

COPETTES AFTER DEAD EYE TICK

D. C. Policewomen Busy Learning How to Handle Revolver and Rifle.

BANG!
"Darn it! I missed the paper square!"

A sound and a sentence heard frequently when the members of the woman's bureau of the Metropolitan police force, under the direction of Inspector Cross, gathered to be instructed in properly handling a revolver or rifle.

For the past three weeks the girls have been busy burning powder and aiming lead in the National Indoor Rifle Range, under Police Theater. Incidentally the stage hands in that playhouse are bordering on nervous prostration.

Although timid about pulling the trigger of the regulation six-shooter, the girls are rapidly getting in the Dead Eye Dick class, according to police officials.

Blunders Numerous.

Many blunders were made when the fair markswomen first started to practice. Standing with feet about three feet apart, eyes shut tight, gun clasped tightly in both hands, and waving from one end of the shooting rail to the other, the girls endeavored to better the amateur record for shooting at invisible objects, namely, the stage hands.

The regular markers and scorers at the range declare a national holiday every time the girls come to practice, and in spite of the intrepidity of the instructor, he invariably gives instructions from the shelter of a dividing wall between the range and the locker room.

Hit Of Bullets.

One girl, when the first went out, became highly indignant over the fact that apparently no lead was included in the cartridges that were furnished for target practice, since they didn't hit anything. But Inspector Cross is said to have proved to her that the guns were loaded by permitting her to bite one of the bullets. After that experience she again took heart, and is now one of his most promising pupils. Yesterday she made four bull's eyes and the instructor in his enthusiasm came out from his hole in the wall and commended her very highly on her marksmanship.

KENILWORTH PLANS TO WELCOME HEROES

A home-coming reception is being planned by the people of Kenilworth to be held as soon as more than thirty men from that suburb return from France.

The plans will not be completed until all the men are back. Those who are still in France are: Capt. Phil Brown, John Petrie, Louis Watts, Richard Shaw and Percy Hattwell.

Representative Kelly Will Welcome "Iron Division"

After having witnessed the bravery of Pennsylvania's "Iron Division," the Twenty-eighth, in action under a terrific fire at Chateau Thierry, Congressman M. Clyde Kelly has been assigned the pleasant task of delivering the welcome home address to the boys. He left here last night for Pittsburgh, where the coming-back ceremonies will be held tomorrow.

Mr. Kelly will also deliver an address at Wilkesburg, Pa., which has the best record in the United States for the number of men furnished for the war with Germany. The records show that one man out of every ten of all ages in Wilkesburg served in the army or navy. Out of a population of 30,000 the city furnished 2,000 fighting men.

Change of Hours Loses 300 Charwomen's Jobs

Approximately 300 charwomen employed in the State, War and Navy Building were discharged yesterday due to a change in working hours instituted by Capt. Frank Hoover, of the office of public buildings and grounds. Capt. Hoover explained that the change of working hours resulted in losing 300 charwomen who were not needed. He added that this change was not due to the lack of Congress appropriating funds for their salaries.

MAJORS CONGRESS IS FAIR TO D. C.

Henry B. F. Macfarland Lauds Lawmakers for Retaining 50-50.

"Congress, once more, has fastened the confidence of the National Capital," said Henry B. F. Macfarland, chairman of the joint citizens' committee on fiscal arrangement between the United States and the District of Columbia, in a statement issued last night on the adoption of the "half-and-half" legislation.

"It has refused to tear up by the roots, without a substitute, the fiscal system on which the life and progress of the Capital depends," he declared. "We are grateful and the country is grateful, for no one was able to quote any of our fellow-citizens outside of Washington as favoring a change."

Mr. Macfarland stated, however, that his committee was ready at any time to appear before the Senate and House committees on the District and place before them facts bearing on any legislation providing for a new fiscal plan. The candid co-operation of the committee on fiscal arrangement was assured.

In speaking on national representation in Congress, Mr. Macfarland averred that a District representative on the floors of both houses would facilitate quick action on such bills as the "half-and-half."

Can You Think of Anything More Delicious Than a Properly Made Salad

Be its chief constituent what you wish—meat, fish, fowl or vegetable—if the dressing is properly made nothing can equal it in gastronomic delight.

Ah! properly made. There's the rub. There are so many mixtures—and so many uncertainties in the mixing.

Make it yourself? Well, you haven't yet struck the right recipe—or they don't seem to work out just right. There is always too much of one thing or too little of something else. The component parts don't seem to mingle in that delicious oneness where each flavor is blended into one delightful whole.

That is the trouble that most amateurs find in their own dressings—and diners find in most of the mixtures made by professional cooks, some personal liking of the preparer of the dressing sticks out too prominently.

A perfect balance of all the flavors—a perfect commingling of tastes—is absolutely necessary for the perfect dressing. And that can never be obtained by teaspoon guesswork or uncertain eye measure. You must know the right ingredients, the exact proportions and the correct method of mixing—

Or You Can Use Royal Mayonnaise "The Perfect Dressing"

We recommend Royal Mayonnaise to be the perfect salad dressing. Don't fail to try it; you'll like it.
