TREBLE PATENT IMPROVED EYELET MA-  
CHINE.  
First patent—combined on one stock  
Second patent—self feeding with eyelid  
Third patent—patent improved fastener, riveting  
both sides.

All parties in want of a good Eyelet Machine, are  
strongly recommended to use none but LIPMAN'S  
PATENT IMPROVED, which is decidedly the best  
ever brought before the public, possessing numerous  
advantages, viz.:  
It is strong, durable and not liable to get out of or-  
der. It punches the hole well, and to fit the Eyelet,  
and in one operation clinches the Eyelet on both  
sides. It saves time, as the papers do not need to  
be reversed or turned over to clinch the Eyelet a se-  
cond time, as is the case with all other machines.  
It is useful to the Merchant in fitting away papers,  
as well as to the attorney or Conveyancer, the Shoe  
maker, Tailor, Milliner, and numerous others, and  
is a very labor saving machine.  
Sold by all the principal Stationers and Fancy  
Goods Dealers throughout the United States.

TO ALL THAT VALUE THEIR SIGHT.

JOHN TOBIAS  
PRACTICAL OPTICIAN

WISHES to call the attention to all that suffer  
with defective sight, caused by age, sickness,  
and particularly of on glasses judiciously selected,  
to his superior SPECTACLES and GLASSES care-  
fully ground by himself to a true spherical accuracy,  
and brilliant transparency, and of precisely and ben-  
eficially to the wearer according to the convexity or  
concavity of the eye. Very numerous are the ill ef-  
fects caused by the use of spectacles of inferior  
quality, and the commencement of sight from not being  
precisely suited, by the use of an Optician, and the  
practice of many years, enables him to measure the  
focal distance of the eyes, and such glasses that are  
absolutely required will be furnished with precision  
and satisfaction.  
He acknowledges the very liberal encourage-  
ment already obtained, and further solicits the pa-  
tronage of those that have not yet availed themselves  
of his aid.  
Persons that cannot conveniently call, by sending  
the glasses in use, and stating how many inches  
they can read this print with their spectacles, can be  
supplied with such that will improve their sight.  
(Numerous testimonials to be seen; and refer-  
ences given to many who have derived the greatest ease  
and comfort from his glasses.  
Circulars to be had gratis, at his office, No. 513  
Seventh street, three doors from Odd Fellows' Hall,  
up stairs.

NORFOLK, September 7, 1854.  
Sir—The Spectacles you made for me suit very  
well, and seem to have improved my sight more  
than any other I have lately tried.  
I have tried a pair of Spectacles obtained from  
Mr. Tobias, and find them of great assistance to my  
sight, and corresponding with his description of the  
same. I recommend him as a skillful Optician.  
HENRY A. WISE.

Mr. J. TOBIAS:  
The pair of Spectacles you furnished me  
yesterday are particularly satisfactory to me. They  
are very decidedly the best I possess, and I am the  
owner of eight or nine pairs, carefully selected in  
different places and from opticians recommended to  
me on account of their professional standing in Eng-  
land, France, and the United States. I have been  
unable to find any other pair so good, and their  
Land Warrants will be forwarded to them for the  
above quantity, and no charge if they do not get it.
