

VENEREAL EVIL CLINIC BY U. S. GREAT SUCCESS

Social Hygiene in Army Gets Results Beyond Expectations.

El Paso, Texas, Aug. 8.—The fight against the evil that has been the rock on which many an ancient and modern State has been wrecked, is proving a success since the United States established the El Paso Venereal Clinic about six months ago.

Visits to Homes A social worker is in charge of the clinic and regular visits are made to the homes of patients, and others of the classes more generally afflicted with disease.

No Coercive Measures Dr. Wood attributes the phenomenal success of the clinic to the fact that absolutely no coercive measures were taken to ensure regularity in attending upon patients.

MEAD INQUIRY BOARD PUTS DOWN ROWDYISM Walter Middleton Punished for Throwing Bottles at Soldiers.

Camp Meade, Md., Aug. 8.—Recent trouble at the loop station which brought speedy action from Gen. Gaston in the appointment of a board of inquiry, has resulted in a conviction by court-martial of one of the instigators of the disturbance.

HASBY ABERMAN ON LIST.

Baltimore Man Among Casualties Went Early from Baltimore. Camp Meade, Md., Aug. 8.—Private Harry Aberman, Company T, Fourth Infantry, was reported in Tuesday's casualty list as killed in action on July 26.

LUMBER'S PART

in MODERN WAR

IN building army cantonments, naval quarters, aviation camps, military storehouses, supply bases, barracks, ships, boats, barges, Uncle Sam has surpassed all precedent in speed and efficiency. No other nation on earth could equal this achievement in the same length of time and it was possible in this country largely because of enormous resources in forest products which

were made quickly available through the co-operation of a great and effectively organized industry. Because of its availability, adaptability and dependability, Lumber has had a tremendously important part in the world war. In this connection, it is well worth noting and remembering by every prospective builder that the wood most used in war time building is

the most amazing feat of emergency construction the world ever knew has been that accomplished by our National Government since we entered the war.

For list of today's Friday Bargains on the street floor and upstairs see yesterday's Evening Star or Times and look for the advertisement of the Palais Royal.

Southern Pine 'The Wood of Service' That is because Southern Pine long since proved itself perfectly suited to a greater variety of uses in building than any other wood that grows, and for many structural purposes to be equal by no other material. Consequently, nearly all of the army cantonments, camps and storehouses in this country are of Southern Pine; hundreds of ships are being built of Southern Pine exclusively; the Government specifies it for boats and barges; our battle ships have decks of Southern Pine; In peace or war, Southern Pine is the world's most important structural wood. And today it is the most economical, serviceable and available building material everywhere in America east of the Rocky Mountains.

The PALAIS ROYAL TODAY 100 TODAY Friday Bargains Wonderful Bargains—100 specially selected lots of summer merchandise that is in demand right now, including every-day hot-weather needs for men, women and children.
