o'clock.

Mr. Alexander is a staunch Presbyterian who has made a close study of the Great Book and is making a tour of the United States, speaking before business and other organizations on "What the Bible says about this European War." "What the Bible says about the invasion of the United States by the combined armies of Europe," and "What the Bible says about the United States being prepared for the oncoming armies which are going to attack us shortly."
