Senator Robinson in Huff Over Cut in Flood Funds

Because the appropriation for flood control was cut from \$10,500,000 to \$6,000,000, Senator Robinson, of Arkansas, flew into a rage in the Senate late yesterday afternoon. He criticized severely Senator Overman, of North Carolina, one of the conferees upon the Sundry Civil bill, in which the cut was made.

"The conferees upon the bill do not come from the sections of the country affected by the floods," shouted Robinson, "stalking so close to the North Carolina that their bodies touched." The Senate conferees came back here with half a loaf. They ask me if I would rather have that than nothing. Of course I would. But they surrendered!"

CORNER STONE FETE PLANS ARE EXTENDED

Knights Assured of Crowd at St. Anthony's Hall Site.

Enthusiastic responses from officers and members of Potomac, Keane, Carroll, Spaulding, and Washington councils of the Knights of Columbus have caused the officials committee of Knights in charge of arrangements for the laying of the corner stone of St. Anthony's hall to enlarge its plans for handling a record-breaking attendance this afternoon.

Leo A. Rives, State deputy of the Knights, will deliver an address, following that of the Rev. Dr. William J. Kerby, professor of sociology at Catholic University.

Prominent clergymen, pastors of local churches and representatives of the leading educational institutions, will assist in the ceremony. The clergy and the Knights of Columbus will be in procession from the rectory of St. Anthony's to the site of the prospective hall at 2:30 o'clock.

"America," "The Star Spangled Banner," and other patriotic anthems will be sung by the full membership of St. Anthony's sanctuary choir—a widely known company of boy chorists, directed by Prof. George Herbert Wells.

National leaders of the Knights of Columbus and of the American Federation of Catholic societies, in recent conventions, started a nation-wide movement for the establishment of Catholic clubs and parochial halls to embrace various features decided upon by Catholic clubmen assisted by the advice of the X. M. C. A. leaders. The new building is planned to embrace all the details recommended by the leaders.

'DON'T BE VEGETARIAN UNLESS YOU WANT TO'

Advice of Hoover in Urging Conservation of Staple Foods.

"Don't be a vegetarian unless you want to be," said Herbert C. Hoover, Food Administrator, "but eat vegetables during the summer months and help to feed the allies."

The eating of vegetables during July, August and September, says the man who is to have the problem of feeding the Allies, is the best way to save the food as soon as Congress passes the food bills, will save the staples which can be used in the winter months. By this process, says the Food Controller, an immense saving can be effected. The formula is:

Reduce consumption of sugar one ounce a day, bread four ounces a day, meat one and one-half ounces a day. Substitute vegetables and the result would be the following savings: Twenty million bushels of wheat, 15,000 tons of sugar, 700,000 heaves.

This diet, the Food Administrator says, will be as nutritious as that which the ordinary man is accustomed and will mean no deprivation. The only thing is to get the vegetables and except in the large cities every householder can grow nearly all the vegetables he needs for his own use.

Marriage License Bureau Rushed As Never Before

"Spuds are high and still they come," remarked Col. W. A. Kroll, who presides at the marriage license counter at the court house.

"Cupid shot more than forty today, and it's a short day at that," said the doorkeeper at noon, "but even if it closed they are still a few waiting." A glance over the license issued from the first of May up to date, reveals the fact that Col. Kroll was a lucky man on some days if he managed to get his lunch before 5 o'clock.
