Member of the Boyal College of Surgeons, London, Graduate from one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nerveusness, be alarmed at sudden sounds, bashfulness, with frequence blushing, attended sometimes with derangement of mind were cured immediately.

Who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country and darling of his parents, should be snatched from all the prospects and enjoyments of life by the consequence of deviation from the path of nature and indulging in a certain secret habit. Such persons must, befere contemplating
