Halo of Unusual Brilliance Seen Around Noon Sun

A halo of unusual brilliance formed about the sun shortly before noon yesterday, due to the great amount of moisture in the atmosphere. According to Father Archer, astronomer at Georgetown University, and J. H. Spencer, meteorologist in charge of the local Weather Bureau, such halos are of common occurrence, but seldom as bright as was the case yesterday. The halo is due to sun rays striking cirro-stratus clouds passing between the earth and the sun. The clouds, full of moisture, usually contain ice needles which act as a prism to reflect the rays back to the sun, causing the halo. Such halos are of two sizes, the one yesterday being the smaller.

New Marine Corps Chief Gives Kiss To Daughter as He Hands Diplomas To Western High School Graduates

Catching his little dark-eyed daughter, Laura, to him and presenting her simultaneously with several resounding kisses and her high school diploma, Maj. Gen. John Lejeune, newly appointed commandant of the Marine Corps,

gave a regular movie thrill to the hundreds of folk who attended the commencement exercises at Western High School yesterday afternoon.

Seventy-Four Graduate.
 Gen. Lejeune distributed diplomas to the seventy-four students who were graduated. It was suggested to him that he follow the French fashion and plant a kiss on the cheek of each graduate, but he didn't "fall" for the idea until his own little seventeen-year-old girl came along.

Rev. John Van Schaick, Jr., presided over the exercises. Superintendent of Schools Ernest L. Thurston was present but took no active part.

Students who graduated yesterday were:

Here's Relief from Skin Diseases

The Blood Must be Purged of all Germs.

Usually those who continue to suffer from stubborn ailments are those who refuse absolutely to heed the teachings of medical science.

The fiery itching of burning skin diseases comes from far beneath the surface of the skin, and cannot be reached by local remedies.

New discoveries are being constantly made, and those who fail to take advantage of the wonderful accomplishments of men of science will continue under the handicap of disease.

Your eczema, tetter, boils, pimples, acne, scaly skin eruptions, and burning, fiery irritations that cause so much discomfort by their terrifying itching, come from a tiny disease germ in your blood, which multiplies by the millions. These germs find some weak spot where they can break through the skin and set up their attack, and if you have ever had any form of these skin disorders, you know what real torture is.

The reason these disorders appear so stubborn and hard to get rid of, is because they are not given the proper sort of treatment. In other words, the irritation and itching becomes so intense that the patient thinks only of relieving this discomfort, instead of directing his efforts toward getting rid of the cause of it all. Hence the constant use of lotions, salves, soaps and ointments can make no impression

whatever on your trouble, other than to afford some temporary relief.

But why be content with mere temporary relief? Are you not desirous of being permanently rid of this annoying trouble that is a source of such constant torture? Wouldn't you give almost anything to be once more free from the itching and burning that makes your skin seem like it was on fire?

Then throw aside at once such makeshift treatment that can only reach the surface, and begin taking a remedy that goes direct to the source of your trouble. Go to your drug store, get a bottle of S. S. S., and begin a thorough course of this fine old blood medicine that kills the germs that creep into the blood and cause all of your skin discomfort. S. S. S. is a purely vegetable compound, made from roots and herbs of recognized medicinal value. It so thoroughly cleanses and purifies the blood that the germs of disease are eliminated, and then real relief comes.

S. S. S. gives real relief from the tortures of skin diseases because it searches out the impurities and roots them from the blood.

This fine old remedy is the sane and sensible treatment for your skin disease, as you will find by giving it a trial. If your case should need special advice, it can be had without cost to you, by writing to Chief Medical Adviser, 195 Swift Laboratory, Atlanta, Ga.—Adv.
