'Will Be for America—All Of America, All the Time.' Twelve Named for National Convention — Costello Elected Committeeman.

Chicago, June 11.—The people are calling Herbert Hoover to the office of President. Judge Nathan L. Miller of New York, declared today in putting him in nomination at the Republican convention.

Miller defended Hoover against charges that he had spent too much time in foreign lands and that his Republicanism was not stalwart. He reviewed Hoover's work, showing his administrative ability as food controller in the United States.

'I base the case for my candidate upon a record of achievement known to you, known to the people of this country, known to the world.'

Record of Achievement. 'I take it the first duty of the incoming administration will be to establish peace.'

'Now, what is the record of my candidate on the peace treaty, and what is his special fitness to deal with this problem?'

'I do not exaggerate when I say that there probably is no man in this country who has had his opportunities to acquire first-hand knowledge of conditions the world over.'

'I nominate Herbert Hoover as my candidate for the great office of President of the United States.'

Polish Medals Burden Hungry Yankee Fliers Proud of Honors, But Want Hash, Says Appeal From Warsaw.

(Washington Herald-Public Ledger Service, Special Cable Dispatch.) London, June 11.—Wanted—Someone in the United States to feed some hungry American fliers who are winning all the medals Polish government has to offer but who cannot get enough to eat.

That appeal came through from Warsaw today to the American Relief Administration. According to Herbert Hoover's representative in Poland, Maj. Paunieroy, the American commanding the Kosciusko squadron of American volunteer fliers, appealed to the Relief Administration for food drafts and the administration sent the appeal to America where, it was hoped, some kind-hearted citizen would buy food drafts so the fliers in Poland could have a meal.

While they appreciate the medals they cannot eat them. As a result of a recent appeal from the Librarians of Vienna, a trustee of the New York Public Library sent over \$5,000 worth of food drafts to Austria. It is reported in London that now all the bookworms are satisfied.

Socialists Strive for Explosion by Abusing Catholic Leaders.

(Washington Herald-Public Ledger Service, Special Cable Dispatch.) Berlin, June 11.—The political situation remains so complicated and the problem of forming a government based on any possible majority in the Reichstag is conditioned upon so many uncertain factors that the only positive fact thus far established is that in a parliament of 460 members 231 constitute a majority.

One ray of light is cast by the declaration of the Munich organ of the Bavarian People's Party that this offshoot is willing to join the Clerical, Democratic and the Majority Socialists in prolonging the present coalition government.

POTATO PROFITEER CHARGES QUASHED

(By Herald Leased Wire.) New York, June 11.—Judge Augustus N. Hand in the Federal District Court this afternoon sustained demurrers interposed to indictments, secured by agents of the government flying squadron, charging Eugene A. Sullivan Company, Inc., and Andrew Spada, produce merchants, with violating the Lever act by profiteering in the sale of potatoes. Judge Hand dismissed the indictments because they did not state the market price of the potatoes which they alleged the defendants sold at an unjust and unreasonable rate.

SUGAR RATION REPORT DENIED

Government Will Not Limit Housewives or Industries.

CANNERIES CARED FOR

Famine Burden Will Fall Upon Domestic Trade As a Result.

Notwithstanding the advice of experts, neither the Department of Justice nor any other governmental agency has any intention of putting the American consumer upon a sugar ration.

The department's program has been completed. Howard E. Flegg, Assistant Attorney General in charge of high cost of living campaign, announced yesterday, but details will not be made public at this time.

Its success rests upon the ability of the department to convince the manufacturers of candy and soft drinks that they should voluntarily curtail their consumption of sugar so that housewives can get a reasonable supply for the coming season.

Apparently the burden of the sugar shortage, if conditions get worse, will fall upon domestic consumers. The department has brought about an agreement between canners and preserving interests by which the canning factories will receive enough sugar to see them through the season.

Reports that the United States might get an appreciable amount of sugar from Canada are understood to be unfounded.
