TO THE PUBLIC.—THE SUBSCRIBER IS pleased to inform the public that his CHOLERA AND DIARRHEA MEDICINE affords more prompt re-AND DIARRHEA MEDICINE affords more prompt relief in the various affections of the Bowels, and consequently more satisfaction to all who have used it, than any other Medicine ever offered to the public. The following are among many testimonials of its efficacy:

Dr. R. H. Worthington—Dear Sir: 1 take much pleasure in adding my testimony to others in favor of your remedy for Read Affections to beginning as featured by avaginged.

for Bowel Affections, &c., having so frequently experienced its beneficial results in my own case, as well as in many others to whom I have given it. I carried a bottle of it with me to Baltimore, (and here permit me to say, I would as soon think of traveling without money as without this as soon think of traveling without money as without the remedy,) and finding many among my acquaintances there who were suffering with various forms of Bowel Affections, I gave it freely, and in NO INSTANCE did it fail to afford the MOST PROMPT AND DECIDED RELIEF, as it has done here. I congratulate you, and especially the public, on the discovery of a medicine which is better calculated to protect manhind and allowints suffering than any other ever brought kind and alleviate suffering, than any other ever brought before the neople.

L. T. SPIERS.

This is to certify that, some weeks back, I was taken with a violent Diarrhea, which persisted for eight days. Being some sixty miles from home, I made use of all the remedies I could think of, but without affording any relief. On arriving at home, I was informed that Dr. R. H. Worthington had prepared a remedy for Cholera, &c., and was advised to use it. I did so, and to my astonishment, one single dose gave speedy and permanent relief, since which time I have used it frequently in my family; and in justice to the Doctor say, I consider it much the most valuable Medicine I have used in an experience of twenty years. F. M. CAPEHART.

Murfreesboro', N. C., Oct. 2, '54. Dr. Wormington—Dear Sir: I take great pleasure in recommending your Cholera Medicine to the public, and more especially since I have had personal experience and

observation of its beneficial effects.

I have tried several remedies put up for Cholera, &c., but have never found such happy results from any as from your invaluable remedy. I have such unbounded confidence in its efficacy, that I am unwilling and will not leave home without a supply with me; and I regard it as one of the most valuable discoveries of the age. Yours, truly, W. P. BEAMAN.

Windson, N. C., Sept. 19, '54.

Dr. R. H. Worthington—Dear Sir: I have made some effort, and have succeeded in introducing your Medicine to the public, and I find it is taking very well indeed; and the result is, that I have nearly sold what you sent me. I therefore wish you would send me some more as soon as you can. \* \* I have not the slightest doubt but that this Medicine is the very best remedy out for the disease for which it is recommended. I hope you will soon send me a supply, as I would not like to get entirely out of it.

Yours, truly,

Yours, truly, GEORGE W. McGLAUGHON.

[From the Murfreesboro' Gazette.]

Mssrs. Editors: In looking over the last number of the Gazette, I found a communication from our friend, Mr. L.

T. Spiers, recommending Dr. R. H. Worthington's Cholera Mixture to the public, for the cure of Diarrhoza, Dysentery, and other kindred diseases. Having experienced in my own case, the happy effects of its use, as well as other members of my family, I can safely say that I regard it as superior to of my family, I can safely say that I regard the same any remedy we have ever used, in an experience of twenty years. I would, therefore, recommend it to every family, as an invaluable remedy, and every individual to procure a bottle and keep it by them in these times of cholera.

R. R. PARKER,

This is to certify that I have used Dr. R. H. Worthington's Cholera Medicine in my family for the last four or five weeks, in several cases of Bowel Complaint, so common in our vicinity, with invariable success. One of the cases was that of a negro child, some four or five months old, who was so emaciated by the effects of the disease, that its life was nearly despaired of, when my wife happened to think that she would try the Cholera Medicine, and did so with complete success, in less than forty-eight hours. I am thoroughly of opinion that no family should be without so fine a medicine.

Given under my hand, this 3d day of October, '54

MURFREESBORO', N. C. Dr. R. H. Worthington: It affords us pleasure to say, that we have used your Cholera Diarrhea Medicine for the last twelve months, and have found it invariably successful, in relieving speedily the cases in which we have had occasion to use it. We entertain a high appreciation of its value, and have no hesitation in expressing the opinion, that it is a state of the a valuable family medicine. it will prove to be a valuable family medicine.

5.200 ACRES of TURPENTINE Land FOR SALE.—We offer for sale a tract of Pine Land containing about 5,200 acres, situated in Onslow county, adjoining the New Hanover county line. The Holly Shelter road from Wilmington to Jacksonville and Richlands, runs through it. There are 11 crops of Boxes on the land now in successful working condition, a Turpentine Still, capable of running 30 barrels, a Dwelling House, Store and Warehouse, Cooper's and Blacksmiths shops, Barns, Stables, Negro Houses, and in fact every thing necessary for the prosecution of the business; 16 mules, 6 waggons, timber carriages, &c., stock of cattle and hogs. The produce of the land is hauled 9 miles to navigable water for flat boars at all seasons of the year. The timber is hauled 5½ miles to a Creek. There is a considerable quantity of good timber on the land, and lightwood for making tar in abundance.

The above presents a favorable opportunity for Turpentine and Timber dealers, to make an investment which cannot fail to be highly remunerative. There are no Stills within 10 miles of the place, and consequently no competition in the purchase of the raw material. The subscribers having other business to attend to cannot give the place proper attention, and will sell the whole, or an interest of one-half to a competent person who will take charge of the premises and conduct the business. Apply to WM. A. GUYER, or

A NEW and singularly successful remedy for the cure of all Bilious diseases — Costiveness, Indi-A cure of all Silious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious act, often fatal diseases, which might have been avoided by the timely and judicious use of a good purgation. This is alike true of Colds, Feverish symptoms, a Bilious derangements. They all tend to become a produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hifherto known of any medicine. Cures have been effected beyond belief, were they not sub-stantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Among the many eminent gentlemen who have testified in favor of these Pills, we may mention: Dr. A. A. Hayes, Analytical Chemist, of Boston,

and State Assayer of Massachusetts, whose high professional character is endorsed by the Hon. Edward Everett, Senator of the U. S. Robert C. Winthrop, Ex-Speaker of the House ABBOTT LAWRENCE, Minister Plen. to England.
† JOHN B. FITZPATRICK, Cath. Bishop of Boston.
Also, Dr. J. R. CHILTON, Practical Chemist, of

New York City, endorsed by
Hon. W. L. Marcy, Secretary of State.
WM. B. Astor, the richest man in America.
S. LeLand & Co., Propr's of the Metropolitan
Hotel and others. Hotel, and others. Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than

the experience of eminent public men is found in their effects upon trial. These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for measures has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any unocess. The reason is perfectly obvious. While by the old made of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert is connoxious qualities of each substance employed it is aft behind, the curative virtues only being repulsed the Pills a surer, more powerful anticote as on in a han any other medicine known to the ow some three.

As it is frequently chove is all at my medicine should be taken under the effect of an attending Physician, and as he consistent properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that changes a known. Their life consists in their mys to kill. have ne mysteries.

The composition of my prepara.

mysteries.

The composition of my prepara. N. Alaid open to all men, and all who are compete to gludge on the subject freely acknowledge the convictions of their intrinsic merits. The Cherral tectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of

my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their enects upon trial. They operate by their enects upon that.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derange-

ments as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.
