U. S. TO PLUG UP BIG GAS WASTE

Evaporation Amounting to \$150,000,000 a Year Will Be Cut By Half.

BUREAU MAN EXPLAINS

Nation's Rapidly Vanishing Supply to Receive Timely Conservation.

(By Universal Service.)
 At a time when the American oil supply is rapidly being exhausted particular importance is attached to the discovery of a method by which the United States Bureau of Mines announced yesterday consumers in this country will be able to save 300,000,000 gallons of gasoline now being wasted each year through evaporation.
 This saving alone will be sufficient to keep 1,200,000 automobiles in service, allotting each one 250 gallons per year, according to J. C. Lewis, petroleum technologist of the bureau.
 Details of the discovery will be communicated to oil operators in the near future, Lewis said. The Bureau of Mines, it was stated, recently investigated conditions in the oil fields and was surprised to learn that about 20 per cent of the gasoline in crude oil went into the air.

Evaporation Is Immense.
 From the time the oil arrives at the refineries the loss of gasoline by evaporation is 600,000,000 gallons every year. The bureau has figured that half of this can be prevented.

"The worst feature is the fact that the gasoline wasted is the most volatile, and consequently of the best quality obtainable," said Lewis. "It follows that the prevention of this loss would not only increase the gasoline supply materially, but would also increase the general standard. The 600,000,000 gallons of gasoline lost is worth as a national asset about \$150,000,000."
 The method of transporting crude petroleum to the refineries has remained practically unchanged from the time gasoline was a drug on the market and when there was no incentive for saving it, Lewis pointed out.

Escapes Into Air.
 From the time the oil reaches the surface of the ground it passes through a series of tanks and pipe lines to the refinery, sometimes thousands of miles away. In the course of its journey it is exposed to sun and air, and the gasoline, being very volatile, escapes into the atmosphere.
 "Although it has been generally known that such losses occur," said Lewis, "no one up to the present time has called attention to their magnitude. Until recently no one stopped to consider whether the methods devised for conditions twenty or thirty years ago were still satisfactory for today."

FORESTRY ENGINEER GETS NEW POSITION
 T. W. Norcross, formerly supervisor of national forest roads, has been appointed chief engineer of the Forest Service. Norcross succeeds O. C. Merrill, who resigned a short time ago to become executive secretary of the Federal Power Commission.
 Norcross, since his graduation from Tufts College in 1904, has been engaged in hydraulic and constructive work. In 1910 he entered the Forest Service as district engineer of the Rocky Mountain and Southwestern districts.

CLUB TO HEAR G. O. P. CLAIMS

Second of Series of Political Talks to Business Men Wednesday.

The second of the series of political talks to acquaint members of the City Club with the attitude of the principal parties on the chief campaign issues will be given at the club's weekly forum luncheon at 12:30 Wednesday at the clubhouse, Farragut square.

The speaker will be former Representative William E. Humphrey, of Seattle, Wash., who will present the attitude of the Republican party. Humphrey is now engaged in the practice of law here.

The first talk of the series was given last week, when Representative Riley J. Wilson, of Louisiana, presented the attitude of the Democratic party. It is expected his arguments regarding the league of nations, Democratic accomplishments, and party fidelity to platform pledges will be answered in detail by Humphrey.

Payne Again President Of Federal Workers' Union

R. W. Payne succeeds himself as president of Federal Employees' Union No. 2. It was announced yesterday as the result of the recent election of officers, the ballots of which were turned in Friday.

Count will be resumed today and the union will announce the complete list of new officers tonight.

Doctors Recommend Bon-Opto for the Eyes

Physicians and eye specialists prescribe Bon-Opto as a safe home remedy in the treatment of eye troubles and to strengthen eyesight. Sold under money refund guarantee by all druggists.

 The Truth—and Nothing But the Truth

A MESSAGE To the Washington Public

We're starting a new drive at the high cost of living, so far as it applies to articles of men's wear. Nearly eight years ago we opened this shop with a declared policy of selling the highest class of merchandise at prices that would always be lower than those of other first-class houses. It meant that our margin of profit must be small, but we hoped to offset this by attracting a tremendous volume of business. The policy has been successful—wonderful—wonderfully so. People learned that our goods ARE of the highest class, and that our prices ARE the lowest. Add to this a courteous and efficient service and you have the reasons for our rapid growth. Right now—at the very beginning of the colder season—we are quoting a general reduction in prices that will save men ONE-FOURTH the expected cost of their clothing.

A \$300,000 Stock
 OF
Clothing, Furnishings, Hats and Shoes
 At **25%**
 Less Than Current Prices

Every article in our shop (with the single exception of Manhattan Shirts) will be sold for 25% less than its marked price. We've assembled magnificent stocks of the highest class in the lines we carry. Every thing is new—the very latest offerings for the present season. These goods have been marked as low, and in many instances lower, than prevailing prices in other first-class shops. And yet we offer them for one-fourth less than these marked prices. Whether you're buying a single handkerchief or the most expensive dress suit in our stock, you're saving one-fourth of price. If your purchase amounts to \$4 you pay us \$3. If the total is \$200 you pay us \$150. Fall and Winter suits, evening clothes, topcoats and heavy overcoats—all these lines come from manufacturers whom you know to be the best in the world. It's enough to say "Fashion Park Clothes" to the man who is familiar with their magnificent values. And this is but one of several equally fine lines from which you can surely make a satisfactory selection. The most exacting exponent of fashion will find the latest creations of the greatest designers. The more conservative models carry a dignity in their simpler lines that is fully as effective in stamping them as the work of masters. We've priced this clothing comparatively low at \$45 to \$80, and you can buy it now at a saving of 25%. Think of what you'll need in the next few months—shirts, underwear, hose, neckwear, hats, shoes, etc. Now is the time to do that buying! Make your list and bring it here. Everything will be found in our stocks. The prices are right, and you save ONE-FOURTH.

TODAY'S SHOES AT TOMORROW'S PRICES
With an Additional Reduction of 25% on Every Pair of Shoes in This Store
 POSITIVELY NO EXCEPTIONS
 Such Nationally Known Makes as

Men who have recently purchased shoes, of us know that we have not waited for wholesale prices to drop, but have anticipated such a break by reducing on all of our shoes so that they could have today's shoes at tomorrow's prices. Now comes a flat 25% reduction on top of tomorrow's prices. There will be no reservations or restrictions. Every pair goes. This includes the new brogues—the new styles, both extreme and conservative. It's an opportunity wise men won't miss. This week only.
