

Purely Personal

Mrs. Katie Huber entertained the Ladies' Aid Society of Grace Church, Georgetown, yesterday afternoon.

Claude Bethel, War Department draftsman, has received a promotion.

Mark E. Taylor, draftsman at the War Department, has resigned.

Walter C. Adler, laboratory assistant at the Bureau of Standards, has resigned.

Josephus M. Brown, of the Department of Commerce, has received a promotion.

John T. Filgate has received a provisional appointment in the Department of Commerce.

Frank Harrison, former machinist at the Navy Yard, and now sub-inspector for the government at the Midvale steel plant, near Philadelphia, was in Washington several days ago.

George Jeffreys, former compositor at the Government Printing Office, and now in the Forest Service, was in town last week visiting friends.

Miss Annie E. Beally, chief of the examining division of the Bureau of Engraving and Printing, has returned to work after an illness of several weeks.

W. W. Caton, of the engineering and machine division of the Bureau of Engraving and Printing, was ill with pneumonia last week.

M. P. McGrath, a mail carrier who has been with the District troops on the border, has returned to work at the Anacostia station.

Mrs. Minnie Whitehead, of the guide force at the Bureau of Engraving and Printing, spent part of last week at her former home in Courtland, Va.

Miss Hazel Davis, of Ocean View, Va., is in the city for a few days.

Miss Marian Cameron, of Ocean View, Va., who has been spending the winter in Boston, was in Washington for the inauguration. She will remain for several days.

Barry Greene, of Roanoke, Va., left Washington yesterday for his home. He was here for the inauguration.

Col. R. S. V. Perry, who was here for the inauguration, returned last night to Charlottesville, Va.

Mrs. T. Korhammer has recovered from a recent illness.

Oliver W. Brickhead has been promoted from a clerkship in the office of the Comptroller of the Currency to chief of the examining division.

Max Kohn has returned from a brief vacation.

Miss Beatrice F. McCall, employed in the chief clerk's office, Postoffice, has returned to duty after a leave of absence.

Walter Paul has left for a month's vacation.

Miss Virginia D. Johnson has recovered from an attack of the grip.

Miss Mary V. McMahon has received appointment to a clerkship in the corporation tax division of the internal revenue bureau of the Treasury Department.

E. J. Dickson, office of markets and rural organization, Agricultural Department, has taken several days' leave of absence.

Mrs. Mary E. Frock, of the Postoffice Department has returned to her duties after an illness.

Miss Hildgrade A. Rice, temporary copist in the General Land Office, has had her appointment extended.

Joe M. Johnson has been elected president of the Knights of Momus. Eugene C. Smith was elected vice president.

Dr. Francis Beady, formerly of the staff of the Emergency Hospital, now of Boston, is in the city for the inauguration. He will stay for the remainder of the week.

FRACTURES SKULL IN ACCIDENT

Albert Dyson, 24, of Hugheville, Md., is in a critical condition at Emergency Hospital, suffering from a fractured skull, the result of an automobile crash. The young man was returning from the inaugural ceremonies Monday night and was in the vicinity of Waldorf, Md., when the machine which he was driving crashed into a telegraph pole. With Mr. Dyson were four friends, who escaped injury.

SO THAT IT WILL HELP FELLOW-MEN

Washington Man Willing His Name Be Used Testifying for Plant Juice.

That Plant Juice is repeating its success here is proven by the large number of local testimonials received daily from people in signed statements, telling of the

ROBERT W. LOWE.

great benefit they have received from its use. Not a day passes but what numbers of Washington people call to thank The Plant Juice Man for what his remedy has done for them and to congratulate him upon his phenomenal success in Washington.

The other day Mr. Robert W. Lowe, of No. 127 Pennsylvania avenue, a popular Washington citizen, who is employed at the Navy Yard, stated:

"I have suffered for years with catarrh of the stomach which caused me constant misery, and the catarrh in my head affected my hearing in both ears. I had a pain in my head constantly for 10 years, and rheumatism throughout my whole system; I suffered torture, and was also badly constipated. I had tried all kinds of medicines but never got any real benefit until I began to take your Plant Juice, upon the recommendation of a friend. I can now truthfully say that I feel better than I have for years; the pain in my head has left me, I sleep well, and am able to eat my meals and enjoy them; my hearing is improved, as the catarrh has left my head; the rheumatic pains are gone and I feel like a new man. I gave all credit to Plant Juice for my recovery."

The Plant Juice Man is at the People's Drug Store, corner of Seventh and F streets N.W., where he is daily meeting the local public, and introducing and explaining the merits of this remedy.

Request the Pleasure of Your Presence at the

Formal Exhibition of Authoritative Spring Fashions

In Women's and Misses' Apparel of Distinctive Character

This exhibit settles the question of fashions for spring, and reveals every new mode, disclosing the best that Paris and America have produced. Fashion has decreed brilliant and most startling color tones and entirely unique color combinations; withal they are magnificent in the extreme and thoroughly adaptable to the wardrobes of American women.

This Exhibition will continue today and tomorrow.

Third floor.

A FASCINATING SHOWING OF WOMEN'S SUITS

As in the past, the short, hip-length jacket appears; it is severely tailored, with a suggestion of the sport effect in most of the suits. There is also a tendency toward a longer coat, particularly in rough materials, and for country wear, the knee length is prevalent so far this season.

Suits in authentic models for street wear, sports, traveling and dress; representing the famous designers—

- | | | |
|----------|----------|------------|
| DRECOLL, | CHANEL, | JENNY, |
| CHERUIT, | PAQUIN, | DOEUILLET, |
| DOUCET, | BERNARD, | GEORGETTE, |
| BULLOZ, | CALLOT, | PREMET, |

The materials are cashmere-chenille, tricotine, armure cloth, burella, gunniburi, Poirer twill, Shetland Jersey, as well as many handsome silks.

The colors are apple green, beige, citron, platinum, Oxford, rose, Belgian blue, gold, chartreuse, mustard, Rookie, and a number of stunning combinations of stripes and plaids.

The new coat sleeves show tight, pointed effects; the collars are pointed or cape effect; chenille and metal thread embroidery are interesting features. Pockets in various sizes and shapes claim their place on most of the suits, while the skirts vary from the barrel to the straight-line, plaited models.

EVENING GOWN FASHIONS

Rumor whispers a hundred fanciful ideas for these charming creations.

The materials are filmy and fascinating.

The Evening Frocks favor soft laces, tulle and satins.

Tea Gowns and Dance Frocks have declared their preference for satin, chiffon and metal brocades.

Features that charm the lover of beauty and distinction are

- HANDSOMELY HAND-PAINTED LACES,
- UNIQUE BEADED DESIGNS,
- LAVISH USES OF SOUTACHE BRAIDING,
- PRETTY DEVELOPMENTS OF SLEEVE EFFECTS,
- NEW USES OF TWO-COLOR COMBINATIONS.

Indeed so many new and most attractive features are combined in these Evening Gowns that mere words are inadequate to describe them—so mystic, so different, so artistic that they stand distinctively "alone" in their expression and development of Fashion's dictates.

THE AFTERNOON AND STREET FROCKS

are of charmeuse, taffeta, Georgette and startling combinations. Beading in many colored combinations—banding, conventional and floral designs are prominent.

The sleeves are novel and beautiful—so graceful and so varied in their newness—some are the decided bell effects, while others are tightly held at the wrist with a loose flowing effect at the elbow. The coat effect is very good and becoming—many of the garments show the coat waist and the skirt of pretty contrasting colors.

THE BARREL EFFECT

is pronounced in both afternoon and evening gowns, and one designer emphasized the idea to such a daring degree that elastic bands, which fit neatly about the ankle, are used to hold the skirt at just the right angle to produce a most stunning effect.

COATS AND WRAPS FOR MORNINGS, NOONS AND NIGHTS

The New Coats are luxurious in quality and model—the barrel or melon silhouette is sponsored by Callot, Lanvin, Paquin, and others, but the long straight lines closely rival them for popularity.

There is a decided tendency toward the belting effect, and girdles are set-in, crushed as a sash or take form in strap effects which cross and recross in mysterious ways.

The colors include the staple street shades, also striking colors so loudly proclaimed for the vivid spring season.

Pockets are all sizes and shapes, and when they are piped or lined with a pretty contrasting shade they are most interesting.

They vary in length and cut to gracefully meet the occasion for which they are intended.

- | | |
|-------------------------|----------------------------|
| EVENING COATS, | TRAVELING COATS, |
| AFTERNOON COATS, | COUNTRY CLUB COATS, |
| MOTOR COATS, | UTILITY COATS. |

RICHLY BEADED AND EMBROIDERED GEORGETTE CREPE BLOUSES

Made in shades that will superbly blend with the spring suit, and the models were never more diversified and exquisite.

Point Venice Lace combines with gorgeous hand embroidery to produce one of the most pleasing effects one could picture.

The harmony effected by the combination of beige, Georgette crepe with gold and light blue beading is decidedly interesting, and develops a blouse which is sufficiently rich to be worn on any dressy occasion. A narrow picot edged ribbon plays an important part with this waist, and finds its way through slashings in the front, and eyelets at the neck.

THE NEW CHEMISE SPORT COAT BLOUSE

is the personification of smartness, especially when it is made of heavy crepe de chine with Japanese silk collar and cuffs. Novelty pockets make these waists more practical for sport wear. They are produced in various colors and color combinations that will please the most discriminating.

SPORT, TRAVEL OR DRESS SKIRTS

White Skirts are first in favor, and when they are made of the handsome new silks and satins, including the new glace serge, Escorte, Khaki Kool, Yo San, Silk Jersey and Soiree, they are rich and lovely; in many cases they are trimmed with brilliant colors that give unparalleled individuality. A sash or attached belt seems a necessity to the correct style of the new skirt.

The envelope pocket with its brilliant lining slightly overlapping the outside is a unique feature.

Embroidery is generously used on some of the skirts, and the result is charming.

An orchid glace serge skirt is shown in the most graceful and attractive style.

The darker skirts are shown in a complete range of new shades, mixtures and novelties, as well as many stunning black models, in taffeta, satin, faille and satin Georgette.

THE MISSES' AND JUNIORS' SUITS

Fashioned principally on the sports lines, and are very nobby and attractive—many of them have wide patent leather belts, large pockets and fancy buttons.

All the newest materials are represented in the latest vivid colorings, as well as the staple navy blue serges, in simple tailored models.

THE STYLISH LONG COAT FOR THE MISS

is more graceful than ever—it is made in full flare, belted or semi-belted styles of the soft, rich fabrics so appropriate for spring. Suede velour, in a short-waisted model, is stunning; the smart navy blue serge coats have khaki kool collars, in gay colorings and designs.

IN OUR NEW CUSTOM ORDER DEPARTMENT SCHOOL AND COLLEGE GIRLS ARE ENJOYING THE PRIVILEGE

of having Peter Thompson, Sailor, Middy and Coat-dresses "made to measure" and made distinctive by that little personal touch inspired by their individual taste, or characterized by their college sorority or club.

Wash Skirts and Tailored Silk Blouses also made to order in this department.

PARIS IS LAVISH IN THE LATITUDE ALLOWED SPRING HATS

Crowns that mount and brims that flare. Close-fitting Turbans and Large Hats with brims that grow to tremendous proportions, crosswise and lengthwise—all are equally popular during this fortunate season, and no woman will have an excuse for wearing an unbecoming chapeau.

- | | | |
|--------------|----------------|--------------------|
| Shell Straw, | Lisere Straw, | Crepe de Chine, |
| Wool Braid, | Sport Silks, | Caterpillar Straw, |
| Milan Straw, | Ribbon Weaves, | Tulle and Net |

in all the beautiful spring shades, build most of the latest millinery creations.

In the summary, a prominent style feature is the delicate materials used in the large shapes, trimmed in a most decorative manner. Turbans are of various styles—brimmed and brimless—of various heights, trimmed with flat decorative motifs or high masses of flowers or fly-away bows of silk or ribbon.

Tailored shapes are both large and small, with trimmings that in most cases are part of themselves.
